LETTER

FROM THE

SECRETARY OF THE TREASURY,

TRANSMITTING

ESTIMATES OF APPROPRIATIONS

REQUIRED FOR THE

SERVICE OF THE FISCAL YEAR ENDING JUNE 30, 1895.

TEASURY DEPARTMENT.

Document No. 1633.

Secretary—W., E., and A.

LETTER
FROM
THE SECRETARY OF THE TREASURY,

TRANSMITTING

*Estimates of appropriations required for the service of the fiscal year
ending June 30, 1895.*

TREASURY DEPARTMENT,

December 4, 1893.

SIR: In conformity with the requirements of sections 3669, 3670, and 3672 of the Revised Statutes, and act of July 7, 1884 (23 Stat., page 254), I have the honor to transmit, for the information of Congress, the estimates of appropriations required for the service of the fiscal year ending June 30, 1895, as furnished by the several Executive Departments; also, statements of the proceeds of sales of Government property, and the expenditures of the moneys appropriated for contingent expenses of the Independent Treasury for the fiscal year 1893.

I have the honor to be,

Very respectfully, your obedient servant,

JOHN G. CARLISLE,

Secretary.

To the Hon. SPEAKER OF THE HOUSE OF REPRESENTATIVES.

ESTIMATES FOR 1895.

Estimates of appropriations required for the service of the fiscal year ending June 30, 1895—Continued.

General object (title of appropriation) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes.			Estimated amt required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1894.
		Vol. or R. S.	Page.	Sec.			
<i>Salaries, Civil-Service Commission.—Continued.</i>							
Two laborers, at \$660 each (one submitted).....	Jan. 16, 1883 Mar. 3, 1893 Submitted.....	R. S. 22 27	27 403, '4 681	167 1-3 1	\$1,320 00 840 00 660 00 2,160 00	\$51,080 00	\$36,400 00
One engineer.....	do.....						
One fireman.....	do.....						
Three watchmen, at \$720 each.....	do.....						
Examining force:							
Five clerks of class four.....	Submitted.....				9,000 00		
Five clerks of class three.....	do.....				8,000 00		
Ten clerks of class two.....	do.....				14,000 00		
Ten clerks of class one.....	do.....				12,000 00	43,000 00	
<p>NOTE.—The increase in the regular clerical force is rendered necessary by the growth and extension of the classified service, especially its extension to over five hundred and sixty (560) additional free-delivery post-offices, which doubles the work. In its former quarters in the City Hall building the Commission had no need of an engineer, fireman, or watchman. It now occupies the whole of a three-story building having more than 15,000 feet floor space, and the assistant messenger, additional laborer, engineer, fireman, and watchmen are needed for the proper heating and care of the building. The additional messenger estimated for is needed on account of the increased work of the Commission and the larger space occupied in its present quarters.</p> <p>In addition to the statement made by the Commission in its estimate for an examining force for the fiscal year ending June 30, 1894, it may be stated that the work of the examining branch has been more than doubled by the extensions of the classified service, especially its extension to the free-delivery post-offices above mentioned, the examination papers from all of which must necessarily be marked by the central board of examiners of the Commission. To accomplish this work the board has been increased by additional details during the current year until the total number now detailed, in addition to the regular clerical force, is thirty-seven.</p>							
<i>Traveling Expenses, Civil Service Commission.—</i>							
Necessary traveling expenses, including those of examiners acting under the direction of the Commission, and for expenses of examinations and investigations held elsewhere than at Washington.....	Mar. 3, 1893	27	681	1		7,000 00	6,000 00
<p>NOTE.—An increase of \$1,000 is asked for in this appropriation to meet the increased expenses of examinations held elsewhere than in Washington, arising from the necessity of renting rooms and furniture and paying for janitor service at points where there are no public buildings, especially for examinations at more than six hundred (600) free-delivery post-offices, and the increased travel required by the growth and extension of the service, and the proper supervision of the work at classified custom-houses and post-offices.</p>

<i>Historical Register of the Department of State—</i>							
To enable the Secretary of State to purchase from John H. Haswell, chief of the bureau of indexes and archives in the Department of State, the manuscript prepared by him of a historical register of the Department of State and of the foreign service of the Government, from September 5, 1774, to July 1, 1885, containing among other things, a list of the names, dates of appointment, and terms of service of the following: Presiding officers of the Colonial Congress; committees having charge of Foreign Affairs; Presidents of the United States; Secretaries of State and all subordinate officers of the Department of State, including clerks							

Estimates of appropriations required for the service of the fiscal year ending June 30, 1895—Continued.

General object (title of appropriation) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes.			Estimated am't required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1894.
		Vol. or R. S.	Page.	Sec.			
<i>Historical Register of the Department of State—Continued.</i>							
and messengers; all the diplomatic and consular officers of the United States, including special and secret agents; all foreign ministers accredited to this Government; also briefs of all powers conferred upon the Secretaries of State and United States ministers to conclude treaties, and synopses of all the treaties concluded with foreign powers; also a list of the numbers of international tribunals, boundary and claims commissions, etc., \$6,000. And the Public Printer is hereby authorized, upon the requisition of the Secretary of State, to cause to be printed and bound in cloth, for the use of the Department of State, 5,000 copies of the above-mentioned work. (See House Ex. Doc. No. 110, Forty-eighth Congress, second session.)	Submitted.....					\$6,000 00	
NOTE.—In explanation of all new and increased items in the foregoing estimates of the State Department see Appendix A. NOTE.—The estimate for "Printing and binding," State Department, under section 2, act of May 8, 1872 (R. S., 720, sec. 3661), will be found under the title of "Miscellaneous," <i>post</i> .

<i>Salaries and Expenses of Sugar Inspectors—</i>							
NOTE.—The Secretary of the Treasury having recommended the repeal of the provision in the act of October first, eighteen hundred and ninety, for the payment of a bounty to the producers of sugar within the United States, the estimate for "Salaries and expenses of sugar inspectors" is omitted. In case the law remains in force, it will be necessary to provide for the employment of not to exceed twelve inspectors, at a salary not exceeding five dollars per day and necessary expenses, estimated in all at \$36,000, for the fiscal year eighteen hundred and ninety-five.

						107,500 00	106,300 00
NOTE.—In the foregoing estimate a clerk to the Secretary of War at \$2,400 and a clerk to the Assistant Secretary of War at \$1,800 are submitted. In several of the Executive Departments the services of clerks or private secretaries to the heads of department are regularly provided for, while in the War Department this service has been performed by clerks detailed from the ordinary clerical force of the office. One stenographer at \$1,800 and one clerk at \$1,200 are dropped.

	Aug. 5, 1882	22	238	1			
	Aug. 29, 1890	26	370	1			
	Mar. 3, 1893	27	698	1			
						\$659,190 00	\$1,004,190 00
NOTE.—By reason of the satisfactory progress of the work of carding the military records of volunteers, it is believed that a reduction of 250 clerks of class one and of 50 copyists can be made in the next fiscal year without detriment to the public business, and this estimate is therefore less by 250 clerks of class one and 50 copyists than the number allowed by law for the current fiscal year. The reduction in salaries amounts to \$345,000. The force allowed by law for the current year is one clerk of class one and four clerks of class \$1,000 less than the estimate submitted last year.—F. C. Ainsworth, Colonel, U. S. Army, Chief, Record and Pension Office.

One day watchman at Mount Vernon Square and adjacent reservations.....	do.					660 00	
One day watchman at grounds south of the Executive Mansion.....	do.					660 00	
One day watchman for greenhouses and nursery.....	do.					660 00	
One night watchman at Garfield Park.....	do.					720 00	
						48,260 00	47,060 00

Estimates of appropriations required for the service of the fiscal year ending June 30, 1895—Continued.

General object (title of appropriation) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes.			Estimated amt required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1894.
		Vol. or R. S.	Page.	Sec.			
<i>Contingent Expenses, Public Buildings and Grounds under Chief of Engineers—</i>							
Contingent and incidental expenses.....						\$500 00	\$500 00
NOTE.—The necessity for the above increase of the estimates over the appropriations for the present fiscal year is explained in the statement of the officer in charge of public buildings and grounds, in Appendix E.							
OFFICE OF SUPERINTENDENT OF STATE, WAR, AND NAVY DEPARTMENT BUILDING.							
<i>Salaries, Office of Superintendent of State, War, and Navy Department Building—</i>							
One clerk of class one.....	Mar. 3, 1883	R. S.	27	167-9	\$1,200 00		
	Mar. 3, 1893	22	553	1			
One chief engineer.....	Same acts.....	27	700	1	1,200 00	121,380 00	121,380 00
Eight assistant engineers, at \$1,000 each.....	do.....				8,000 00		
One captain of watch.....	do.....				1,200 00		
Two lieutenants of watch, at \$840 each.....	do.....				1,680 00		
Fifty-eight watchmen, at \$720 each.....	do.....				41,760 00		
One carpenter.....	do.....				1,000 00		
One plumber.....	do.....				900 00		
One machinist.....	do.....				900 00		
One painter.....	do.....				900 00		
Four skilled laborers, at \$720 each.....	do.....				2,880 00		
Twenty-eight firemen, at \$720 each.....	do.....				20,160 00		
Ten elevator conductors, at \$720 each.....	do.....				7,200 00		
Twenty laborers, at \$660 each.....	do.....				13,200 00		
Eighty charwomen, at \$240 each.....	do.....				19,200 00		
<i>Fuel, Lights, etc., State, War, and Navy Department Building—</i>							
Fuel, lights, repairs, and miscellaneous items (increase of \$4,000 submitted, see note).....	Mar. 3, 1893	27	700	1		43,620 00	39,620 00
NOTE.—The elevator in the State Department (south wing) is old and worn out. If it is not rebuilt soon it will have to be disused, as it will be dangerous to life. An estimate of \$4,000 is therefore submitted to rebuild this elevator.— <i>Thom Williamson, Superintendent of State, War, and Navy Department Building.</i>							
NOTE.—The estimate of the Secretary of War for "printing and binding," under section 3661, p. 720, of the Revised Statutes, will be found under the head of "Miscellaneous," post.							
Total War Department.....						1,862,016 00	2,191,596 00

BUREAU OF NAVIGATION.							
Salaries, Bureau of Navigation—							
Chief clerk	Mar. 3, 1893	R. S. 27	701	416 1	\$1,800 00		
Four clerks of class four.....	Mar. 3, 1893	R. S. 27	701	167 1	7,200 00		
Three clerks of class three	Same acts.....				4,800 00		
Three clerks of class two.....	do.....				4,200 00		
Four clerks of class one.....	do.....				4,800 00		
One clerk	do.....				1,000 00		
One copyist.....	do.....				900 00		
One copyist.....	do.....				720 00		
One assistant messenger	do.....				720 00		
Three laborers, at \$660 each.....	do.....				1,980 00		
One clerk of class two.....	Submitted.....				1,400 00		
NOTE.—The work of the Bureau has increased so much during the past two years that it is impossible to carry on the current work and keep up the records with the clerical force now allowed.						\$29,520 00	\$28,120 00
Salaries, Office of Naval Intelligence—							
One clerk of class one (now on rolls Bureau of Supplies and Accounts).....	Submitted.....				1,200 00		
One laborer (now on rolls Bureau of Navigation).....	do.....				660 00		
NOTE.—The clerk and laborer referred to above are borne on the rolls of Bureaus of the Navy Department, this being due to the fact that the office of Naval Intelligence was originally under one of the Bureaus. The office of Naval Intelligence was transferred to the Secretary's office in October, 1890, and it is now desired to have the above clerk and laborer appropriated for as under that office.— <i>F. Singer, Chief Intelligence Officer.</i>						1,860 00	
Salaries, Office of Naval Records of the Rebellion—							
Two clerks of class four.....	July 7, 1884	R. S. 23	185	167-9 1	3,600 00		
One clerk of class three.....	Mar. 3, 1893	27	701	1	1,600 00		
Two clerks of class two.....	Same acts.....				2,800 00		
Two clerks of class one.....	do.....				2,400 00		
One clerk	do.....				1,000 00		
Two copyists, at \$900 each.....	do.....				1,800 00		
Four copyists, at \$720 each.....	do.....				2,880 00		
Necessary traveling and incidental expenses for collection of records	do.....				600 00		
Additional estimate: For beginning the publication of the Official Naval Records of the Rebellion, both Union and Confederate..						16,680 00	16,680 00
NOTE.—These records have been collected with great care and labor and at large expense. They are now ready in part for publication. (See Appendix F.)	Submitted.....					15,000 00	
Salaries, Library of the Navy Department—							
One clerk.....	Mar. 3, 1893	R. S. 27	701	167 1	1,000 00		
One assistant messenger.....	Same acts.....				720 00		
One laborer.....	do.....				660 00		
						2,380 00	2,380 00
Library, Navy Department—							
For professional books and periodicals for the library	Mar. 3, 1893	27	703	1	1,000 00		500 00
NOTE.—See Appendix F.							
OFFICE OF JUDGE-ADVOCATE-GENERAL.							
Salaries, Office of Judge-Advocate-General—							
Chief clerk (in lieu of one clerk of class four)	June 8, 1881	R. S. 21	164	167 1	1,800 00		
One clerk of class four.....	Mar. 3, 1893	27	701	1	1,800 00		
One clerk of class three.....	Same acts.....				1,600 00		
One clerk of class three.....	Submitted.....				1,600 00		
One clerk of class two	June 8, 1881	R. S. 21	164	167 1	1,400 00		
Two clerks of class one.....	Mar. 3, 1893	27	701	1	2,400 00		
One clerk.....	Same acts.....				1,000 00		
One laborer	do.....				660 00		
NOTE.—The designation of one of the clerks of class four as chief clerk is desirable in order that such designation may conform to the nature of his duties, and does not involve any increase in compensation or in the appropriations made for this office. In consequence of the large amount of work devolving upon the office of the Judge-Advocate-General, in connection with contracts growing out of recent acts of Congress providing for the increase of the Navy, the services of an additional law and contract clerk are rendered necessary, and an estimate for an additional clerk of class three is accordingly submitted.						12,260 00	10,660 00

Estimates of appropriations required for the service of the fiscal year ending June 30, 1895—Continued.

One laborer.....	do.....				660 00		
Pay of computers on piecework in preparing for publication the American Ephemeris and Nautical Almanac, and in improving the tables of the planets.....	do.....				8, 400 00		
						\$23, 880 00	\$23, 880 00
NAVAL OBSERVATORY.							
<i>Salaries, Naval Observatory—</i>							
One assistant astronomer.....	Aug. 5, 1882 Mar. 3, 1893	R. S. 22 27	27 245 702	167 1 1	2, 000 00		
Two assistant astronomers, at \$1,800 each.....	Same acts.....				3, 600 00		
One clerk of class four.....	do.....				1, 800 00		
One instrument-maker.....	do.....				1, 500 00		
One electrician.....	do.....				1, 500 00		
One photographer.....	do.....				1, 200 00		
Five computers, at \$1,200 each.....	do.....				6, 000 00		
One assistant librarian.....	do.....				1, 200 00		
One copyist.....	do.....				900 00		
One carpenter.....	do.....				1, 000 00		
One engineer.....	do.....				1, 000 00		
Four skilled laborers, one at \$1,000 and three at \$720 each (increase of two, at \$720 each, submitted).....	do.....				3, 160 00		
Two firemen, at \$720 each.....	do.....				1, 440 00		
Six watchmen, at \$720 each.....	do.....				4, 320 00		
One elevator conductor.....	Submitted.....				720 00		
Eleven laborers, at \$660 each.....	Aug. 5, 1882 Mar. 3, 1893	R. S. 22 27	27 245 702	167 1 1	7, 260 00		
Two charwomen, at \$240 each.....	Submitted.....				480 00		
						39, 080 00	36, 440 00
NOTE.—The additional force asked for should not be regarded as an ordinary increase, because the necessity for it arises from the organization of a new establishment. The astronomical work can not be properly performed without more assistance. The numerous buildings, tunnels, water system, elevators, and extensive heating and electric light plants, operated by means of three boilers, two engines, and two dynamos, require constant attention both day and night.							
<i>Contingent and Miscellaneous Expenses, Naval Observatory—</i>							
Miscellaneous computations.....	Aug. 5, 1882 Mar. 3, 1893	22 27	245 702	1 1	1, 200 00		
Professional and scientific books, periodicals, engravings, photographs, fixtures, and supplies for the library, and binding for the same (increase of \$1,000 submitted).....	Same acts.....				2, 000 00		
Apparatus and instruments, and repairs of the same.....	do.....				2, 500 00		
Repairs to buildings, fixtures, and fences; furniture, gas, chemicals, and stationery; freight (including transmission of public documents through the Smithsonian exchange), foreign postage, and expressage; plants, fertilizers, and all contingent expenses (increase of \$2,050 submitted, to equal the amount appropriated March 3, 1891, for 1892).....	do.....				4, 550 00		
NOTE.—Repairs and contingent expenses.—The amount asked for (\$4,550) is the same appropriated for the year 1892. The amount for 1894 is inadequate to meet all the unforeseen contingencies occurring in connection with the occupation of a new establishment incomplete in minor details.							
Fuel, oil, grease, tools, pipe, wire, and other materials needed for the maintenance and repair of boilers, engines, heating apparatus, electric-lighting and power plant, and water-supply system; purchase and maintenance of teams; material for boxing nautical instruments for transportation; paints, telegraph and telephone service, and incidental labor (increase of \$2,500 submitted).....	do.....				10, 000 00		
						20, 250 00	14, 700 00
NOTE.—Approximate estimates in detail, viz: Coal, 900 tons, at \$6 per ton, \$5,400; supplies for engines, pumps, and electric-light plant, \$1,350; repairs to boilers, engines, dynamos, pumps, heating and water systems, \$500; purchase and maintenance of teams, \$1,000; material for boxing nautical instruments, \$100; paints, etc., \$400; telegraph and telephone service, \$250; incidental labor, \$1,000.							

Estimates of appropriations required for the service of the fiscal year ending June 30, 1895—Continued.

General object (title of appropriation) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes. <i>Postage to Postal-Union Countries, Department of the Interior—</i>							
Postage stamps for the Department of the Interior and its bureaus, as required under the Postal Union to prepay postage on matter addressed to Postal-Union countries.....	Mar. 3, 1893	27	708	1	\$4,000 00	\$2,000 00
<p>NOTE.—Referring to the estimate submitted for appropriation for postage stamps for use of the Department during the next fiscal year, I have to say that said estimate is the same in amount as that annually submitted for several years past, excepting the year 1893-'94, when it was reduced to \$2,500 by the Secretary, to make it conform to the appropriation made for the previous year. That appropriation, however, was adequate only because quite a large number of stamps were left over from the year before. The stamps issued during the year 1891-'92 amounted in value to \$3,552.50, during the year 1892-'93 to \$3,144 and already during the present fiscal year to \$885. It is evident, therefore that the appropriation of \$2,000 made for the present year will be altogether insufficient to meet the demands of the Department, and that a deficiency appropriation must be requested of Congress.</p> <p>I think that nearly if not quite \$4,000, the amount of the estimate, will be required for the next fiscal year, and that an appropriation of a smaller sum will involve the necessity of again submitting a deficiency estimate.—<i>John G. Ames, Superintendent of Documents.</i></p> <p>NOTE.—The estimate of the Secretary of the Interior for "Printing and binding," under section 2, act of May 8, 1872 (Rev. Stat., 720, sec. 3661), will be found under the title of "Miscellaneous," post.</p>

<i>Scientific Library, Patent Office—</i>							
Purchase of books and other publications for the Scientific Library.....	Mar. 3, 1893	R. S. 27	81 706	486 1	2,000 00		2,000 00
	Submitted.	27	706	1			
<i>Foreign Exchanges, Patent Office—</i>							
Foreign exchanges, and transporting patents and other publications.....	Mar. 3, 1893	27	706	1	750 00		
	Submitted.						

NOTE—By the act of July 31, 1886, the appropriations for the Scientific Library and for expenses for transporting publications of patents to foreign governments were consolidated. Prior to this, \$3,000 was appropriated for the Library and \$2,000 for the transportation expenses, but under this act only \$3,000 was appropriated for each purpose. The appropriation for both should be distinct and separate. The Patent Office is frequently compelled to decline valuable foreign exchanges because of insufficient appropriation to pay for transportation. Many of these foreign publications would be of great value in the examination of pending applications, and the necessary funds should be furnished this office to enable it to accept such of these foreign exchanges as are required for its work.

Estimates of appropriations required for the service of the fiscal year ending June 30, 1895—Continued.

General object (title of appropriation) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes.			Estimated amt required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1894.

<i>Official Gazette, Patent Office—</i> Photolithographing or otherwise producing plates for the Official Gazette	Mar. 3, 1893	27	706	1	\$50,000 00		
Increase	Submitted.				5,000 00		
						\$55,000 00	\$50,000 00
<i>Photolithographing, Patent Office—</i> Photolithographing or otherwise producing copies of drawings of the weekly issue of patents, for producing copies of designs, trade-marks, and pending applications, and for the reproduction of exhausted copies of drawings and specifications; said photolithographing or otherwise producing plates and copies referred to in this and the preceding paragraph to be done under the supervision of the Commissioner of Patents, and in the city of Washington, if it can there be done at reasonable rates; and the Commissioner of Patents, under the direction of the Secretary of the Interior, shall be authorized to make contracts therefor	Mar. 3, 1893	27	706	1	95,000 00		
Increase	Submitted.				5,000 00		
						100,000 00	95,000 00
NOTE.—The act of March 3, 1893, reduced the appropriation for the Official Gazette \$5,000, and it also reduced the appropriation for the production of the weekly issue of patents, etc., \$5,000. It is respectfully submitted that the number of applications for patents filed during the last fiscal year was the largest in the history of the Patent Office. It is obvious that with the business constantly increasing the appropriations should not be reduced, and it is earnestly recommended that the former amounts be restored.							
<i>Public Use of Inventions and Defending Suits, Patent Office—</i> Investigating the question of the public use or sale of inventions for two years or more prior to filing applications for patents, and for expenses attending defense of suits instituted against the Commissioner of Patents..	Mar. 3, 1893	27	706	1	250 00		
Increase	Submitted.				500 00		
						750 00	250 00
NOTE.—The act of March 3, 1893, reduced the appropriation for this object \$250; the act of March 1, 1891, provided \$750, and this amount should be restored.							
<i>International Protection of Industrial Property, Patent Office—</i> The share of the United States in the expense of conducting the international bureau at Berne, Switzerland.....	Mar. 3, 1893	27	706	1	700 00

Estimates of appropriations required for the service of the fiscal year ending June 30, 1895—Continued.

General object (title of appropriation) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes.			Estimated amt required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1894.
		Vol. or R. S.	Page.	Sec.			
<i>Library, Bureau of Education—</i>							
Books for the library, current educational periodicals, newspapers and other current publications, and completing sets of books and periodicals.....	Mar. 3, 1893	27	706	1	\$500 00	\$500 00
<i>Collecting Statistics, Bureau of Education—</i>							
Collecting statistics for special reports and circulars of information.....	Mar. 3, 1893	27	707	1	\$1,500 00		
Increase (see note).....	Submitted.....				1,500 00	3,000 00	1,500 00
NOTE.—The appropriation for collecting statistics is the fund with which are procured the various documents published as circulars of information which have proved so valuable to the cause of education. At the present time a moderate amount of this fund should be used in obtaining special information regarding important experiments in progress in the cities of this country and Europe in dealing with the weaklings of society, and children of the population that live in the slums. This problem is growing on society rapidly with the growth of cities and experiments in this line need to be carefully investigated and reported. By this information much useless repetition of experiments may be saved. It is strongly recommended that this appropriation be restored, as estimated above, to the amount allowed for a number of years till 1892.							
<i>Distributing Documents, Bureau of Education—</i>							
Purchase, distribution, and exchange of educational documents, and for the collection, exchange, and cataloguing of educational apparatus and appliances, text-books, and educational reference books, articles of school furniture, and models of school buildings, illustrative of foreign and domestic systems and methods of education, and for procuring anthropological instruments of precision, and for repairing the same.....	Mar. 3, 1893	27	707	1	1,500 00		
Increase (see note).....	Submitted.....				2,500 00	4,000 00	1,500 00
NOTE.—The specific objects of this appropriation are the same as for several years past, with the addition of the words for procuring anthropological instruments of precision. The Bureau of Education should have in its museum specimens of all the newly invented instruments devised by specialists for scientific investigation in the field of education. Colleges and higher institutions of learning are establishing laboratories for the study of physical and mental development. It would increase the usefulness of the Bureau very much if it could show a complete set of the apparatus used in these investigations. The importance of this and other objects of this fund justifies the recommendation that it be increased for next year as estimated.

<i>Salaries, Offices of Surveyors-General—Continued.</i>							
Office of surveyor-general of North Dakota :							
Surveyor-general.....	{ Apr. 10, 1890 Mar. 3, 1893	R. S. 26 27	391 53 709	2226 2 1	{ \$2,000 00 6,000 00	\$8,000 00	\$7,500 00
Clerks in his office.....	Same acts.....						
NOTE.—The estimate of \$6,000 for clerk hire is submitted as necessary for the proper transaction of the current office work pertaining to the survey of the public lands for the bringing up of arrears of office work and for the briefing, indexing, and arranging of the office correspondence, field notes, plats, and other miscellaneous work.							
Office of surveyor-general of Oregon :							
Surveyor-general.....	{ Mar. 3, 1893	R. S. 27	388 709	2209 2226 1	{ 2,000 00 5,500 00	7,500 00	5,000 00
Clerks in his office.....	Same acts.....						
NOTE.—The estimate of \$5,500 for clerk hire is submitted as necessary for the prompt and proper performance of the office work in connection with the public land surveys.							
Office of surveyor-general of South Dakota :							
Surveyor-general.....	{ Apr. 10, 1890 Mar. 3, 1893	R. S. 26 27	391 53 709	2226 2 1	{ 2,000 00 8,000 00	10,000 00	10,000 00
Clerks in his office.....	Same acts.....						
NOTE.—The estimate of \$8,000 for clerk hire is submitted as necessary to carry on the current work of the office in a proper manner, to bring up arrears of office work, consisting of filing and indexing of circulars, papers relating to Indian and military reservations and miscellaneous papers, and of letters and miscellaneous papers which have accumulated in this office from date of establishment to the present time, the present indexing being incomplete and incorrect; indexing of records of letters from this office; annotation of archives, formerly in this office, recently surrendered to the surveyor-general of North Dakota and to the State of Nebraska, also indexing of field notes of surveys executed during the last four seasons.							
Office of surveyor-general of Utah :							
Surveyor-general.....	{ Mar. 3, 1893	R. S. 27	389 709	2210 2226 1	{ 2,000 00 4,000 00	6,000 00	5,000 00
Clerks in his office.....	Same acts.....						
NOTE.—The estimate of \$4,000 for clerk hire is submitted as necessary for the proper transaction of the current work of the office, and for the preparation of connected plats of the several mining districts. In submitting his annual estimates the surveyor-general states: "The need in this office of proper connected plats of the mining districts is urgent. It becomes every year, as the number of claims in each district increases, more difficult to avoid errors in the examination of mining claims. In three previous estimates and in numerous letters your attention has been called to this necessity. I most urgently request that an appropriation of \$5,000 be made for this purpose."							
Office of surveyor-general of Washington :							
Surveyor-general.....	{ Mar. 3, 1893	R. S. 27	388 709	2209 2226 1	{ 2,000 00 9,500 00	11,500 00	10,500 00
Clerks in his office.....	Same acts.....						
NOTE.—The estimate of \$9,500 for clerk hire is submitted as necessary for the proper transaction of office work in connection with the public land surveys, for the current work of the office, which is constantly increasing, and for bringing up of arrears of office work.							
Office of surveyor-general of Wyoming :							
Surveyor-general.....	{ Mar. 3, 1893	R. S. 27	389 709	2210 2226 1	{ 2,000 00 4,800 00	6,800 00	7,500 00
Clerks in his office.....	Same acts.....						
NOTE.—The estimate of \$4,800 for clerk hire is submitted as necessary for the proper transaction of the office work connected with the public land surveys executed under contracts let during the current fiscal year (1894) and such returns of surveys as may be made during the ensuing fiscal year.							
GENERAL NOTE.—In the foregoing estimates I have deemed proper to submit the amounts required for salaries of surveyors-general at the rates of compensations named in sections 2208, 2209, and 2210, Revised Statutes of the United States, and act of April 10, 1890, 26 Stats., p. 53. The office of surveyor-general is one of great responsibility. The duties are often onerous, and I think they should receive the full compensation allowed by law. I earnestly recommend that the appropriations be made in accordance with the estimates.

<i>Contingent Expenses, Offices of Surveyors-General—</i>							
Office of <i>ex-officio</i> surveyor-general of Alaska : Books, stationery, office furniture, and other incidental expenses.....	Submitted.....	R. S.	391	2227	}	\$1,000 00	
<p>NOTE.—Under the provisions of section 8 of the act of May 17, 1884, entitled "An act providing a civil government for Alaska" the United States marshal for said Territory is made the <i>ex-officio</i> surveyor-general. Sections 11, 12, 13, 14, and 15 of the act of March 3, 1891, entitled "An act to repeal timber-culture laws and for other purposes" provide for the disposal of public land in Alaska for town-site purposes and for the use and necessities of trade and manufactures. Under the last-named act regulations have been prescribed and surveying operations have been commenced. The estimate of \$1,000 is submitted to cover the contingent expenses connected with the surveying service and to provide the necessary record books and office furniture.</p>

Quarantine Stations for Neat Cattle— To establish and maintain quarantine stations, and to provide proper shelter for and care of neat cattle imported, at such ports as may be deemed necessary..... That whenever the Secretary of Agriculture shall certify to the Secretary of the Treasury what countries or parts of countries are free from contagious or infectious diseases of domestic animals, and that neat cattle and hides can be imported from such countries into the United States without danger to the domestic animals of the United States, the Secretary of the Treasury shall suspend the prohibition of the importation of neat cattle and hides, in the manner provided by law. That the Secretary of Agriculture shall determine and certify to the Secretary of the Treasury what are recognized breeds and pure-bred animals, under the provisions of paragraph 482 of the act of Congress approved October 1, 1890.	Appropriated..	27	740	1	\$12,000 00	\$15,000 00
Purchase and Distribution of Seeds— Division of seeds: Purchase, propagation, and distribution of rare and improved seeds, bulbs, trees, shrubs, vines, cuttings, and plants, for experimental purposes only, and for labor, transportation, traveling expenses, paper, twine, gum, printing, postal cards, and all necessary material for putting up and distributing the same, \$30,000, or so much thereof as the Secretary of Agriculture may deem necessary; such distribution to be made by the Secretary in his discretion as to the best means of carrying out the purposes of this appropriation. And he is hereby authorized to use the agricultural experiment stations to the extent he may think best as his agents, without compensation, in the propagation and distribution aforesaid. They and all persons receiving the same shall be required to inform him as to the results of such experiments..... Printing seed packets, labels, postal cards, circulars, etc., labor, paper, ink, type, and other necessary material for printing and for repairs	Appropriated..do.....	27	738, 9	1	\$30,000 00 5,000 00	35,000 00	135,400 00
Experiments in the Manufacture of Sugar— To enable the Secretary of Agriculture to continue in the State of Florida experiments in the production of sugar from sugar cane and sugar beets, including special culture experiments looking to the improvement of those sources of sugar, and for experiments for the more complete separation of the sugar from the molasses, including all necessary expenses in these investigations, namely, traveling expenses, labor, purchase of samples, apparatus, and supplies, chemical services, including \$250 additional temporary compensation to the chief chemist, and other expenses incidental to the experiments, \$10,000, or so much thereof as may be necessary... <i>Provided</i> , That all products of the said experiments may be sold and the proceeds thereof used in the experimental work, and that a full and accurate account of the proceeds of such sales be transmitted to Congress.	Appropriated..	27	741	1	10,000 00	20,000 00
Office of Experiment Stations— To enable the Secretary of Agriculture to carry into effect the provisions of section 3 of an act approved March 2, 1887, entitled "An act to establish agricultural experiment stations in connection with the colleges established in the several States under the provisions of an act approved July 2, 1862, and of the acts supplementary thereto," \$25,000; and the Secretary is hereby authorized to employ such assistants, clerks, and other persons as he may deem necessary, and to incur such other expenses in traveling, stationery, books, and office fixtures as he may find essential. And the Secretary of Agriculture is hereby authorized to furnish to such institutions and individuals as may care to buy it copies of the card index of agricultural literature prepared by the office of experiment stations, and charge for the same a price covering the additional expense involved in the preparation of these copies, and he is hereby authorized to apply the moneys so received toward the expense of the preparation of the index.	July 2, 1862 Mar. 2, 1887 June 7, 1888 July 18, 1888 Mar. 3, 1893	12 24 25 25 27	503 440 176 334 741	1 1-10 1 1 1	25,000 00	25,000 00

UNDER THE WAR DEPARTMENT.											
COMMANDING GENERAL'S OFFICE.											
<i>Expenses of the Commanding General's Office—</i> To defray the contingent expenses of the Commanding General's Office.....	Feb. 27, 1893	27	487	1	\$1, 750 00	\$1, 750 00				
ADJUTANT-GENERAL'S DEPARTMENT.											
<i>Expenses of Recruiting—</i> Expenses of recruiting and transportation of recruits from rendezvous to depot, including sending of recruiting parties to small towns, and not exceeding \$1,200, for payment of a clerk to the officer disbursing the appropriation, also including the necessary cost of transportation of accepted applicants from their homes to places of enlistment when authorized by the Secretary of War, in all	Feb. 27, 1893	27	486	1	130, 000 00	130, 000 00				
NOTE.—The number of recruits now required to fill the Army is							645				
The number of men to be discharged on expiration of term of service during the year ending June 30, 1895, is.....							2, 014				
The loss by discharge for disability, under the sentences of courts-martial, by desertion, death, retirement, etc., as determined by the average for the three years past, will be, say							6, 518				
Estimated increase in casualties by reason of discharges under the act approved June 16, 1890.....							500				
Making the number to be enlisted to keep the Army at its authorized strength of 25,000 men.....							9, 677				
The number that will be enlisted at military posts without expense is about							2, 500				
Leaving the number to be estimated for at a cost of \$18.72 for each recruit, which is the average cost of each recruit obtained at rendezvous during the three years ending June 30, 1893.....							7, 177				
Seven thousand one hundred and seventy-seven men, at \$18.72 each, will require.....							\$134, 353. 44				
Inasmuch, however, as the Army can hardly be kept recruited to its full maximum strength, it is believed that \$130,000, the amount of the recruiting appropriation for the present fiscal year, and also for each of the last two fiscal years, will be sufficient for the fiscal year ending June 30, 1895.											
<i>Contingencies, Headquarters of Military Departments—</i> Contingent expenses at the headquarters of the several military departments, including the staff corps serving thereat, being for the purchase of the necessary articles of office, toilet, and desk furniture, binding, maps, books of reference, including works on military history, tactics and the art of war, current military periodicals, and police utensils, to be allotted by the Secretary of War.....	Feb. 27, 1893	27	487	1	3, 500 00	3, 000 00				
NOTE.—The amount appropriated, \$3,000, for this object for the present fiscal year will not be sufficient to meet all the demands of the several military departments that are entitled to allotments from this appropriation, and an additional sum of \$500 is asked for to be allotted to the several bureaus of the War Department requiring funds of this character, as follows: Adjutant-General.....							\$1, 500				
Acting Judge-Advocate-General.....							800				
Inspector-General.....							400				
Surgeon-General.....							400				
Paymaster-General							400				
OFFICE OF THE CHIEF SIGNAL OFFICER.											
<i>Signal Service of the Army—</i> Expenses of the Signal Service of the Army, as follows: Purchase, equipment, and repair of field electric telegraphs, signal equipments and stores, binocular glasses, telescopes, heliostats, and other necessary instruments, including absolutely necessary meteorological instruments for use on target-ranges; telephone apparatus, (excluding exchange service) and maintenance of the same; maintenance and repair of military telegraph lines (excluding the military telegraph line, Fort Ringgold, Tex., to Fort McIntosh, Tex.), including salaries of civilian employes, supplies, and general repairs, and other expenses connected with the duty of collecting and transmitting information for the Army by telegraph or otherwise	Oct. 1, 1890	26	653	2	}	21, 500 00	22, 000 00				
	Feb. 24, 1891	26	779	1							
	Feb. 27, 1893	27	487	1							
NOTE.—The appropriation for the military telegraph line, Fort Ringgold, Tex., to Fort McIntosh, Tex., being a permanent specific one, the unexpended balance will be sufficient for the maintenance and repair of said line during the fiscal year ending June 30, 1895.—A. W. Greely, Chief Signal Officer.											

Estimates of appropriations required for the service of the fiscal year ending June 30, 1895—Continued.

SUBSISTENCE DEPARTMENT.

Subsistence of the Army—

Purchase of subsistence supplies: For issue, as rations to troops, civil employes when entitled thereto, hospital matrons, military convicts at posts, prisoners of war (including Indians held by the Army as prisoners, but for whose subsistence appropriation is not otherwise made), estimated for the fiscal year on the basis of 9,882,375 rations; for sales to officers and enlisted men of the Army; for authorized extra issues of candles; for matches for lighting public fires and lights at posts and stations and in the field; for salt and vinegar for public animals; for issues to Indians visiting military posts, and to Indians employed with the Army, without pay, as guides and scouts. For payments: For cooked rations for recruiting parties and recruits; for hot coffee, canned beef, and baked beans for troops traveling, when it is impracticable to cook their rations; for scales, weights, measures, utensils, tools, stationery, blank books and forms, printing, advertising, commercial newspapers, use of telephones, office furniture; for temporary buildings, cellars, and other means of protecting subsistence supplies (when not provided by the Quartermaster's Department); for extra pay to enlisted men employed on extra duty in the Subsistence Department for periods of not less than ten days, at rates fixed by law; for compensation of civilians employed in the Subsistence Department, and for other necessary expenses incident to the purchase, care, preservation, issue, sale, and accounting for subsistence supplies for the Army. For the payment of the regulation allowances for commutation in lieu of rations: To enlisted men on furlough, to ordnance sergeants on duty at ungarrisoned posts, to enlisted men stationed at places where rations in kind can not be economically issued, to enlisted men traveling on detached duty when it is impracticable to carry rations of any kind, to enlisted men selected to contest for places or prizes in department and Army rifle competitions while traveling to and from places of contest; for flour used for paste in target practice; to be expended under the direction of the Secretary of War; in all

Prisoners of war, including Indians for the subsistence of whom no other appropriation is made.....	250	365	91, 250	Feb. 27, 1893	27	481	1		
Total.....			9, 882, 375do.....					
Estimated at 17½ cents each.									
<p>Losses from wastage in issuing, damages in transportation, shrinkage, and deterioration while on hand, necessary abandonment or destruction in the field, and all expenses indicated in the appropriation for the subsistence of the Army for the fiscal year 1894, have been considered in making this estimate at 17½ cents per ration.</p> <p>The number of civil employes estimated for is the number recommended by the Quartermaster-General of the Army.</p> <p>The number of enlisted men of the Hospital Corps and hospital matrons estimated for is the number recommended by the Surgeon-General of the Army.</p> <p>Matches for lighting fires and lights and flour used for paste in target practice are now purchased from the Subsistence Department by the Quartermaster's Department for issue. It is proposed to make these issues hereafter direct by the Subsistence Department.</p> <p>The providing of bake ovens at posts and in the field is estimated for by the Quartermaster Department.</p> <p>On account of the smallness of the appropriation for the subsistence of the Army for the current fiscal year, it is requested that \$100,000 of the appropriation for the fiscal year 1895 may be made available, if needed, for the purchase and delivery in June, 1894, of such subsistence supplies as may be required to be at posts at the beginning of that fiscal year, the authorization to be in language something like the following:</p> <p>"Provided, That one hundred thousand dollars of this appropriation shall be available for the purchase and delivery in June, 1894, of such subsistence supplies as may be required to be at posts at the beginning of the fiscal year 1895."—John P. Hawkins, Commissary-General of Subsistence.</p>									
QUARTERMASTER'S DEPARTMENT.									
Regular Supplies—									
Regular supplies of the Quartermaster's Department, consisting of stoves and heating apparatus, and repair and maintenance of same; for heating offices, hospitals, and barracks and quarters; of ranges and stoves, and appliances for cooking and serving food; of fuel and lights for enlisted men, guards, hospitals, storehouses and offices, and for sale to officers; for providing post bakeries; for the necessary furniture, textbooks, paper, and equipments for the post schools and libraries; for the tableware and mess furniture for kitchens and mess halls, each and all for enlisted men of the Army; of forage in kind for the horses, mules, and oxen of the Quartermaster's Department at the several posts and stations and with the armies in the field, including its care and protection; for the horses of the several regiments of cavalry, the batteries of artillery, and such companies of infantry, members of the hospital corps, and scouts as may be mounted, and for the authorized number of officers' horses, including bedding for the animals; of straw for soldiers' bedding, and of stationery, including blank books for the Quartermaster's Department; certificates for discharged soldiers, blank forms for the Pay and Quartermaster's Departments, and for printing division and department orders and reports: <i>Provided</i> , That no part of this appropriation shall be expended on printing unless the same shall be done by contract, after due notice and competition, except in such cases as the emergency will not admit of the giving notice for competition: <i>Provided further</i> , That after advertisement all the supplies for the use of the various departments and posts of the Army

Estimated am't required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1894.
		Vol. or R. S.	Page.	Sec.			
Regular Supplies—Continued.							
shall be purchased where the same can be purchased the cheapest, quality and cost of transportation considered, except that purchases may be made in open market, in the manner common among business men, when the aggregate of the purchase does not exceed two hundred dollars.....							
NOTE.—The amount called for is \$41,479.42 in excess of the sum appropriated for the current fiscal year. This increase is required to supply forage and straw to the horses hereinafter estimated for mounting the Hospital Corps of the Army, the act of July 16, 1892, having provided that the same should be borne from the appropriations for the Quartermaster's Department.— <i>R. N. Batchelder, Quartermaster-General, U. S. A.</i>							
Incidental Expenses—							
Postage ; cost of telegrams on official business received and sent by officers of the Army ; extra pay to soldiers employed on extra duty, under the direction of the Quartermaster's Department, in the erection of barracks, quarters, and storehouses, in the construction of roads and other constant labor for periods of not less than ten days, and as clerks for post quartermasters of military posts ; for expenses of expresses to and from frontier posts and armies in the field, of escorts to paymasters and other disbursing officers, and to trains where military escorts can not be furnished ; expenses of the interment of officers killed in action or who die when on duty in the field, or at military posts or on the frontiers, or when traveling under orders, and of noncommissioned officers and soldiers ; authorized office furniture ; hire of laborers in the Quartermaster's Department, including hire of interpreters, spies, or guides for the Army ; compensation of clerks and other employes to the officers of the Quartermaster's Department ; for the apprehension, securing, and delivery of deserters, and the expense incident to their pursuit ; and for the following expenditures required for the several regiments of cavalry, the batteries of light artillery, and such companies of infantry, members of the Hospital Corps, and scouts as may be mounted, and for the trains, to wit : hire of veterinary surgeons, purchase of medicines for horses and mules, picket ropes, blacksmith's tools and materials, horseshoes and blacksmith's tools for the cavalry service, and for the shoeing of horses and mules, and such additional expenditures as are necessary and authorized by law in the movement and operation of the Army, and at military posts and not expressly assigned to any other department: <i>Provided</i> , That two hundred thousand dollars of the appropriation for incidental expenses, or so much thereof as shall be necessary, shall be set aside for the payment of enlisted men on extra duty at constant labor of not less than ten days in the Quartermaster's Department ; but no such payment shall be made at any greater rate per day than is fixed by law for the class of persons employed at the work done therein..... <i>Transportation of the Army and its Supplies—Continued.</i>								
United States for postal, military, naval, and other Government services, and also subject to such regulations as Congress may impose restricting the charges for such Government transportation, having claims against the United States for transportation of troops and munitions of war and military supplies and property over such aided railroads, shall be paid out of the moneys appropriated by the foregoing provision only on the basis of such rate for the transportation of such troops and munitions of war and military supplies and property, as the Secretary of War shall deem just and reasonable under the foregoing provisions, such rate not to exceed fifty per centum of the compensation for such Government transportation as shall at the time be charged to and paid by private parties to any such company for like and similar transportation; and the amount so fixed to be paid shall be accepted as in full for all demands for such service.....								
NOTE.—The amount now called for, though \$100,000 in excess of that appropriated for the current fiscal year, is believed to be not in excess of actual requirements.— <i>E. N. Batchelder, Quartermaster-General, U. S. A.</i>								
<i>Clothing, and Camp and Garrison Equipage—</i>								
Cloth, woollens, material, and for the manufacture of clothing for the Army, for issue and for sale at cost price according to the Army Regulations; for altering and fitting clothing, and washing and cleaning when necessary; for equipage, and for expenses of packing and handling, and similar necessities.....	R. S.	206	1133-5	}	\$1,406,217 30	\$1,200,000 00	
Revised Army Reg's, 1889, p. 113, par. 1063.							
Feb. 27, 1893	27	484	1					
NOTE.—The amount asked, though \$206,217.30 in excess of amount appropriated, is not more than is needed to clothe and equip the Army and provide stock for issue to the militia, under section 1661, Revised Statutes.— <i>E. N. Batchelder, Quartermaster-General, U. S. A.</i>								
<i>Construction and Repair of Hospitals—</i>								
Construction and repairs of hospitals at military posts already established and occupied, including the extra-duty pay of enlisted men employed on the same, and including also all expenditures for construction and repairs required at the Army and Navy Hospital at Hot Springs, Ark., except quarters for the officers.....	Feb. 27, 1893	27	484	1	80,000 00	50,000 00	
NOTE.—The sum of \$30,000 of this amount is for construction of new hospital at Davids Island, New York Harbor, reported by the Surgeon-General of the Army as much needed; hence the excess of \$30,000 asked over the amount appropriated for the current fiscal year.— <i>E. N. Batchelder, Quartermaster-General, U. S. A.</i>								
<i>Shooting Galleries and Ranges—</i>								
Shelter, shooting galleries, ranges, repairs and expenses incident thereto.....	Feb. 27, 1893	27	484	1	17,223 00	8,000 00	
NOTE.—This estimate calls for the amount shown by reports received from the various departments to be absolutely necessary for repairs to ranges for small-arms practice which can not be made by the labor of troops, and while the amount now called for is in excess of amount appropriated for the current fiscal year, it would appear to be absolutely necessary.— <i>E. N. Batchelder, Quartermaster-General, U. S. A.</i>								
<i>Quarters for Hospital Stewards—</i>								
Construction of quarters for hospital stewards at military posts already established and occupied, including the extra-duty pay of enlisted men employed on the same...	Feb. 27, 1893	27	484	1	10,000 00	7,000 00	
NOTE.—The amount called for, though \$3,000 in excess of that appropriated for the current fiscal year, is in accordance with the estimate of the Surgeon-General of the Army, who reports \$10,000 as the amount required for the necessary constructions and repairs at established posts.— <i>E. N. Batchelder, Quartermaster-General, U. S. A.</i>								
<i>Contingencies of the Army—</i>								
All contingent expenses of the Army not provided for by other estimates, and embracing all branches of the military service, to be expended under the immediate orders of the Secretary of War.....	Feb. 27, 1893	27	485	1	15,000 00	15,000 00

MEDICAL DEPARTMENT.							
<i>Medical and Hospital Department—</i>							
Purchase of medical and hospital supplies, including disinfectants for general post sanitation, expenses of medical-supply depots, pay of employes, medical care and treatment of officers and enlisted men of the Army on duty at posts and stations for which no other provision is made; for the proper care and treatment of cases in the Army suffering from contagious or epidemic diseases, and the supply of the Army and Navy General Hospital at Hot Springs, Ark.; advertising and other miscellaneous expenses of the Medical Department, the amount to be expended for pay of civilian employes not to exceed forty-five thousand dollars	Feb. 27, 1893	27	485	1	\$185,000 00		
Experimental cooking.....	do.....				500 00	\$185,500 00	\$185,500 00
NOTE.—The amount asked is necessary for the purchase of needful material to be used in teaching the art of cookery to the enlisted men in the two companies of the Hospital Corps—Geo. M. Sternberg, Surgeon-General U. S. Army.							
<i>Army Medical Museum and Library—</i>							
Army Medical Museum, preservation of specimens and the preparation or purchase of new specimens.....	Feb. 27, 1893	27	485	1	5,000 00		
Library of the Surgeon-General's Office.....	do.....				10,000 00	15,000 00	12,000 00
ENGINEER DEPARTMENT.							
<i>Engineer Depot at Willets Point, New York—</i>							
Incidental expenses of the depot, including fuel, lights, chemicals, stationery, hardware, extra-duty pay to soldiers necessarily employed for periods of not less than ten days as artificers on work in addition to and not strictly in the line of their military duties, such as carpenters, blacksmiths, draftsmen, printers, lithographers, photographers, engine-drivers, teamsters, wheelwrights, masons, machinists, painters, overseers, laborers, repairs of, and for materials to repair public buildings, machinery, and unforeseen expenses.....	Feb. 27, 1893	27	485	1	5,000 00		
Purchase of materials for instruction of engineer troops at Willets Point in their special duties as sappers and miners for land and submarine mines, and pontoniers, torpedo drill and signaling.....	do.....				3,500 00		
Purchase and repairs of instruments to be issued to officers of the Corps of Engineers, and to officers detailed and on duty as acting engineer officers for use on public works and surveys.....	do.....				3,000 00		
Library of the United States Engineer School: Purchase and binding of professional works of recent date treating of military and civil engineering and kindred scientific subjects.....	do.....				500 00	12,000 00	11,000 00
ORDNANCE DEPARTMENT.							
<i>Ordnance Service—</i>							
Current expenses of the ordnance service required to defray the current expenses at the arsenals; of receiving stores and issuing arms and other ordnance supplies; of police and office duties; of rents, tolls, fuel, and lights; of stationery and office furniture; of tools and instruments for use; incidental expenses of the ordnance service and those attending practical trials and tests of ordnance, small arms, and other ordnance supplies, including payment for mechanical labor in the office of the Chief of Ordnance.....	Feb. 27, 1893	27	485	1		125,000 00	80,000 00
NOTE.—The sum of \$80,000, which has been appropriated since 1888, is wholly inadequate to meet the actual indispensably necessary expenses under this head; \$200,000 was the amount appropriated for this purpose from 1868 to 1874. From 1874 to 1888 the amount varied from \$125,000 to \$100,000. The necessary expense for labor alone, in connection with the receipt and issue of ordnance and ordnance stores, and for the police and care of arsenals, not manufacturing, amounts to nearly \$100,000. The amount asked for is considered necessary, but only what is absolutely necessary for the public service will be expended.							

Estimates of appropriations required for the service of the fiscal year ending June 30, 1895—Continued.

General object (title of appropriation) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large or to Revised Statutes.			Estimated amt't required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1894.
		Vol. or R. S.	Page.	Sec.			
Ordnance, Ordnance Stores and Supplies—							
Manufacture of metallic ammunition for small arms and ammunition for reloading cartridges, and tools for the same, including the cost of targets and material for target practice and marksmen's medals and insignia for all arms of the service	Feb. 27, 1893	27	486	1	\$200,000 00		
<p>NOTE.—The reserve supply of rifle ammunition on hand in our arsenals on July 1, 1893, was very limited. A supply should be kept on hand for the hostile uses of the Army. Rifle and carbine ammunition costs to manufacture \$18.50 per thousand, and revolver \$10 per thousand. Existing orders from the War Department authorize the expenditure for target practice of cartridges or reloading material to the amount of \$4 per man per annum, and about \$1.93 per man per annum for gallery practice, and officers represent that a large increase in the allowance of blank cartridges is absolutely necessary for the proper training of both recruits and horses. Soldiers should be made good marksmen, but this can not be done without a liberal supply of ammunition for target practice. The amount asked for is reasonable if the soldier is to be provided with cartridges sufficient for his proper instruction. To enable the Ordnance Department to carry out these orders, the reserve supply has been well nigh exhausted. Unless the appropriation asked for is granted, the supply for target practice will have to be reduced, greatly to the detriment of the efficiency of the Army, and leave nothing on hand for emergencies and hostile purposes. All these arguments are much emphasized at the present time by the necessary expenses and increased demands attending the change in ammunition to accompany the change in small arms which is now being made.</p>							
Repairing and preserving ordnance and ordnance stores in the hands of troops and for issue at the arsenals and depots	do.				10,000 00		
<p>NOTE.—This appropriation will be applicable to the repairs, painting, and general preservation of guns, gun carriages, projectiles, and general ordnance stores at forts and other military posts, and this money is absolutely necessary for the purpose.</p>							
Purchase and manufacture of ordnance stores to fill requisitions of troops	do.				125,000 00		
<p>And purchases of ordnance and ordnance stores and supplies may be made by the Ordnance Department in open market in the manner common among business men when the aggregate of the purchase does not exceed two hundred dollars.</p>							
<p>NOTE.—This amount is absolutely necessary to meet the actual needs of the troops in the field, and to furnish the material necessary for the instruction of troops and preservation of the ordnance, etc., at military stations.</p>							
Infantry, cavalry, and artillery equipments, including horse equipments for cavalry and artillery	do.				215,000 00		
<p>NOTE.—The amount asked for is required to meet the wants of the service. This appropriation will also be applicable to the procurement of artillery harness for the new breech-loading steel field-guns. The current appropriations under this head are not as large as were made twenty years ago, at a time when fully 30 per cent of the supplies issued was made from materials on hand from the civil war. All these materials have been used up, and the material for all stores now made has to be purchased from the appropriations annually made for the procurement of these stores. It follows, therefore, that the appropriations for these objects should be fully 30 per cent more now than twenty years ago.</p>							
Overhauling, cleaning, and preserving new ordnance stores on hand at the arsenals	do.				5,000 00		
Replacing the ordnance and ordnance stores taken from army supplies and issued to the militia of the District of Columbia, from July 30, 1888, to June 30, 1893, under the provisions of the joint resolution approved July 23, 1888, and the act approved March 1, 1889	Submitted.				45,621 54		
<p>NOTE.—Attention is invited to the fact that the property issued as provided for in the act quoted must be taken from the supplies for the Army—that is, from the appropriations for these supplies—and also the fact that these appropriations are now insufficient for the needs of the Army, and that the rigid economy in the expenditure and preservation of these supplies which is enforced in the Army can not probably be extended to these issues. These issues made under the act of March 1, 1889, have amounted to \$45,621.54, a large percentage of the already insufficient appropriation for the Army, and there is no provision of law to meet this expenditure. In my judgment, it would be wise to have a permanent appropriation of a fixed amount for each year to provide for these issues to the District militia, or a specific appropriation for each year.</p>							
Supplying ordnance and ordnance stores to equip and maintain the National Guard of the District of Columbia, under section 31 of the act of Congress approved March 1, 1889	do.				5,000 00		

Estimates of appropriations required for the service of the fiscal year ending June 30, 1895—Continued.

Appropriated for current year.....					167,000 00		
					33,340 00		
Additional pay to Superintendent, pay of colonel additional to pay as major (in last estimate the Superintendent was a lieutenant-colonel).....					500 00		
Additional on account of four assistant instructors of cavalry, artillery, and infantry (appointments are frequently made from second lieutenants).....					400 00		
Additional to professors and officers (and officers on increased rank for length of service; one associate professor of mathematics additional).....					320 31		
					34,560 31		
Decrease: Difference in pay of colonel and lieutenant-colonel, 2 months and 29 days					123 61		
					34,436 70		
—Wm. Smith, Paymaster-General, U. S. A.							
<i>Current and Ordinary Expenses—</i>							
Repairs and improvements, namely: Timber, planks, boards, joists, wall-strips, laths, shingles, slate, tin, sheet-lead, zinc, nails, screws, locks, hinges, glass, paints, turpentine, oils, varnish, brushes, stone, brick, flag, lime, cement, plaster, hair, sewer and drain pipe, blasting powder, fuse, iron, steel, tools, machinery, mantels, and other similar materials, renewing roofs, and pay of overseer and master-builder and citizen mechanics, and labor employed upon repairs and improvements that can not be done by enlisted men.....	Mar. 1, 1893	27	516	1	18,000 00		
NOTE.—The appropriation for the current fiscal year is too small to put the buildings at the Military Academy in proper repair and make the necessary improvements. As the number of buildings has increased materially during the last four years, it has now become necessary to increase the amount of this appropriation in order that all the buildings may be kept in a proper state of repair, and I strongly recommend the increase asked for.—Capt. W. H. Miller, A. G. M., U. S. Army.							
Fuel and apparatus, namely: Coal, wood, charcoal, stoves, grates, heaters, furnaces, ranges and fixtures, fire-bricks, clay, sand, repairs of steam-heating apparatus, grates, stoves, heaters, ranges, furnaces, and mica.....	do.....				20,000 00		
Gas-pipes, fixtures, lamp-posts, gasometers and retorts, and annual repairs of the same.....	do.....				1,500 00		
Fuel for cadets' mess-hall, shops, and laundry.....	do.....				3,000 00		
Postage and telegrams.....	do.....				250 00		
Stationery, namely: Blank-books, paper, envelopes, quills, steel pens, rubbers, erasers, pencils, mucilage, wax, wafers, folders, fasteners, rules, files, ink, inkstands, typewriting supplies, penholders, tape, desk-knives, blotting-pads, and rubber bands.....	do.....				800 00		
Transportation of materials, discharged cadets, and ferriages.....	do.....				1,750 00		
Printing: Printing and binding, type, materials for office, including repairs to motor, diplomas for graduates, annual registers, blanks, and monthly reports to parents of cadets.....	do.....				1,000 00		
Clerk to the disbursing officer and quartermaster.....	do.....				1,350 00		
Clerk to adjutant in charge of cadet records (increase of \$150).....	do.....				1,500 00		
NOTE.—It is earnestly requested that a restoration to the former salary (\$1,500) asked for in the case of the clerk to the adjutant in charge of cadet records, may be favorably considered. His duties are such as require unusual clerical knowledge, based on long experience. He is a very competent man, his services are valuable to the Government, and he would be extremely difficult to replace.—First Lieut. J. M. Carson, jr., Fifth Cavalry, Adjutant, U. S. M. A.							

Estimates of appropriations required for the service of the fiscal year ending June 30, 1895—Continued.

General object (title of appropriation) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes.			Estimated am ^t required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1894.
		Vol. or R. S.	Page.	Sec.			
<i>Current and Ordinary Expenses—Continued.</i>							
Department of history, geography, and ethics : Text-books, books of reference, maps and globes, and stationery for use of instructors, and repairs.....	Mar. 1, 1893	27	517	1	\$150 00		
Department of chemistry, mineralogy, and geology : Chemicals, chemical apparatus, glass and porcelain ware, paper, wire, sheet metal, ores, photographic apparatus and material.....	do.....				500 00		
Rough specimens, fossils, and for apparatus and material to be used in the practical determinations of mineralogical and geological specimens, pencils and paper for the practical instructions in the same branches, and for gradual increase and improvement of the cabinet.....	do.....				500 00		
Repairs and additions to electric, magnetic, pneumatic, thermic, and optical apparatus.....	do.....				650 00		
<i>Provided, That any of the above-named sums not expended for the purposes named may be expended for fittings of the chemical rooms of the new academic building.</i>							
Pay of mechanic employed in chemical and geological section rooms and in lecture rooms	do.....				1,000 00		
Models, maps, and diagrams, books of reference, text-books, and stationery for the use of instructors.....	do.....				180 00		
Contingencies	do.....				100 00		
<i>NOTE.—I respectfully recommend favorable action on this estimate, as the unexpended balances pertaining to this department for the fiscal years ending June 30, 1893, and June 30, 1894, under the first three appropriations specified herein, will not admit of properly fitting up the chemical rooms in the new academic building.—Capt. W. H. Miller, A. Q. M., U. S. Army.</i>							
Department of drawing : Drawing material for the use of instructors, tacks, sponges, brushes, glue, alcohol, hektograph, cloth, tumblers, saucers, towels, soap, ink, paint, stationery, etc., and contingent expenses.....	Mar. 1, 1893	27	518	1	250 00		
<i>NOTE.—Slight changes are made in the wording of this estimate to enable the department to obtain the exact supplies needed.—Capt. W. H. Miller, A. Q. M., U. S. Army.</i>							
Repairs to models, desks, stretchers, racks, and material.....	do.....				75 00		
<i>NOTE.—Slight changes are made in the wording of this estimate to enable the department to obtain the exact supplies needed.—Capt. W. H. Miller, A. Q. M., U. S. Army.</i>							
Cleaning and renewal of plaster models and statuary in store.....	Submitted.....				50 00		
Models in flat and relief for second and third classes.....	Mar. 1, 1893	27	518	1	100 00		
Books and periodicals.....	do.....				100 00		
<i>NOTE.—Slight changes are made in the wording of this estimate to enable the department to obtain the exact supplies needed.—Capt. W. H. Miller, A. Q. M., U. S. Army.</i>							
Binding periodicals and loose sheets.....	do.....				30 00		
<i>NOTE.—A slight change is made in the wording of this estimate to enable the department to obtain the exact supplies needed.—Capt. W. H. Miller, A. Q. M., U. S. Army.</i>							
Photographic material and apparatus	Submitted.....				150 00		
Ten prismatic compasses for reconnoissance work, at \$15 each.....	do.....				150 00		
Eighty reconnoissance boards, at \$3.50 each, to be immediately available.....	do.....				280 00		
One case of drawing instruments	do.....				75 00		
Twenty new drawing boards, at \$2.50 each.....	do.....				50 00		
Thirty new steel rulers, at \$3 each.....	do.....				90 00		
Twenty new steel triangles, at \$2.50 each	do.....				50 00		
<i>NOTE.—The above estimates are carefully made, and the material is needed for the proper instruction of cadets and improvements in the course. The increased size of classes necessitates the purchase of additional material, as in items for drawing boards, rulers, and triangles; and improved methods of instruction in reconnoissance drawing in the field call for compasses and reconnoissance boards.—Prof. Chas. W. Larned, U. S. M. A.</i>							
Department of modern languages : Stationery, text-books, and books of reference for the use of instructors, repairs of books and apparatus, for office furniture, and for printing examination papers and for contingencies.....	Mar. 1, 1893	27	518	1	445 50		
<i>NOTE.—The increase over previous appropriations is due to the necessity of purchasing new text-books, owing to the change in the kind and number of text-books in the department.—Prof. Edw. E. Wood, U. S. M. A.</i>							

Estimates of appropriations required for the service of the fiscal year ending June 30, 1895—Continued.

General object (title of appropriation) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes.			Estimated amt't required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1894.

Current and Ordinary Expenses—Continued.							
Department of law :							
Stationery, text-books, books of reference, and books for use of instructors, and for repairing and binding the same, and furniture for office.....	Mar. 1, 1893	27	518	1	\$250 00		
NOTE.—A slight change is made in the wording of this estimate to enable the department to obtain the exact supplies needed.—Capt. W. H. Miller, A. Q. M., U. S. Army.							
One typewriter and typewriting supplies.....	Submitted.....				100 00		
Department of practical military engineering.							
Purchase and repair of instruments; transportation; purchase of tools, implements, and materials, and for extra-duty pay of engineer soldiers, as follows, namely: instruments for use in instructing cadets in making reconnaissances; photographic apparatus and material for field photography; drawing instruments and material for platting reconnaissances; surveying instruments; instruments and material for signaling and field telegraphy; transportation of field parties; tools and material for the preservation, augmentation, and repair of wooden ponton, and one canvas ponton-bridge train; sapping and mining tools and material; rope; cordage; material for rafts and for spar and trestle bridges; intrenching tools; tools and material for the repair of Fort Clinton and the batteries at the academy, and extra-duty pay of engineer soldiers, at fifty cents per day each, when performing special skilled mechanical labor in the department of practical military engineering, for models, books of reference, and stationery.....	Mar. 1, 1893	27	519	1	1,200 00		
Department of ordnance and gunnery :							
Purchase and repairs of instruments, models, and apparatus, and purchase of necessary materials; for the purchase of samples of arms and accouterments other than those supplied to the military service; for books of reference, text-books, stationery, and lithographic printing materials.....do.....				450 00		
Extra pay of one ordnance soldier, as draftsman and lithographic printer, at fifty cents per day.....do.....				143 50		
Extra pay of one ordnance soldier, as machinist, at fifty cents per day.....do.....				143 50		
Purchase of one Driggs-Schroeder 6-pounder rapid-fire field gun, mounted on field carriage, complete, with accessories and spare parts, limber, and ammunition....	Submitted.....				3,000 00		
NOTE.—This gun is required for the instruction of cadets, and as an illustration of principles of a system of rapid-fire guns. It will be placed in the museum of the Military Academy with other pieces of the same class of earlier and later date to show the development of these guns.—Capt. L. L. Bruff, Ordnance Department, Instructor of Ordnance and Gunnery, U. S. M. A.							
Manufacture or purchase of models of the new steel guns for field, siege, and seacoast services, for cadet instruction.....do.....				1,500 00		
Manufacture or purchase of models of the new steel carriages for field, siege, and seacoast services, for cadet instruction.....do.....				2,000 00		
NOTE.—These models of our seacoast guns and carriages are to be used in the section room during recitation as a practical method of making the cadets familiar with the service guns and carriages. From the size of the guns and carriages themselves they can not be used in the section room, and when the cadets are studying them is the time the models are most needed. They are also to be placed in the museum, which has a full supply of the old models, but none of the new ones.—Capt. L. L. Bruff, Ordnance Department, U. S. Army, Instructor of Ordnance and Gunnery, U. S. M. A.							
Stationery for office of the treasurer, United States Military Academy, namely: Blank-books, paper, envelopes, pens, mucilage, typewriting supplies, and other items of stationery.....	Mar. 1, 1893	27	519	1	50 00		
NOTE.—Slight changes are made in the wording of this estimate in order that the treasurer may obtain the exact supplies needed.—Capt. W. H. Miller, A. Q. M., U. S. Army.							
Extra pay of two enlisted men, employed as clerks in the offices of the adjutant, United States Military Academy, and commandant of cadets, respectively, at fifty cents and thirty-five cents per day.....do.....				284 25		

General object (title of appropriation) and details and explanations.

Estimates of appropriations required for the service of the fiscal year ending June 30, 1895—Continued.

General object (title of appropriation) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes.			Estimated am't required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1894.
		Vol. or R. S.	Page.	Sec.			
<i>Miscellaneous and Incidental Expenses—Continued.</i>							
Increase and expense of library, namely:							
Periodicals, stationery, binding books, and scientific, historical, biographical, and general literature; to be purchased in open market on the written order of the superintendent.....	Mar. 1, 1893	27	520	1	\$2,000 00		
Repairing books, and for furniture.....	do.....				200 00		
NOTE.—A slight change is made in this estimate to enable the librarian to obtain the exact services and articles needed.— <i>Capt. W. H. Miller, A. Q. M., U. S. Army.</i>							
Furniture for cadet hospital and repairs of the same.....	do.....				100 00		
Contingencies for superintendent of the academy.....	do.....				1,500 00		
NOTE.—The unusually large number of foreigners visiting the Academy this year has rendered an increase in this item necessary.— <i>Col. O. H. Ernst, Engineer, Superintendent, U. S. M. A.</i>							
Renewing furniture in section rooms, and repairing the same	do.....				500 00		
Repairs, upholstering, and carpeting the academy chapel..	Submitted.....				3,900 00		
NOTE.—The amount appropriated for the current fiscal year is entirely inadequate for repairing, upholstering, and carpeting the academy chapel. It needs new pews, new inside blinds, painting and frescoing, while new flags and draperies are required throughout in addition to upholstering of pulpit, chancel rail, etc. At the present writing the interior of the chapel presents such a shabby appearance that the sum asked for herein (an increase of \$3,750 over the present fiscal year's appropriation) is indispensable for placing it in first-class condition.— <i>Capt. W. H. Miller, A. Q. M., U. S. Army.</i>							
Contingent funds to be expended under the direction of academic board: For instruments, books, repairs to apparatus, and other incidental expenses not otherwise provided for.	Mar. 1, 1893	27	520	1	1,000 00		
<i>Provided, That all technical and scientific supplies for the departments of instruction of the Military Academy shall be purchased by contract or otherwise, as the Secretary of War may deem best.</i>							
Purchase of instruments for band.....	Mar. 1, 1893	27	521	1	600 00		
Purchase of music for band, to be purchased in open market on the order of the superintendent.....	do.....				500 00		
Purchase of springs, pads, strings, and other necessary articles for band instruments.....	do.....				150 00		
						\$31,190 00	\$25,737 50
NOTE.—The amounts for music (\$500) and pads, etc. (\$150), are more than for last year, as former amounts were not sufficient. Not so much is required for instruments, as they are needed only to replace some worn-out instruments now in use.— <i>First Lieut. S. W. Dunning, 16th Infantry, commanding band.</i>							
Total Military Academy.....						376,976 88	338,340 43

UNDER THE NAVY DEPARTMENT.							
GENERAL EXPENSES.							
Pay of the Navy—							
Pay of officers on sea duty; officers on shore and other duty; officers on waiting orders; officers on the retired list; clerks to commandants of yards and stations; clerks to paymasters at yards and stations; general storekeepers; receiving ships and other vessels; extra pay to men reenlisting under honorable discharge; interest on deposits by men; pay of petty officers, seamen, landsmen, and boys, including men in the engineers' force, and for the Coast-Survey Service and Fish Commission, eight thousand two hundred and fifty men and seven hundred and fifty boys, at the pay prescribed by law..... May 12, 1879 Aug. 5, 1882 Mar. 3, 1883 Mar. 3, 1885 Mar. 2, 1889 July 19, 1892 Mar. 3, 1893	R. S. R. S. R. S. R. S. R. S. R. S. 21 22 22 23 25 27 27	246 248 265 269 269 272 3 285-7 472,'3 340 809 236 715	1367 1386-8 1556 1569 1573 1595 1 1 1 1 1 1 1	\$7, 475, 000 00	\$7, 300, 000 00	
NOTE.—The foregoing estimate is made up as follows:							
Pay of 1,494 officers on the active list.....	\$3, 428, 600						
Pay of 292 naval cadets under instruction.....	146, 000						
Pay of 402 officers on the retired list.....	886, 816						
Pay of 96 clerks.....	123, 500						
Pay of 9,000 petty officers, seamen, and other enlisted men, including apprentices in cruising vessels, training ship, and at the training station (see note below).....	2, 738, 895						
Extra pay of petty officers and seamen reenlisting under honorable discharge.....	141, 189						
To pay interest on deposits by men, act February 9, 1889.....	10, 000						
Total.....	7, 475, 000						
NOTE.—The increase in this amount over the amount appropriated for the year ending June 30, 1894, is due to the actual estimate of that year having been reduced \$151,131 and to the total number of enlisted persons in the Navy having been increased by the act of March 3, 1893, from 8,250 to 9,000.							
For a detailed statement of the officers, etc., of the Navy, see Appendix I.							
Pay, Miscellaneous—							
Commissions and interest; transportation of funds; exchange; mileage to officers while traveling under orders in the United States, and for actual personal expenses of officers while traveling abroad under orders, and for traveling expenses of apothecaries, yeomen, and civilian employes, and for actual and necessary traveling expenses of naval cadets while proceeding from their homes to the Naval Academy for examination and appointment as cadets; for rent and furniture of buildings and offices not in navy-yards; expenses of courts-martial, prisoners and prisons, and courts of inquiry, boards of investigation, examining boards, with clerks' and witnesses' fees, and traveling expenses and costs; stationery and recording; expenses of purchasing paymasters' offices of the various cities, including clerks, furniture, fuel, stationery, and incidental expenses; newspapers and advertising; foreign postage; telegraphing, foreign and domestic; telephones; copying; care of library, including purchase of books, photographs, prints, manuscripts, and periodicals; ferrriage, tolls, and express fees; costs of suits; commissions, warrants, diplomas, and discharges; relief of vessels in distress; canal tolls and pilotage; recovery of valuables from shipwrecks; quarantine expenses; reports; professional investigation; cost of special instruction, at home or abroad, in maintenance of students and attachés, and information from abroad, and the collection and classification thereof, and other necessary incidental expenses; in all, two hundred and forty thousand dollars. And hereafter the accounting officers of the Treasury are hereby authorized to credit appropriation "Pay miscellaneous" with all receipts for interest on the account of the Navy Department with the London fiscal agents, premiums arising from sales of bills of exchange, and from any appreciation in the value of foreign coin. And fraudulent enlistment, and the receipt of any pay or allowance thereunder, is hereby declared an offense against naval discipline and made punishable by general court-martial, under article twenty-two of the articles for the government of the Navy.....	Mar. 3, 1893	27	716	1	240, 000 00	240, 000 00	

Estimates of appropriations required for the service of the fiscal year ending June 30, 1895—Continued.

Estimated am't required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1894.
		Vol. or R. S.	Page.	Sec.			
BUREAU OF EQUIPMENT.							
Equipment of Vessels—							
For purchase of coal for steamer's and ship's use, including expenses of transportation, storage, and handling the same; hemp, wire, iron, and other materials for the manufacture of cordage, anchors, cables, galleys, and chains; canvas for the manufacture of sails, awnings, hammocks, and other work; water for steam launches; stationery for commanding and navigating officers of ships, equipment officers on shore and afloat, and for the use of courts-martial on board ship, and for the purchase of all other articles of equipment at home and abroad, and for the payment of labor in equipping vessels and manufacture of equipment articles in the several navy-yards; foreign and local pilotage and towage of ships of war; services and materials in repairing, correcting, adjusting, and testing compasses on shore and on board ship; nautical and astronomical instruments, and repairs to same; libraries for ships of war; professional books and papers, and drawings and engravings for signal books; naval signals and apparatus, namely; signals, lights, lanterns, rockets, running lights; compass fittings, including binnacles, tripods, and other appendages of ship's compasses; logs and other appliances for measuring the ship's way, and leads and other appliances for sounding; lanterns and lamps and their appendages for general use on board ship for illuminating purposes, and oil and candles used in connection therewith; bunting and other materials for making and repairing flags of all kinds; photographic instruments and materials; musical instruments and music, and installing and maintaining electric lights and interior signal communications on board vessels of war.....	Mar. 3, 1893	R. S. 27	733 719	3709, 3747 1	}.....\$1, 100, 000 00	\$925, 000 00	
NOTE.—This increased estimate over previous years is based upon the fact of a large increase in consumption of coal as well as the general equipment expenditures by the addition to the Navy of a number of new cruisers now in course of construction, and which will be in commission during the fiscal year 1895. As shown by a careful estimate in the matter of coal alone, herewith submitted, there will be an increased expenditure of about \$191,000.

NOTE:—							
HEADQUARTERS U. S. MARINE CORPS, PAYMASTER'S OFFICE, Washington, D. C., July 25, 1893.							
SIR: I respectfully submit herewith estimates for the pay of officers, noncommissioned officers, musicians, and privates, and of civil force of the U. S. Marine Corps for the fiscal year ending June 30, 1895.							
These estimates show an increase of \$3,792.29 over the estimates for the present fiscal year, viz:							
Pay of officers on the retired list, increase.....	\$3,997 50						
Pay of enlisted men, decrease.....	205 21						
Total.....	3,792 29						
The difference between amount appropriated for current fiscal year and amount estimated as necessary for fiscal year ending June 30, 1895, is \$5,521.64, which is thus explained:							
Estimated pay of officers on the retired list, 1895.....	\$56,865 00						
Appropriated pay of officers on the retired list, 1894.....	52,867 50						
Difference, increase.....	3,997 50						
Estimated pay of enlisted men on active list, 1895.....	384,794 79						
Appropriated pay of enlisted men on active list, 1894.....	385,000 00						
Difference, decrease.....	205 21						
Estimated pay for undrawn clothing, 1895.....	25,000 00						
Appropriated pay for undrawn clothing, 1894.....	24,000 00						
Difference, increase.....	1,000 00						
Estimate for payment of commutation of quarters, 1895.....	4,550 00						
Appropriated for payment of commutation of quarters, 1894.....	4,000 00						
Difference, increase.....	550 00						
Estimated pay of civil force, 1895.....	17,815 58						
Appropriated pay of civil force, 1894.....	17,636 23						
Difference, increase.....	179 35						
Very respectfully,							
GREEN CLAY GOODLOE, Major and Paymaster, U. S. M. C.							
The COLONEL COMMANDANT, U. S. Marine Corps Headquarters.							
<i>Provisions, Marine Corps—</i>

Estimates of appropriations required for the service of the fiscal year ending June 30, 1895—Continued.

General object (title of appropriation) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes.			Estimated amt required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1894.
		Vol. or R. S.	Page.	Sec.			
<i>Presqu'ile Pierhead Fog Signal, Pennsylvania—</i> Establishing a steam fog signal at Presqu'ile Pierhead Light-Station, entrance to Presqu'ile Bay, Erie Harbor, Lake Erie, Pennsylvania.....	Authorized Feb. 15, 1893	27	453	1	\$4,300 00	
NOTE.—The bell used here is ineffective and should be replaced by a steam fog signal.							
<i>Big Oyster Beds Light-Station, New Jersey—</i> Establishing a light and fog signal at or near Big Oyster Beds Shoal, mouth of Maurice River, Delaware Bay....	Authorized Feb. 15, 1893	27	454	1	25,000 00	
NOTE.—It would be greatly to the interest of the small fishing craft navigating this river to establish a light at or near the southern edge of the shoal above mentioned.							
<i>Salem Creek Light-Station, New Jersey—</i> Establishing a light-station at or near the mouth of Salem Creek, southern side, New Jersey.....	Authorized Feb. 15, 1893	27	454	1	800 00	
NOTE.—The mouth of the creek is hard to find at night. The quantity of commerce to and from Salem will amply justify the establishment of a small, inexpensive light which will prevent vessels from grounding in trying to get in or from lying off the creek all night waiting for lights to see to get in.							
<i>Hog Island Light-Station, Virginia—</i> For the completion of Hog Island Light-Station, on Hog Island, Great Machipongo Inlet, seacoast of Virginia....	Mar. 3, 1893	27	574	1	95,000 00	\$30,000 00
NOTE.—By the act approved March, 1893, an appropriation of \$30,000 was made for beginning this work, and the Board was authorized to contract for not exceeding \$125,000 for its completion.							
<i>Mobile Ship-Channel Lights, Alabama—</i> Establishing additional lights in the Mobile Ship Channel, Alabama.....	Authorized Feb. 15, 1893	27	454	1	60,000 00	
NOTE.—This channel was cut by the Government at great expense. The lights already established are found to be insufficient for the growing commerce. Five additional light-stations are required to make the channel fairly navigable at night.							
<i>Deer Point Light-Station, Florida—</i> Establishing a light-station on or near Deer Point, entrance to Santa Rosa Sound, Pensacola Bay, Florida..	Authorized Feb. 15, 1893	27	454	1	1,000 00	
NOTE.—A small, inexpensive beacon light would be of decided benefit to the commerce of these waters.							
<i>Mermentau River Light-Station, Louisiana—</i> Establishing a light-station at or near the mouth of the Mermentau River, Louisiana.....	Authorized Feb. 15, 1893	27	455	1	7,000 00	
NOTE.—A small inexpensive light here would be of great benefit to vessels trading between Mermentau and Galveston.							
<i>Grassy Point Range Light-Station, Ohio—</i> Moving range lights, Maumee River, Ohio, in addition to the \$8,000 already appropriated	Authorized Feb. 15, 1893 Mar. 3, 1893	27 27	453 575	1 1	}	2,000 00	8,000 00
NOTE.—This is needed to grade the site and to build works of protection to preserve it from erosion by the river currents.							
<i>South Bass Light-Station, Ohio—</i> Establishing a light-station on or near South Bass Island, Lake Erie, Ohio.....	Authorized Feb. 15, 1893	27	453	1	8,600 00	
NOTE.—This light would aid vessels to clear the shoals in the south passage, which is much used by vessels bound to and from Sandusky and Marblehead, or to Toledo from the east, or during heavy blows from the northeast. The dangerous shoals in it are buoyed, and so are practicable for daylight passages. The light is needed to make these passages practicable by night.							
<i>Black River or Lorain Light-Station, Ohio—</i> Establishing a steam fog signal at Lorain, Lake Erie, Ohio	Authorized Feb. 15, 1893	27	453	1	4,300 00	
NOTE.—A steam fog signal at this place would be of great local value.							
<i>Fairport Light and Fog-Signal Station, Ohio—</i> Establishing a steam fog signal at Fairport Harbor, Lake Erie, Ohio.....	Authorized Feb. 15, 1893	27	453	1	4,700 00	
NOTE.—The bell used as a fog signal at this station is inefficient, and should be replaced by a steam fog signal.							

Estimates of appropriations required for the service of the fiscal year ending June 30, 1895—Continued.

General object (title of appropriation) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes.			Estimated amt required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1894.
		Vol. or R. S.	Page.	Sec.			
Port Clinton Light-Station, Ohio— Reestablishing the light-station at Port Clinton, Lake Erie, Ohio..... <i>NOTE.—The eight or ten fishing tugs belonging to this port need the light to enable them to get in at night. The old light-house, which still stands on the pier, can be refitted for the sum named.</i>	Authorized Feb. 15, 1893	27	453	1	\$1,500 00		
Gladstone Light-Station, Michigan— Establishment of a light-station to guide into Gladstone Harbor, Little Bay de Noquette..... <i>NOTE.—It is stated that the Minneapolis, Sault St. Marie and Atlantic Railroad will make this an important shipping port. Last year over 300 vessels entered the harbor, and it is expected that next year the number will exceed 1,000.</i>	Authorized Feb. 15, 1893, as Squaw Point.	27	454	1	10,000 00		
Little Gull Island Light and Fog-Signal Station, Michigan— Establishing a light and fog-signal station on or near Little Gull Island, St. Martins Passage, entrance to Green Bay, Lake Michigan, Michigan..... <i>NOTE.—St. Martins Passage, though relatively narrow, is deep and clear, and can be made, by a light and fog signal on Little Gull Island, and another on the northwest end of St. Martins, which has been recommended elsewhere, a very excellent passage.</i>	Authorized Feb. 15, 1893	27	454	1	20,000 00		
Ludington Pierhead Light and Fog-Signal Station, Michigan— Construction of a light-keeper's dwelling at or near Ludington Pierhead light and fog-signal station, Lake Michigan, Michigan..... <i>NOTE.—There is no dwelling for the light and fog-signal keepers at this station. One is needed.</i>	Authorized Feb. 15, 1893	27	454	1	4,500 00		
North Manitou Light and Fog-Signal Station, Michigan— Establishing a light and fog-signal station on the north end of North Manitou Island, Lake Michigan, Michigan { <i>NOTE.—The passage between North Manitou Island and South Fox Island is one of the three passages between the Straits of Mackinac and Green Bay. There is a large traffic through this passage which is virtually unmarked. A light and fog signal here will be a valuable aid to lake navigation.</i>	Authorized Feb. 15, 1893	27	454	1	20,000 00		
Pere Marquette Fog Signal, Michigan— Establishing a steam fog signal at or near Pere Marquette light-station, Ludington, Lake Michigan, Michigan... { <i>NOTE.—The extension of the pier on which the light stands is progressing rapidly and will soon be finished. A steam fog signal has long been needed, and its establishment is now practicable.</i>	Authorized Feb. 15, 1893	27	454	1	5,500 00		
Porte des Morts Range Lights and Fog-Signal Station, Michigan— Establishing range lights and a steam fog signal on or near Plum Island in the Porte des Morts (Death's Door) passage, entrance to Green Bay, Lake Michigan, Michigan.. } <i>NOTE.—These aids to navigation would be invaluable to vessels going through this passage at night or in thick weather.</i>	Authorized Feb. 15, 1893	27	454	1	21,000 00		
St. Martin Island Light-Station, Michigan— Establishing a light and fog-signal station on or near St. Martin Island, entrance to Green Bay, Lake Michigan, Michigan } <i>NOTE.—The passage between St. Martin Island and Little Gull Island, if marked by lights and fog signals, would be much safer than the Poverty Island Passage, as the entrance is capacious and unobstructed.</i>	Authorized Feb. 15, 1893	27	454	1	15,000 00		
South Fox Island Fog Signal, Michigan— Establishing a steam fog signal at South Fox Island light-station, Lake Michigan, Michigan { <i>NOTE.—The passage between South Fox and North Manitou islands is much used by vessels. A steam fog signal here would make the passage available in thick weather.</i>	Authorized Feb. 15, 1893	27	454	1	5,500 00		
Poes Reef Light-Ship, Straits of Mackinac, Michigan— Constructing, equipping, and outfitting complete for service a steam light-vessel with steam fog signal... { <i>NOTE.—The entire commerce of the Straits of Mackinac, said in 1880 to amount to 11,222,000 tons of freight, passes dangerously near this reef. It will cost much less to place a light-ship here, which can be removed at the close of navigation. A cheaply built vessel which is needed elsewhere is maintained at Poes Reef pending the passage of this act, which was authorized by the act approved on February 15, 1893.</i>	Authorized Feb. 15, 1893	27	453	1	25,000 00		

General object (title of appropriation) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes.			Estimated am't required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1894.
		Vol. or R. S.	Page.	Sec.			
<i>Seul Choix Pointe Light and Fog Signal, Michigan—</i> Beginning a fog signal, for the completion of which \$3,300 was appropriated by the act approved March 3, 1893. <i>NOTE.</i> —The amount appropriated for completion was not available, as no fog signal had been begun. The total cost of the fog signal is estimated at \$5,500, making \$2,200 necessary to begin the work. By the act approved February 15, 1893, \$5,500 was authorized but not appropriated.	Authorized Feb. 15, 1893 Mar. 3, 1893	27 27	454 575	1 1	\$2,200 00	\$3,300 00
<i>Seul Choix Pointe Light Station, Michigan—</i> For completing the structures at Seul Choix Pointe, Lake Michigan, Michigan, the appropriation by the act of August 5, 1892, for moving St. Marys River upper range lights, \$5,000, be made available therefor..... <i>NOTE.</i> —Last year an appropriation of \$3,500 was asked to complete the structures. Since the estimate was made the conditions have somewhat changed. There has been deterioration in the unfinished work, and the eight-hour law has made a difference in the cost of labor so that \$5,000 is now needed for the work. The \$5,000 appropriated by the act of August 5, 1892, for moving St. Marys River upper range lights is not now needed for that purpose. It is recommended that this sum be made available for completing the structures at this point.	Submitted.....						
<i>Big Bay Point Light and Fog-Signal Station, Michigan—</i> Establishing a light and fog signal at or near Big Bay Point, Lake Superior, Michigan..... <i>NOTE.</i> —Quite a number of vessels have been wrecked on this point in past years.	Authorized Feb. 15, 1893	27	453	1	25,000 00	
<i>Forty-Mile Point Light and Fog-Signal Station, Michigan—</i> Establishing a light and steam fog signal in the vicinity of Hammonds Bay, about half-way between Cheboygan and Presqu'ile Lights, Lake Huron, Michigan..... <i>NOTE.</i> —There is no light on the 50 miles of coast between Cheboygan and Presqu'ile lights. The commerce of the vicinity is of great magnitude and value, and due regard for its safety makes it requisite that a light and steam fog signal should be placed somewhere about midway between the two named.	Authorized Feb. 15, 1893	27	453	1	25,000 00	
<i>Round Island Light and Fog-Signal Station, Michigan—</i> Authorizing the establishment of a light and steam fog signal at Round Island, Lake Huron, Michigan..... <i>NOTE.</i> —This light and fog-signal are needed to enable vessels to hold a safe and close course through the narrow strait between Mackinac and Round islands. As Round Island is owned by the Government, a site can be provided without expense.	Authorized Feb. 15, 1893	27	454	1	15,000 00	
<i>St. Joseph Pierhead Fog Signal, Michigan—</i> Establishing a steam fog signal on or near the north pier of St. Joseph Harbor, Lake Michigan, Michigan..... <i>NOTE.</i> —The fog bell at the light tower is ineffective and should be replaced by a steam fog signal.	Authorized Feb. 15, 1893	27	454	1	5,000 00	
<i>Eagle Harbor Fog Signal, Michigan—</i> Establishing a steam fog signal at Eagle Harbor Light-Station, Lake Superior, Michigan..... <i>NOTE.</i> —A steam fog signal at this station would be a valuable aid to navigation.	Authorized Feb. 15, 1893	27	453	1	5,500 00	
<i>Mendota Light-Station, Michigan—</i> Reestablishing the light-station at or near Mendota, Bete Grise Bay, entrance to Lac la Belle, Lake Superior, Michigan..... <i>NOTE.</i> —This light was discontinued in 1870, because of the failure of local business. The tower was taken away, but the keeper's dwelling remains. With the increase of shipping on Lake Superior, Bete Grise Bay is being largely used by day as a harbor of refuge. A light will make it equally useful at night.	Authorized Feb. 15, 1893	27	453	1	7,500 00	
<i>Portage Lake Ship Canal Pierhead Fog Signal, Michigan—</i> Establishing a fog signal at Portage Lake Ship Canal Pierhead Light-Station, Lake Superior, Michigan..... <i>NOTE.</i> —The United States Government within recent years has bought, at a cost of \$350,000, these canals. The fog signal is needed to supplement the light now there to make the canals accessible during thick and foggy weather.	Authorized Feb. 15, 1893	27	453	1	5,500 00	

[illegible]

Estimates of appropriations required for the service of the fiscal year ending June 30, 1895—Continued.

General object (title of appropriation) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes.			Estimated am't required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1894.
		Vol. or R. S.	Page.	Sec.			
<i>Hat (or Pats) Point Light and Fog-Signal Station, Minnesota—</i> Establishing a light and fog-signal station at or near Hat (or Pats) Point near Grand Portage, Lake Superior, Minnesota.....	Authorized Feb. 15, 1893	27	454	1	\$15,000 00	
NOTE.—This would serve as a coast light and guide into two excellent harbors, one on each side, viz, Grand Portage Bay and Wausaugoning Bay. The harbor of refuge near this point is the only one on the north side of Lake Superior. There is none on the Canadian side.							
<i>New York Slough Light and Fog-Signal Station, California—</i> Establishing a light and fog-signal station at New York Slough, entrance to the San Joaquin River from Suisun Bay	Authorized Feb. 15, 1893	27	455	1	10,000 00	
NOTE.—This slough constitutes a short and deep passage from Suisun Bay into the San Joaquin River, and is used by the steamers, sailing craft, barges, etc., engaged in the great river traffic of California. Accidents have been frequent and unavoidable at night and in fog. The Board has placed post lights here as a temporary expedient, but they are insufficient.							
<i>Willamette River Light and Fog-Signal Station, Oregon—</i> Establishing a light and fog-signal station at or near the mouth of the Willamette River, Oregon.....	Authorized Feb. 15, 1893	27	455	1	6,000 00	
NOTE.—The entrance to the Willamette River from the Columbia River is narrow, and vessels find it difficult in thick weather to locate that entrance. A light and fog signal there would obviate that difficulty.							
<i>Willamette River Post Lights, Oregon—</i> Establishing beacon or post lights and buoys at twenty-five different points on the Willamette River between the cities of Salem and Portland, Oregon.....	Authorized Feb. 15, 1893	27	455	1	5,000 00	
NOTE.—These post lights are much needed, as they can be seen, except in dense fog, at a distance of 100 yards or more, and pilots want them in case of a new departure.							
<i>North Head Light-Station, Washington—</i> Establishment of a first-order light on North Head, Cape Disappointment, seacoast of Washington.....	Authorized Feb. 15, 1893	27	455	1	50,000 00	
NOTE.—The present light at Cape Disappointment is inadequate. It is proposed to establish a first-order light at North Head and reduce that at Cape Disappointment to the fourth order. When the proposed lights which are being constructed at Grays Harbor and Destruction Island are completed it will only need the proposed light at North Head to finish the lighting of the coast from Cape Flattery to Tillamook Rock with first-order lights.							
<i>Grays Harbor Light-Station, Washington—</i> Completing the light and fog-signal station at Grays Harbor, Washington.....	July 7, 1884 Feb. 15, 1893 Mar. 3, 1893	23 27 27	198 455 574	.1 1 1	39,500 00	\$20,000 00
NOTE.—By the act approved July 7, 1884, \$15,500 was appropriated for a light at Grays Harbor. By the act of March 3, 1893, \$20,000 additional was appropriated for establishing a first-class light and fog signal here, and authority was given to contract to an amount not exceeding \$75,000 therefor. An appropriation of \$39,500 is now needed for this purpose in addition to the \$35,500 previously appropriated. The establishment of this light at a cost not to exceed \$75,000 was authorized by the act of February 15, 1893.							
NOTE.—For list of light-houses, beacons, and fog signals classified by the Light-House Board as "Indispensable," "Necessary," and "Desirable," but which are not specifically authorized by law, see Appendix O.							
Total Light-Houses, Beacons, and Fog Signals.....						793,800 00	88,300 00
Total Public Works under Treasury Department.....						2,452,935 00	738,800 00

<i>Electric-Light Plant, Senate—</i> Towards the purchase and for the extension and repair of the electric-lighting plant of the Senate wing, \$10,000; and the Architect of the Capitol is authorized to purchase the present plant when the same shall have been changed to a direct current; and for this purpose the balance of the appropriation "for introducing the electric light into the entire Senate wing of the Capitol," approved August 4, 1886, and so much of the amount appropriated, shall be available.....	Submitted.....					10,000 00	
<i>Buildings and Grounds, Government Hospital for the Insane—</i> General repairs and improvements.....	Mar. 3, 1893	27	595	1	\$16,000 00		
NOTE.—This sum will be required for repairs that are absolutely necessary to prevent deterioration from natural causes of decay and provide for the wear and destruction incident to the class for which these buildings are fitted, as well as to introduce such improvements as are necessary to keep the hospital in the front rank of institutions for the treatment of the insane.							
Additional accommodations, viz: Farm cottages for workingmen.	Mar. 3, 1893 Submitted.....	27	595	1		4,480 00	
NOTE.—Even after the completion of the epileptic pavilions some further accommodation for inmates is necessary, which can be most economically provided by the erection of two cottages for the working class on the land lately acquired for the hospital. Comfortable quarters could thus be afforded for thirty male patients of this class. Such an agricultural colony would in time become nearly self-supporting and be a practical demonstration of the value of labor in the care of the chronic insane.							

Estimates of appropriations required for the service of the fiscal year ending June 30, 1895—Continued.

General object (title of appropriation) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes. Buildings and Grounds, Government Hospital for the Insane—Con'd.							
Special improvements, viz :							
Rebuilding machine and cabinet shop.....	Submitted.....				\$7,000 00		
Detached kitchen for the Toner building.....	do.....				2,240 00		
Electric plant.....	do.....				10,000 00	\$39,720 00	\$75,500 00
<p>NOTE.—The cabinet and machine shop, after more than thirty-five years of almost daily use, has, owing to settlement of its foundations, become unsafe for machinery, and has been abandoned as a workshop. The building is a prime necessity to the hospital, and must be rebuilt on a new and secure site. The \$7,000 required for the work is needed at once.</p> <p>The kitchen of the Toner building or hospital for the sick, on account of its excessive heat and penetrating odors, should be removed from its present basement room to a detached building. This becomes a necessity in the hot summers of this latitude. The same building can be made to serve as a kitchen for the male epileptic pavilions.</p> <p>The sum of \$10,000 is required to complete the electric-light plant. The sum asked was \$22,500, on which an appropriation of \$20,000 was granted. Further study of the subject has shown that the original estimate was too small for the number of lights and the long distance over which wires must be carried. Accordingly, beyond providing a suitable dynamo house nothing has been expended. The number of directions in which electricity can be advantageously used in a hospital is constantly extending, and it is true economy to have dynamos of ample power even though the first cost is enhanced thereby.</p> <p>The estimate for the current expenses, Government Hospital for the Insane, will be found under the title of "Miscellaneous," <i>post</i>.</p>							
Buildings and Grounds, Columbia Institution for the Deaf and Dumb—

<i>Rock Island Arsenal, Rock Island, Ill.—Continued.</i>							
Extraordinary repairs of the dikes, dams, etc., of the { Rock Island water power	Mar. 3, 1893 Submitted.....	27	596	1	} \$40,094 25		
NOTE.—The work required is as follows, viz: Repairing earth dike, head and northeast side of Rock Island: From Moline bridge to Benham's dike..... \$500 00 Digging and rebuilding approach to Benham's dike... 300 00 Removal of trees in dike 200 00 Repairing riprap of northeast side of river face 2,000 00 Loose stone for northeast side of river face..... 2,400 00 Earth filling for northeast side of dike..... 600 00 Repairing earth and stone dikes of Rock Island Arsenal water-power system— Earth dike: 672½ yards stone core; 2,500 cubic yards masonry, at \$8 per yard 20,000 00 Excavation, about 2,000 yards, at 20 cents per yard..... 400 00 Earth fill-top and back of core, 2,400 cubic yards, at 50 cents per yard..... 1,200 00 Riprap extension on slope, 673 square yards, at \$1 per yard..... 673 00 General expenses, superintendence, tools, and con- tingencies 3,000 00 Stone dike: Loose stone filling for pool face, 2,000 cubic yards: Labor, at 40 cents per yard..... 800 00 Material, at \$1 per yard..... 2,000 00 Repairing existing riprap and top, rebuilding 2,000 square yards, at \$1 per yard..... 2,000 00 Top of dike, filling 417 cubic yards, at \$1.25 per yard... 521 25 Top of dike, riprap, 2,500 square yards, at \$1 per yard.. 2,500 00 Superintendence, tools, and contingencies..... 1,000 00 Total 40,094 25 To preserve the dike and dam system, and provide for danger to them of the annual high water of the Mississippi River. These constructions have had no extraordinary repairs for many years, and the work estimated for is necessary for the preserva- tion of this important valuable work.							
Repairing Moline dam wall (2,250 feet) and counterports and foundations.....	do.....				27,500 00	\$115,706 25	\$20,000 00
NOTE.—To preserve the present dam system, and provide for danger to it of the annual high water of the Mississippi River.							
<i>Rock Island Bridge, Rock Island, Ill.—</i>							
Operating and care and preservation of Rock Island bridges and viaduct.....	Mar. 3, 1893	27	596	1	15,000 00		
NOTE.—For yearly expenses of operating the draw and main- taining the viaduct and bridge.							
Protecting Rock Island bridge by means of sheer booms ...	do.....				250 00	15,250 00	8,750 00
NOTE.—For yearly expense attending use of boom.							
<i>Springfield Arsenal, Springfield, Mass.—</i>							
Repairs and preservation of grounds and of buildings and machinery not used for manufacturing purposes.....	Mar. 3, 1893	27	596	1	10,000 00		
Repairs of streets and sidewalks, without the armory in- closures, belonging to the United States, but forming highways of the city of Springfield.....	Submitted.....				1,000 00		
Macadamizing Federal street, running between the two main inclosures of the armory, also used as a highway by the city of Springfield, but the property of the United States.....	do.....				3,000 00		
Additional amount required, beyond that already appro- priated, for the erection of two sets of officers' quarters, rendered necessary by the law prohibiting contractors for the Government to work over eight hours per day...	do.....				4,000 00	18,000 00	10,000 00
<i>Benicia Arsenal, Benicia, Cal.—</i>							
Establishing a complete and proper system of sewerage, and to perfect the plumbing system at officers' quar- ters Nos. 1, 2, 3, and 4.....	Mar. 3, 1893 Submitted.....	27	596	1	} 15,000 00		
NOTE.—There are no such things that can be rightly called main sewers existing at this arsenal. Attention is invited to let- ter to the Chief of Ordnance, dated November 29, 1890, and the report of the attending surgeon and estimate which accom- panied it (see House Ex. Doc. 83, 51st Cong., 2d sess.). The difference in the amount called for in this estimate and the esti- mate submitted November 29, 1890, is required on account of ad- ditional pipe and excavation necessary.							
Erection of a fireproof boiler house at new shops.....	do.....				2,500 00		
NOTE.—The present boiler house is a frame building, insuffi- cient in size and unsightly in appearance. It was originally constructed for two boilers and has been twice extended by temporary additions to accommodate the four now in use.							

Estimates of appropriations required for the service of the fiscal year ending June 30, 1895—Continued.

General object (title of appropriation) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes.			Estimated amt't required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1894.
		Vol. or R. S.	Page.	Sec.			
<i>Benicia Arsenal, Benicia, Cal.—Continued.</i>							
Erection of a fireproof pump house.....	Mar. 3, 1893 Submitted.....	27	596	1	\$2, 000 00		
NOTE.—The present boiler house at the Point is an old frame building, formerly a part of the old laboratory and afterwards used as a set of quarters for married enlisted men, moved to its present location, and slightly altered to adapt it to its present uses. It is about 80 yards to the south of the railroad tracks in an exposed, isolated, and unprotected position, and should be of brick.							
Erection of a new stable.....	do.....				4, 000 00	\$23, 500 00	\$2, 000 00
NOTE.—The stable now in use is old and very dark and unhealthy; could be used for storing hay if new stables were built.							
<i>Columbia Arsenal, Columbia, Tenn.—</i>							
Steam engine.....	Mar. 3, 1893 Submitted.....	27	596	1	1, 000 00		
NOTE.—The engine is needed for use in the repair shop. An appropriation has already been made for a boiler for use with the engine.							
One thousand feet of fire hose, 2½ inches in diameter, with necessary couplings, nozzles, etc.....	do.....				1, 400 00		
NOTE.—The fire hose is necessary to afford protection against fire occurring in any of the buildings on the grounds.							
Two hose reels.....	do.....				270 00		
NOTE.—The hose reels are required for use with the hose.							
One 6-ton wagon scales (Fairbanks).....	Submitted.....				600 00	3, 270 00	5, 000 00
NOTE.—The wagon scale is for use in receiving and issuing such stores as hay, coal, straw, etc.; it is absolutely necessary for this purpose, and should be provided. Provision is made in the amount asked for for the erection of a shed over the scale to protect it from the inclemency of the weather.							
<i>Frankford Arsenal, Philadelphia, Pa.—</i>							
Purchase or manufacture of new machinery.....	Mar. 3, 1893	27	596	1	15, 000 00		
NOTE.—It is proposed to use \$5,200 of this for the purchase or manufacture of six new pattern draw presses and one automatic compound double-acting press. The remainder, \$9,800, is for the purchase of one hydraulic heading machine, \$5,000 for heading 3.2-inch and 3.6-inch metallic ammunition; \$2,700 for a rack-drawing press for 1.65-inch ammunition and for other purposes; \$1,000 for annealing furnaces for 3.2-inch and 3.6-inch ammunition cases; \$1,100 for tools and material for experimental shrapnel cartridge case.							
Steam-heating apparatus for office.....	Submitted.....				810 00		
NOTE.—The office is now heated by a hot-air furnace which is worn out and must be renewed or replaced, and the experience here is that in very cold weather, when heat is most needed in all parts of the building, only one side can be comfortably heated. The steam-heating apparatus introduced into the public quarters has proven successful.							
Taking down and rebuilding a portion of the stone wall on Frankford Creek and along the dike on the east side of the arsenal, and for making better provision for the drainage of and reclaiming the lands below the tide level.....	do.....				6, 800 00	22, 610 00	5, 000 00
NOTE.—The retaining wall for earth dike along the creek is a vertical dry stone wall with large open joints of insufficient strength and stability, and without good foundation. Tide water, especially when the wind blows, works out the earth through the joints into the creek, and involves labor and expense in renewing it. This and the insecurity of the wall cause frequent breaks in the latter and endanger breaks in the earth dike and the flooding of a large part of the arsenal grounds. It is proposed to replace portions of the wall with a better wall, on suitable foundations, laying portions of it in cement mortar, and at the same time and in connection with the wall work to provide better drainage for the low grounds and to strengthen the dike. The amount asked for is deemed sufficient for immediate necessities and will accomplish as much as can be done with the best advantage in a single year. The foregoing estimate and remarks have been in the annual estimate for twenty years. The condition of the wall is getting worse each year (some portions are in imminent danger of falling down), and while repairs may patch it up for a time, the interests of economy will be better subserved by substantial relaying.							

General object (title of appropriation) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes.			Estimated amt required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1894.
		Vol. or R. S.	Page.	Sec.			
<i>Indianapolis Arsenal, Indianapolis, Ind.—</i>							
Construction of sewers to connect with the Indianapolis city sewer on Clifford avenue	Mar. 3, 1893 Submitted.....	27	596	1	\$8,500 00		
NOTE.—This sewer is an imperative necessity. The arsenal sewage is now discharged into cesspools having an overflow into Pogue's Run, within the arsenal limits. This arrangement for the arsenal alone might be endured for some time longer but for the addition of Woodruff Place sewage, which makes Pogue's Run at times a stream of filth, through the arsenal and the heart of the city, and a serious menace to the health of the whole community. The city authorities are about to construct a sewer along Clifford avenue which will receive the sewage of Woodruff Place, and with which the arsenal sewer should also be connected immediately.							
One-half the cost of paving with asphaltum Michigan street along the south front of the arsenal, 1,260 feet.....	do.....				8,820 00		
NOTE.—Arsenal avenue from south gate of arsenal to Washington street is being graded preparatory to paving with asphaltum, and it is understood to be the intention of the city government to pave Michigan street also as soon as Congress makes an appropriation for one-half the expense across the arsenal front. It is contended that, as the United States claims jurisdiction to the middle of the street (or 30 feet outside the arsenal fence), it would be unjust and a great hardship to compel property holders on the opposite side to pay the whole cost of this portion of the street improvements. The United States has already constructed a concrete sidewalk 10 feet wide along the south front of this street.							
One-half the cost of paving with asphaltum Clifford avenue along the north front of the arsenal, 1,260 feet.....	do.....				8,820 00		
NOTE.—The same reasons exist for paving this street as for paving Michigan street, and the same protests are made by property holders against being assessed the whole cost while the United States owns and claims jurisdiction over one-half the width of the street.							
Concrete sidewalk 10 feet wide along the north front of the arsenal on Clifford avenue, 1,260 feet	do.....				2,016 00		
NOTE.—This sidewalk is needed to replace an old one constructed by the United States many years ago of brick, and which is now badly broken, uneven, and in many places sunken out of sight.							
Iron fence with cut stone base along north front of the arsenal on Clifford avenue, 1,260 feet	do.....				5,880 00		
Construction of an iron fence along the west side of the arsenal on Hanna street, 2,468 feet	do.....				4,936 00		
NOTE.—The fence on north front along Clifford avenue is now an old and much-dilapidated wooden one, which presents a very unsightly appearance to people passing on that city thoroughfare. The fence estimated for is similar to that just completed along the south front. The fence on west side along Hanna street is also of wood and in very bad condition. It must be rebuilt very soon in wood if not in iron. The fence contemplated in the estimate for this side is of cheaper design than that on the south front, but will be substantial and durable. This estimate covers entire cost of stone foundation for these fences, but only cost of iron for superstructure.							
It is expected that with the aid of one or two mechanics the work may be done in the new shop, when completed, by the labor of enlisted men. The fence along Woodruff Place on the east side is also of wood but in fair condition, having been rebuilt only a few years ago. With painting it may be made to last several years longer. The rapid growth of the city about the arsenal makes a better surrounding fence a necessity to keep out trespassers, as well as to give it a well-cared-for appearance befitting a United States military establishment.

		Vol. or R. S.	Page.	Sec.			
<i>Powder Depot, St. Louis, Mo.—Continued.</i>							
To supply five brick and two stone magazines with new gutters and spoutings.....	Submitted.....				\$1,124 50		
NOTE.—The gutters and spoutings have for several years past been under constant repairs. Now they are worn out to such an extent that they will not hold solder any more. All old material is intended to be used in connection with the new work; 700 feet gutters, 400 feet spouting; 1,300 gutter hangers, and 420 spouting holders are to be cut out of old material.							
Entire new floor in magazine No. 2.....	do.....				1,600 00	\$4,524 50	
NOTE.—I have taken up a portion of the floor and have examined it carefully, and find the work required to be more extensive than was anticipated. Through defective drains portions of the concrete, which is 20 inches in thickness, has sunk and taken the floor with it. The entire floor must be removed and the concrete taken up, the underground drains repaired, a man-hole to the sewer which runs directly under the magazine built, then the concrete relaid, and over that a new floor. It is intended to use the detachment for all unskilled labor hereon, otherwise the expense would reach the sum of \$3,000. Without these repairs this magazine can not be used for the storage of powder, arms, or ammunition.							
<i>Powder Depot, Dover, N. J.—</i>							
Two spring wagons for hauling powder, and one pair of heavy-draft animals.....	Submitted.....				750 00		
NOTE.—The powder is now hauled to and from the magazines in wagons without springs, which subjects it to unnecessary, and what might be dangerous, jolting. Two of our horses are unfit for the heavy hauling required of them. They should be sold and replaced by a pair of young and strong animals.							
Cleaning and draining land, making roads, building bridges and fences, making new and repairing old roads to magazines, etc.....	do.....				10,000 00	10,750 00	
NOTE.—The land that was cleared some years ago has now a large undergrowth upon it, and much more land remains to be cleared to exempt the magazines from danger from forest fires. New roads are needed in every direction on the post, particularly to and around the magazines, some of which have not even common driveways to them. There is no road at all to the upper part of the reservation except by going around and outside it. The swampy land on either bank of the stream should be drained, as it lies between the magazines, and its moist exhalations are detrimental to powder and injurious to the health and comfort of the post. There is no exterior and very little useful interior fence to the post. The old wooden bridges now in place over the creek should be replaced by permanent structures.

		Vol. or R. S.	Page.	Sec.			
Watervliet Arsenal, West Troy, N. Y.—Continued.							
At present the post depends almost entirely upon the West Troy water works for a supply of water. This water has been so impure as to cause great complaints and sickness in the village of West Troy, this to such an extent that the village authorities have applied to the legislature for a new water-service system. Within the past year the use of city water on the post had to be discontinued as it was found to be unfit for manufacturing purposes on account of the large amount of foreign matter contained therein. For this reason and in order to secure a supply of water at the post independent of the city water works, the plan submitted by the Army Gun Factory Board on March 13, 1890, should be carried out with the addition of two large filters to be located within the structure supporting the new water tank and beneath the tank, thus foreign matter will be excluded from the water that will be pumped from the Hudson River and will at all times be fit for use in manufacturing. The new tank should be located so as to have sufficient elevation to throw water on the roof of the gun factory and other buildings, thus affording protection against fire. The estimate of the cost of all this work, submitted by the Army Gun Factory Board, was \$10,258.80, which has been increased to \$11,858.80 to cover the cost of two sand filters (Newark filters or equal).							
Replacing the gas mains and connections in arsenal grounds.....	Feb. 18, 1893 Submitted.....	27	461	1	\$3,500 00	\$30,358 80	\$40,000 00
NOTE.—The gas system is very old and the pipes and joints have rusted out, having been laid many years, and can no longer be used with economy. They should be replaced at once.							
Watertown Arsenal, Watertown, Mass.—							
Office building with safety fire-proof vault for storage of public documents.....	Feb. 18, 1893 Submitted.....	27	460	1	6,000 00	28,500 00	96,650 00
NOTE.—The present office is entirely too small for the purpose, and is not at all adapted to its uses. The officers and clerks are inconveniently located for the transaction of business. Our public records, etc., are without any security whatever. There are no conveniences in the office building at all, as water-closets, water, etc.							
One magazine for the storage of explosives.....	do.....				15,000 00		
NOTE.—There are at present two magazines here, one costing \$24,500 and the other \$1,750. They should both be removed, as they are in dangerous proximity to the shops; in fact, the larger one is right in the way of the extension of the shops. Both should be torn down and a single one built in the eastern portion of the reservation, far away from the shops and residences. A good portion of the amount will be required for the removal and erection of the traverses.							
One double set of noncommissioned officers' quarters for the sergeants.....	do.....				3,500 00		
NOTE.—The sergeants should have quarters near the barracks. The structure at present occupied is old and dilapidated, and is too far from barrack, which ought to be under their personal supervision at all times.							
Manufacture and erection of a drop testing machine for test of car couplers and other devices.....	do.....				4,000 00		
NOTE.—Dynamic effects experienced by many classes of materials in actual service have not as yet been systematically investigated, and important results may be expected to follow inquiries in this direction. Tests of car couplers made at the request of the Master Car Builders' Association have indicated the necessity for this investigation as soon as practicable.							
Testing Machine—							
Purchase of, labor, and material in caring for, preserving, and operating the United States testing machine, including such new tools and appliances as may be required.....	Mar. 3, 1893 Submitted.....	27	596	1	10,000 00 1,875 00	11,875 00	10,000 00
Hire of chemist and maintenance of chemical laboratory ..	do.....						
Repairs of Arsenals—							
Repairs and improvements at arsenals, and to meet such unforeseen expenditures as accidents or other contingencies during the year may render necessary.....	Mar. 3, 1893	27	596	1		50,000 00	45,000 00
NOTE.—The amount heretofore annually appropriated for this purpose is found to be totally inadequate to preserve and keep in repair the extensive buildings, grounds, roadways, and fences at the various ordnance establishments.—D. W. Flagler, Brigadier-General, Chief of Ordnance.							
Total arsenals.....						376,666 55	290,900 00

Estimates of appropriations required for the service of the fiscal year ending June 30, 1895—Continued.

General object (title of appropriation) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes.			Estimated am't required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1894.
		Vol. or R. S.	Page.	Sec.			
Armament of Fortifications—Continued.							
Eight, 10, and 12 inch guns manufactured by contract under the provisions of the fortifications acts approved August 18, 1890, and February 24, 1891.....	Feb. 18, 1893	27	458	1	\$160,460 00		
<p>NOTE.—Under its contract of November 7, 1891, the Bethlehem Iron Company should deliver four 8-inch, three 10-inch, and one 12-inch gun, the cost of which, with ammunition for proof, will be..... \$230,702</p> <p>Of this there has been appropriated by fortifications acts of July 23, 1892, and February 18, 1893..... 70,242</p> <p>Leaving a balance to be appropriated of..... 160,460</p>							
Steel field guns of 3.2-inch caliber.....	do				25,000 00		
<p>NOTE.—To manufacture about twenty-five guns, including the steel forgings therefor. When the fifteen guns for which an appropriation was made at the last session of Congress are completed the Department will have available one hundred and sixty-five 3.2-inch steel field guns. This estimate is submitted in pursuance of the Department's policy to provide for the manufacture of a limited number of field guns each year, in order that a reserve supply may be thus gradually accumulated, to be available in case of hostilities or emergency. This appropriation is also needed to prevent the closing up of the very efficient field-gun plant that has been established at the Watervliet Arsenal.</p>							
Carriages for field-gun batteries.....	do				61,000 00		
<p>NOTE.—To provide about twenty-five carriages, complete, with limbers and caissons each, and six combined battery wagons and forges with tools, for the equipment of the twenty-five 3.2-inch guns under the preceding item. The appropriation made for field carriages by the fortifications act of July 23, 1892, was sufficient to procure only about half the number of carriages required for the guns provided for by the same act, thus leaving a deficiency of thirteen carriages and caissons each and three combined battery wagons and forges. This deficit will remain until the necessary appropriation therefor of \$31,000 is made.</p>							
Siege breech-loading mortars, steel, of 7-inch caliber.....	Submitted.....				16,000 00		
Carriages and platforms for siege breech-loading mortars, steel.....	do				14,000 00		
<p>NOTE.—This sum is estimated to procure about ten of these mortars with carriages, platforms, and the necessary equipments therefor. One type mortar of this description is now under manufacture. These mortars constitute an essential part of the armament for siege purposes, being designed to deliver a high-angled fire of heavy rifled projectiles against strong entrenchments or covered positions. We have at present none of these mortars on hand, or any cannon which can fill their place in siege operations.</p>							
Alterations of existing carriages for 10-inch and 15-inch smoothbore guns, to adapt them to present service conditions.....	Feb. 18, 1893	27	458	1	50,000 00		
<p>NOTE.—To provide for the alteration of about nine 10-inch bar-bette carriages for service with the 8-inch muzzle-loading rifle converted, and nine 15-inch carriages for service with the 15-inch gun using increased powder charges. Thus far there have been altered one hundred and thirty-six 10-inch carriages and sixty 15-inch carriages, while nine 10-inch and nine 15-inch carriages are now undergoing alteration, under the provisions of the fortifications act of February 18, 1893. The number of guns on hand is as follows: Two hundred and ten 8-inch muzzle-loading rifles, converted, three hundred 15-inch smoothbore guns.</p> <p>There is also a large number of carriages for each caliber of piece on hand and available for alteration. These old cannon, mounted on their altered carriages, even when replaced by the new steel high-power guns, will be useful for the defense of secondary positions.</p>							
Sights for cannon, and for fuses.....	Feb. 18, 1893	27	459	1	8,250 00		
<p>NOTE.—To provide about five hundred seacoast fuses; twenty-five sets of field-gun sights; ten sets of 5-inch gun sights; ten sets of 7-inch howitzer sights; fifty sets of seacoast gun sights. The Department has no suitable base percussion fuse on hand for use with 12-inch breech-loading mortar shell on hand, and it is quite important that at least a small supply of such fuses should be provided. The number of sights for seacoast guns estimated for is not sufficient for all the guns that will be completed at the end of the next fiscal year.</p>							
Inspecting instruments, gauges, and templates for the manufacture of cannon.....	do				1,500 00		
<p>NOTE.—These instruments are for the use of the inspectors of ordnance in connection with the manufacture of cannon at the Army Gun Factory. The estimate covers the new instruments, etc., required and the repair of those already in use.</p>							

Estimates of appropriations required for the service of the fiscal year ending June 30, 1895—Continued.

General object (title of appropriation) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes.			Estimated amt't required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1894.
		Vol. or R. S.	Page.	Sec.			
Armament of Fortifications—Continued.							
Powder for issue to the service	Feb. 18, 1893	27	459	1	\$35,500 00		
NOTE.—The funds thus far appropriated for powders for issue to the service, for instruction in the use of the new steel seacoast guns and mortars, has sufficed to purchase a supply of only about four hundred rounds in all. The object of the above estimate is to enlarge this small supply for current issues to the service, so as to provide for target practice and instruction of artillery troops. The sum estimated is not sufficient to provide in addition a small supply for use in emergency. A number of siege and seacoast cannon, with their carriages, will be ready for issue by the end of the fiscal year 1894, and ammunition for their service will be required for instructing the artillery troops in the use of the new material for target practice, etc.							
Projectiles for issue to the service.....	Feb. 18, 1893	27	460	1	30,000 00		
NOTE.—The quantity of service projectiles on hand for issue is small, and should be added to yearly to supply current issues for artillery practice and to provide a limited supply for emergencies.							
Powders and projectiles for the proof of 8-inch, 10-inch, and 12-inch guns.....	do.....				28,100 00		
NOTE.—The number of guns to be completed by June 30, 1895, including eleven 8-inch guns, assembled and finished under contract with the West Point Foundry Company, is as follows: Fifty-three 8-inch guns, forty-one 10-inch guns, twenty 12-inch guns. These guns must be proved before being issued to the service.							
Powder and projectiles for proof of 12-inch breech-loading mortars.....	do.....				3,873 00		
NOTE.—There will be completed seventy-three cast-iron hooped and seven all-steel breech-loading mortars by June 30, 1895. These mortars must be proved before they can be issued to the service.							
Steel deck-piercing shell for 12-inch breech-loading mortars.....	do.....				50,000 00		
NOTE.—Estimated to purchase about two hundred shell. As a number of the 12-inch breech-loading mortars will soon be in service, their carriages and emplacements being nearly completed, a limited supply of efficient deck-piercing shell should be provided for use, to be held in reserve for emergencies. The ordinary cast-iron shell break up when fired against steel protective decks.							
Purchase and erection of steel plates for the test of deck-piercing shell.....	do.....				8,000 00		
NOTE.—To cover the purchase and erection of the plates required for testing the deck-piercing shell under the preceding item prior to their acceptance.							
Steel armor-piercing shot for seacoast breech-loading guns.....	do.....				100,000 00		
NOTE.—Estimated to purchase about two hundred 12-inch shot. Projectiles of this type must possess great resistance and hardness to penetrate modern armor, are difficult to make, and a great deal of time is required for their manufacture and tests being not infrequently rejected in testing. It is deemed of great importance, therefore, to make timely provision for a sufficient supply to meet emergencies that may arise. The armor-piercing shot manufactured by the Midvale Steel Company are made by the Holtzer process, which experiments have shown to be one of the best in use.							
Purchase and erection of armor plates for testing armor-piercing shot.....	do.....				28,000 00		
NOTE.—These plates are for proving the armor-piercing shot provided for under the preceding item.							
To provide for payments that may become due in the purchase or manufacture of machine tools and fixtures to complete the equipment of the south wing of the Army Gun Factory, Watervliet Arsenal, West Troy, N. Y.; steel breech-loading rifled seacoast mortars of 12-inch caliber; oil-tempered and annealed steel for high-power coast-defense guns of 8-inch, 10-inch, and 12-inch caliber; carriages for breech-loading rifled mortars of 12-inch caliber, and carriages for mounting new steel breech-loading 8-inch, 10-inch, and 12-inch guns, procured under the provisions of the fortifications act approved July 23, 1892, said payments being in excess of the moneys appropriated by said act and by the act approved February 18, 1893, for these objects.....	do.....				426,600 00		
Provided, That the total amount expended for each of these said objects shall not exceed the amount specified therefor in the act of July 23, 1892.							

Estimates of appropriations required for the service of the fiscal year ending June 30, 1895—Continued.

Armament of Fortifications—Continued.							
NOTE.—The fortifications act of July 23, 1892, provides as follows: "The Secretary of War is hereby authorized and directed to procure, by purchase or manufacture, the following, namely: "Machine tools and fixtures adapted to the manufacture of steel seacoast cannon, to complete the equipment of the south wing of the Army Gun Factory, Watervliet Arsenal, West Troy, New York, the cost of which shall not exceed the sum of three hundred and forty-six thousand six hundred dollars; steel breech-loading rifled seacoast mortars of twelve-inch caliber, the cost of which shall not exceed one hundred thousand dollars; oil-tempered and annealed steel for high-power coast-defense guns of eight-inch, ten-inch, and twelve-inch caliber, in quality and dimension conforming to specifications, subject to inspection at each stage of the manufacture, and including all the parts of each caliber, the cost of which shall not exceed eight hundred thousand dollars; carriages for breech-loading rifled mortars of twelve-inch caliber, two hundred thousand dollars; carriages for mounting new steel breech-loading eight, ten, and twelve inch guns, three hundred thousand dollars, amounting in all to one million seven hundred and forty-six thousand six hundred dollars: <i>Provided</i> , That not more than five hundred and seventy thousand dollars of this amount shall be expended for these objects during the fiscal year ending June thirtieth, eighteen hundred and ninety-three, which sum of five hundred and seventy thousand dollars is hereby appropriated out of any moneys in the Treasury not otherwise appropriated." The estimate above submitted is to cover the obligations incurred under these provisions of the act for which no funds have been appropriated, and the entire amount will be required for the fiscal year 1894-'95. <i>Sums already appropriated.</i> Fortification act of July 23, 1892..... \$570, 000 Fortification act of February 18, 1893..... 750, 000 Total 1, 320, 000 Total amount authorized by act of July 23, 1892..... 1, 746, 600 Balance remaining to be appropriated..... 426, 600 This balance is to be applied on two sets of 10-inch gun forgings and four sets of 12-inch gun forgings, to be delivered under contract, and in making the final payments on the machinery for equipping the south wing of the Army Gun Factory, all of which will be delivered within the next fiscal year. To provide for payments that may become due in the purchase or manufacture of oil-tempered and annealed steel for high-power coast-defense guns of 8-inch, 10-inch, and 12-inch caliber; carriages for breech-loading rifled mortars of 12-inch caliber, and carriages for mounting new steel breech-loading 8-inch, 10-inch, and 12-inch guns, procured under the provisions of the fortifications act approved February 18, 1893, said payments being in excess of the money therein appropriated for these objects <i>Provided</i> , That the total amount expended for each of these said objects shall not exceed the amount specified therefor in the said act. NOTE.—The fortifications act of February 18, 1893, provides as follows: "The Secretary of War is hereby authorized and directed to procure, by purchase or manufacture, the following, namely: "Oil-tempered and annealed steel for high-power coast-defense guns of eight-inch, ten-inch, and twelve-inch caliber, in quality and dimension conforming to specifications, subject to inspection at each stage of the manufacture, and including all the parts of each caliber, the cost of which shall not exceed six hundred thousand dollars; carriages for breech-loading rifled mortars of twelve-inch caliber, one hundred thousand dollars; carriages for mounting new steel breech-loading eight, ten, and twelve inch guns, two hundred thousand dollars, amounting in all to nine hundred thousand dollars: <i>Provided</i> , That not more than four hundred thousand dollars of this amount shall be expended for these objects during the fiscal year ending June thirtieth, eighteen hundred and ninety-four, which sum of four hundred thousand dollars is hereby appropriated out of any moneys in the Treasury not otherwise appropriated." The estimate above submitted is to cover the obligations incurred under the provisions of the act for which no funds have been appropriated, and the entire amount will be required for the fiscal year. Under the contracts made in compliance with the above provisions, the following deliveries will be made and the following sums are required to meet indebtedness incurred: \$100,000 for mortar carriages: Estimated to procure about thirteen carriages, and for which a contract has been made. These and all other mortar carriages under present contracts will be delivered by October 17, 1894. \$600,000 for oil-tempered and annealed steel gun forgings: Nine sets 8 inch forgings will be delivered by March 1, 1894; seven sets 10-inch forgings will be delivered by October 1, 1894; eight sets 12-inch forgings will be delivered by May 16, 1895. \$200,000 for carriages for 8, 10, and 12 inch guns: This money will be all expended during the next fiscal year, so that all the money authorized under the above section of the act of February 18, 1893, will be required before the end of the next fiscal year. Amount authorized..... \$900, 000 Amount actually appropriated..... 400, 000 Balance remaining to be appropriated..... 500, 000

<i>Care and Maintenance of Washington Monument—</i>							
Salaries of employes:							
One custodian, at \$100 per month.....	Mar. 3, 1893	27	598	1	\$1,200 00		
One steam engineer, at \$90 per month (increase of \$10 per month submitted).....	do.....				1,080 00		
One assistant steam engineer, at \$70 per month (increase of \$10 per month submitted).....	do.....				840 00		
One fireman, at \$60 per month (increase of \$10 per month submitted).....	do.....				720 00		
One assistant fireman, at \$60 per month (increase of \$15 per month submitted).....	do.....				720 00		
One conductor of elevator car, at \$75 per month.....	do.....				900 00		
One attendant on floor, at \$60 per month.....	do.....				720 00		
One attendant on top floor, at \$60 per month.....	do.....				720 00		
Three night and day watchmen, at \$60 per month each...	do.....				2,160 00		
One new engine complete in position, to replace the old engine which runs the dynamo for the electric lights.....	Submitted.....				650 00		
Fuel, lights, repairs, contingencies, etc.:							
Fuel, lights, oil, waste, packing, tools, matches, paints, brushes, brooms, lanterns, rope, nails, screws, lead, electric lights, heating apparatus, oil-stoves for elevator car and upper and lower floors, repairs to engines, boilers, dynamo, elevator, and repairs of all kinds connected with the Monument and machinery, and purchase of all necessary articles for keeping the Monument, machinery, elevator, and electric-light plant in good order (increase of \$600).....	Mar. 3, 1893	27	598	1	3,600 00	\$13,310 00	\$11,520 00
NOTE.—The necessity for the above increase of the estimate over the appropriations for the present fiscal year is explained in Appendix E.							
<i>Fishways at Great Falls—</i>							
To complete the erection of fishways at the Great Falls of the Potomac.....	Aug. 5, 1892	27	376	1	}.....	7,890 00	
	Submitted.....						
NOTE.—The officer charged with the disbursement of the funds appropriated for the erection of these fishways reports that the Commissioner of Fish and Fisheries is of opinion that, in addition to the funds now available, the sum of \$7,890 will be required for their completion. He recommends the appropriation.—Thos. Lincoln Casey, Brigadier-General, Chief of Engineers.							
Total Buildings and Grounds in and around Washington						167,021 40	101,492 00
MILITARY ACADEMY.							
<i>Buildings and Grounds, Military Academy—</i>							
Buildings and grounds: Repairing roads and paths, including roads and bridges on reservation.....	Mar. 1, 1893	27	521-3	1	1,000 00		
NOTE.—This sum is necessary for the proper care of the already extensive and yearly increasing number of roads and paths on the reservation. Since the acquisition of the "Kinsley" tract, purchased under act of Congress approved March 2, 1889, the Department has been called upon to place and maintain in order the roads and paths contained therein without any corresponding increase in this appropriation.—Capt. W. H. Miller, A. Q. M., U. S. Army.							
Continuing construction of breast-high wall in dangerous places.....	do.....				500 00		
Waterworks: Renewal of material in filter beds; improving ventilation of filter house and water house; hose for use in cleaning filter beds and water house, and for use in fire-service at same; tools, implements, and materials for use of the two keepers and for repairs of siphon house, filter house, and of four and one-half miles of supply pipes; for shed for tools and storage of fuel for keeper at Round Pond, and for tool house at filter; for gauges at Round Pond and Delafield Pond, and stairs for access to same, and all other necessary work of maintenance and repairs.....	do.....				500 00		
NOTE.—A slight change is suggested in the usual language of this paragraph to provide for needful expenditures.—Capt. Jas. L. Lusk, Corps of Engineers, U. S. Army, Instructor of Practical Military Engineering, U. S. M. A.							

Estimates of appropriations required for the service of the fiscal year ending June 30, 1895—Continued.

General object (title of appropriation) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes.			Estimated am't required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1894.
		Vol. or R. S.	Page.	Sec.			
<i>Buildings and Grounds, Military Academy—Continued.</i>							
Cleaning and improving watersheds of reservoirs, removing the shallow flowage of reservoirs, raising, extending, repairing, and strengthening reservoir dams, and laying a new connection to the southern part of the reservation.....	Submitted.....				\$25,000 00		
NOTE.—Without exception, all of the reservoirs on the reservation, or their watersheds, needs cleaning in order to improve the quality of the water. Two dams need repairing, as their present condition is not safe. Three of the reservoir dams can be raised to great advantage. The extension of the built-up portion of the post to the southward require a new independent main to safely supply it.— <i>Capt. Jas. L. Lusk, Corps of Engineers, U. S. Army, Instructor of Practical Military Engineering, U. S. M. A.</i>							
Broken stone and gravel for roads.....	Mar. 1, 1893	27	521-3	1	2,000 00		
Maintaining and improving the grounds of the post cemetery, including the purchase of trees, plants, tools, and materials, to be immediately available.....	do.....				1,500 00		
Repairs of cooking utensils, and the replacement of worn-out cooking utensils in the cadet subsistence department, to be expended without advertising.....	do.....				326 00		
Repairs of chairs, tables, and other furniture in cadet subsistence department, to be expended without advertising.....	do.....				50 00		
Painting, kalsomining, whitewashing, and repairing interior walls of cadet mess building, kitchen, dish pantry, bakery, dormitories, and storerooms, and for incidental repairs about the same, to be expended without advertising.....	do.....				150 00		
Reflooring cadet mess hall, 96 feet long by 45 feet wide, substituting for the old and double-board floor therein, a stone, slate, or tile floor, whichever may be the best obtainable under this appropriation.....	Submitted.....				4,000 00		
NOTE.—Immediate availability is requested because of the urgency for the new floor. Some years ago a new board floor was laid in the hall on top of the then floor. The hall has, therefore, a double wooden floor, each of which is old and very inferior. Owing to the use of the hall thrice daily, the scrubbing of the hall daily or oftener is absolutely necessary. This double floor absorbs the soapy water, which afterwards evaporates, filling the hall constantly with a foul odor which is sickening, but which with the present floor can not be avoided, as it will be with a stone, slate, or tile floor.— <i>Capt. W. F. Spurgin, 21st Infantry, Treasurer U. S. M. A., Quartermaster and Commissary of Cadets.</i>							
General repairs to the cadet laundry, painting, renewing machinery, and incidental repairs to machinery and building, to be expended without advertising.....	Mar. 1, 1893	27	521-3	1	300 00		
Painting, and for general and incidental repairs and improvements to the cadet quartermaster's department building, including storerooms, office, tailor shops, shoe-repairing room, etc., to be expended as required without advertising.....	Submitted.....				300 00		
NOTE.—The sum appropriated this year for plastering the unfinished parts of this building, for painting, etc., will be insufficient to complete the work and at the same time provide for the general and incidental repairs and improvements required constantly in and about a building used, as is the cadet quartermaster's department building, for storerooms, office, tailor shops, sewing rooms, shoe shops, etc.— <i>Capt. W. H. Miller, A. Q. M., U. S. Army.</i>							
Completing the modernization and improvement of the plumbing and sewerage of the post.....	do.....				5,000 00		
NOTE.—For the past two years the work of improving and modernizing the plumbing and sewerage of the post has been in progress, and nearly all the old plumbing fixtures of condemned patterns have been replaced with modern fixtures of the type now universally used in all fairly-well built residences. In addition to this, needful improvements have been made in the ventilation of sewers and in the drainage of houses, but in order to complete the work it is found that the sum asked for herein is necessary. With a view, therefore, of placing this post so far as its plumbing and sewerage systems are concerned, in the best possible sanitary condition, this estimate is respectfully submitted.— <i>Capt. W. H. Miller, A. Q. M., U. S. Army.</i>							
Furnishing and erecting in the natatorium of the gymnasium, in complete working order, six slate-lined compartments with six combination shower, spray, and needle baths, one gas heater, and one hot-water storage tank.....	do.....				850 00		

General object (title of appropriation) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes.			Estimated amt required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1894.
		Vol. or R. S.	Page.	Sec.			
<i>Buildings and Grounds, Military Academy—Continued.</i>							
NOTE.—With regard to the item for furnishing and erecting in the natatorium of the gymnasium six slate-lined compartments for shower, spray, and needle baths, I would state that it is proposed to add these, firstly, on account of their hygienic importance, and, secondly, as a measure of economy. The water in the swimming tank at present becomes contaminated in a few days, necessitating frequent changes. The shower bath should be used before entering the tank. The capacity of the tank is so great that every time it is refilled it reduces the amount of water in storage noticeably.— <i>S. M. Mills, Lieut. Col. of Artillery, Commandant of Cadets.</i>							
Repairs, new machines and fixtures for gymnasium.....	Submitted.....				\$300 00		
NOTE.—With regard to the item for repairs, new machines, and fixtures for gymnasium, I would state that this item was omitted from the list of appropriations three years ago, when the first request for an appropriation for the equipment of the new gymnasium was made. It is proposed to use this to keep the appliances in good repair, replace broken parts, and to purchase new machines in place of those worn out.— <i>S. M. Mills, Lieut. Col. of Artillery, Commandant of Cadets.</i>							
New balls and pins; repairs to bowling alleydo.....				150 00		
NOTE.—With regard to the item for new balls and pins, repairs to bowling alley, I would state that it is proposed to use this appropriation to keep the bowling alley, balls, pins, pits, runs, etc., in good repair, and to replace broken parts.— <i>Lieut. Col. S. A. Mills, of Artillery, Commandant of Cadets.</i>							
Completing the plumbing in the new sinks and bath-rooms for cadets, to be immediately available.....do				1,200 00		
NOTE.—In the estimate submitted by me for the service of the fiscal year ending June 30, 1893, the sum of \$23,700 was asked for the erection of new sinks and bathrooms for cadets. As only \$24,000 of this sum was granted, it was found necessary to make certain modifications in the plans and specifications upon which the estimate was based to bring the cost of the building within the sum appropriated. In making these modifications it was found necessary to cut out ten complete baths. As these baths are necessary for the proper equipment of the building, and as the wants of the corps of cadets can not be met unless the number of baths originally estimated for are provided, I respectfully submit this estimate for favorable action.— <i>Capt. W. H. Miller, A. Q. M., U. S. Army.</i>							
General repairs to cadet barracks: For replacing parti-tions, racks, etc., in tenth division; for removing old baths from basement; for painting and repairing roof; for repairs to doors, locks, hinges, etc.; and for flag-ging in areado.....				2,840 00		
NOTE.—The amounts asked annually for some years past for repairs to cadet barracks have been only such as would cover ordinary repairs; but upon completion of the south wing of the new academic building it will be necessary to restore partitions, racks, etc., in the rooms of the tenth division, temporarily occupied now by three of the departments of instruction, and upon completion of the new sinks and bathrooms for cadets, the old baths should be removed from the basement of the barracks and the basement rooms fitted up for storage purposes. The item for painting and repairing roof is submitted with a view of protecting the iron roof from the severe weather of this climate; while the repair to doors, locks, hinges, etc., are necessary to place the barrack in good condition. As regards the flagging for area, I deem this indispensable for the reason that that now in place in the pavement extending along the porch of barracks is broken, irregular, and practically worn out, and can not be repaired except by being replaced.— <i>Capt. W. H. Miller, A. Q. M., U. S. Army.</i>							
Repairs and improvements, etc., needed at the cadet hos-pital, as follows: For painting roof and woodwork of hospital throughout, two coats; for painting ceilings and walls of third floor, two coats; for 600 square feet of tile flooring for front hall way and lavatories; for reoil and relacquering material for hardwood floors; for 200 feet of planed boards, 1 by 16 inches, for shelving storeroom; for 10 pounds of sal ammoniac to supply battery for electric bells; for 9 feet of black-walnut counter, with marble top, for dispensary; for glass screen, with door, for dispensing counter; for steam radiator, with necessary fittings for ward No 2, same as ward No. 1; for three medicine closets for wards; for whitewashing basement throughout; for rebronzing radiators, water pipes, etc., throughout; for eight stationary lockers for hospital attendants; for twenty-four stationary lockers, three sets of eight

Estimates of appropriations required for the service of the fiscal year ending June 30, 1895—Continued.

General object (title of appropriation) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes.			Estimated am't required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1894.
		Vol. or R. S.	Page.	Sec.			
<i>Buildings and Grounds, Military Academy—Continued.</i>							
Repairs and improvements to barracks of the detachment of army service men, Quartermaster's Department, and for steam plant for heating same.....	Submitted.....				\$4, 000 00		
<p>NOTE.—This barrack is entirely too small for the detachment of army service men, as it is found necessary at the present writing to quarter fifteen men of the detachment in the old soldier's hospital. Upon the removal of the post exchange from the old cavalry barrack, a building situated a few yards north of the present barrack of the detachment of army service men, sufficient accommodations can be secured by connecting and fitting up both buildings for the army service detachment. With the sum asked for herein it is proposed to do this work and in addition introduce a system of steam heating similar to that provided for barracks of other troops at this post, and at the same time provide adequate means of ventilation for both buildings.</p> <p>It may be well to state that within the next year or two it will be necessary to increase the strength of the above detachment to 150 men, such a force being necessary for the service of the Academy.—Capt. W. H. Miller, A. Q. M., U. S. Army.</p>							
Improving the surface drainage of married enlisted men's quarters in Logtown.....	do.....				500 00		
<p>NOTE.—During the heavy rains in the fall, winter, and early spring many of the cellars of these buildings have been flooded, as no means are provided for carrying off the water flowing from the high and sloping ground in their immediate vicinity. The soil around and beneath the foundations for a great part of the year is wet and the moisture rises along the cellar walls above the floor level, rendering the condition of the buildings far from being satisfactory from a sanitary standpoint.</p> <p>To correct these defects a suitable surface drain on the upper side of the road in front of these buildings is, in my opinion, indispensable.—Capt. W. H. Miller, A. Q. M., U. S. Army.</p>							
Painting the exterior of five double frame houses in "Rugertown," used as quarters for married enlisted men.....	do.....				1, 200 00		
<p>NOTE.—This estimate is respectfully submitted for the reason that the exterior of the buildings has not been painted since their erection in 1872, and further delay will result in serious injury to them.—Capt. W. H. Miller, A. Q. M., U. S. Army.</p>							
Repairs to ordnance laboratory, etc:							
New spouting on all buildings.....	do.....				300 00		
Water-closets in laboratory yard.....	do.....				175 00		
Rebuilding boathouse, to replace the one now standing and irreparable.....	do.....				900 00		
Cases, materials, and fittings for ordnance museum in new academic building.....	do.....				1, 000 00		
<p>NOTE.—The spouting is needed to preserve the buildings, and it is to finish the work of spouting which was begun last year, but which could not be completed for lack of money.</p> <p>The closets are necessary for the use of officers and enlisted men of the ordnance detachment. The present closets, which they are intended to replace, are very old and out of repair, and it is impossible to repair them and make them fit for use without great expense, and they would still remain old closets.</p> <p>A boat is kept here and is necessary for placing targets used for mortar firing and for many other purposes, and a boathouse is necessary to protect it. The boathouse here at present has been examined and it is so old as to be beyond repair.</p> <p>A room has been set apart for an ordnance museum in the new academic building and it requires fitting up. The cases are required for the preservation and exhibition of the various articles.—Capt. L. L. Bruff, Ordnance Department, U. S. Army, Instructor of Ordnance and Gunnery.</p>							
One hundred and sixty-eight running feet of light iron porch, with yellow-pine floor and tin roof, for south side and east end of the new cavalry barrack.....	do.....				4, 200 00		
<p>NOTE.—The commanding officer of the United States Military Academy detachment of cavalry states that "this addition to the barracks was included in the original plans, and is greatly needed for the comfort and convenience of the men."—Capt. W. H. Miller, A. Q. M., U. S. Army.</p>							
Covered way from the cavalry stable to riding hall, a frame shed built in sections and so constructed as to be put together and taken apart as desired	do.....				400 00		
Necessary paint, including cost of labor, for exterior of cavalry stable.....	do.....				480 00		

Estimates of appropriations required for the service of the fiscal year ending June 30, 1895—Continued.

General object (title of appropriation) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes. 		Vol. or R. S.	Page.	Sec.			
<i>Buildings and Grounds, Military Academy—Continued.</i>							
New mangers and general repairs to interior of cavalry stables.....	Submitted				\$2, 460 00		
<p>NOTE.—The covered way from the cavalry stable to riding hall, about 50 feet in length, is necessary during the winter months for the welfare of the public animals used in the instruction of cadets in riding. During the exercises in the riding hall the horses become very much heated, and in a climate like this are liable to contract colds through being exposed to chilly blasts while being led to the stables.</p> <p>The estimate for painting the exterior of the cavalry stable is recommended for the reason that it has not that neat appearance which buildings of an institution like this should present, and it is found impracticable to keep its whitewashed walls in the condition desired with the means at hand. The stable is in plain view from the river and from many of the buildings on the eastern slope of the plain, and its outward appearance should therefore be placed in the very best condition and corresponding with all surrounding structures.</p> <p>The estimate for new mangers and for general repairs to the interior of the cavalry stable is recommended for the reason that much of the woodwork of the stalls is rotten and beyond repair. The stable has not been thoroughly overhauled for years, and an inspection shows that its interior woodwork needs considerable attention.—<i>Capt. L. L. Craig, 6th Cavalry, Senior Assistant Instructor of Cavalry Tactics.</i></p>							
Building a breast-high masonry wall on east side of road from north gate to entrance to post cemetery.....	do.....				1, 800 00		
<p>NOTE.—This wall is necessary in order that the cemetery and the old cadet garden, recently consolidated in one plot, may be uniformly and suitably inclosed on the side nearest the post and at the same time be provided with an entrance near the present north gate.—<i>Capt. W. H. Miller, A. Q. M., U. S. Army.</i></p>							
Reflooring band barracks throughout.....	do.....				2, 400 00		
<p>NOTE.—I respectfully submit this estimate, in view of the urgent need of new floors for all rooms in this building. The present floors are old and worn out, and should be replaced with new ones at the earliest practicable date.—<i>Capt. W. H. Miller, A. Q. M., U. S. Army.</i></p>							
New sewer from Rugertown to connect with new sewer from new soldiers' hospital to river.....	do.....				2, 800 00		
<p>NOTE.—There is no drainage of any kind, except surface drainage, in the vicinity. For sanitary reasons this sewer should be built as soon as practicable.—<i>Capt. W. H. Miller, A. Q. M., U. S. Army.</i></p>							
Removing the piling of the old south wharf.....	do.....				500 00		
<p>NOTE.—This wharf, abandoned upon the completion of this section of the West Shore Railroad, is situated about 200 yards south of the present south wharf. It presents an unsightly appearance, by reason of the falling in of its flooring and the rotting of its piles. I recommend its removal, as the approaches to the post are marred by it.—<i>Capt. W. H. Miller, A. Q. M., U. S. Army.</i></p>							
Continuing repairs to road from south gate to the southern boundary line of reservation, and for continuing the laying of a stone walk along same.....	do.....				3, 000 00		
<p>NOTE.—Last year the sum of \$2,000 was asked for the repair of this road and for laying a board walk along same. In the act making appropriations for the support of the Academy for the current fiscal year it is noticed that, in addition to repairing this road, provision is made for a stone or cement walk for it. Neither kind of walk, after repairs are made to the road, can be laid with the amount granted, but with the sum asked for herein the Department will be enabled to lay a good, substantial stone sidewalk from the south gate to the southern boundary line of the reservation, and at the same time widen the road near the "Kinsley" residence. This latter work is, in my opinion, necessary, as the road immediately below the south gate for a distance of about 300 yards is, including the present cinder path for foot travel, only from 16 to 13 feet wide. Considerable labor will be involved in widening the road, as a large amount of rock will have to be removed from the face of the side hill to obtain the space needed. As the road is too narrow for safe travel by vehicles after nightfall, and as the walk between the post and the adjacent village is badly needed, I respectfully recommend favorable action on this estimate.—<i>Capt. W. H. Miller, A. Q. M., U. S. Army.</i></p>							

Estimates of appropriations required for the service of the fiscal year ending June 30, 1895—Continued.

General object (title of appropriation) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes. Buildings and Grounds, Military Academy—Continued.							
Improving and extending the present electric fire-alarm system of the post	Submitted.....				\$700 00		
<p>NOTE.—The fire-alarm system of the post needs a thorough overhauling, and it should be extended to cover all the territory wherein valuable public buildings are situated. Since its establishment in 1885 a new soldiers' hospital and about thirty-four sets of married enlisted men's quarters have been erected in the district towards the north known as "Rugertown," and during the current fiscal year a new set of married officers' quarters will be erected in the "Kinsley" track at a point about one-fourth of a mile south of the present South Gate. As both of these places are remote from that part of the post covered by the electric fire alarm, and as the system needs new boxes, bells, and general repairs to gongs, boxes, poles, overhead wires, etc., I respectfully recommend favorable action on this estimate for the better protection of public buildings in case of fire.—<i>Capt. W. H. Miller, A. Q. M., U. S. Army.</i></p>							
Repairing fuel house belonging to the barracks of Company "E," Battalion of Engineers	do.....				75 00		
<p>NOTE.—This fuel house needs a new roof and a new floor.—<i>Capt. Jas. L. Lusk, Corps of Engineers, Instructor of Practical Military Engineering.</i></p>							
Reflooring and interior painting of barracks of Company "E," Battalion of Engineers	do.....				1,200 00		
<p>NOTE.—The barrack building of Company "E" needs reflooring throughout, the old floor being badly worn. The inside woodwork generally needs repainting.—<i>Capt. Jas. L. Lusk, Corps of Engineers, Instructor of Practical Military Engineering, U. S. M. A.</i></p>							
Necessary repairs to engineer boathouses.....	do.....				100 00		
<p>NOTE.—Certain piles, cribs, and parts of foot walks require renewal.—<i>Capt. Jas. L. Lusk, Corps of Engineers, Instructor of Practical Military Engineering, U. S. M. A.</i></p>							
Necessary repairs to engineer equipment shed.....	do.....				200 00		
<p>NOTE.—New leaders are required, a portion of the brickwork must be repointed, and broken footings repaired.—<i>Capt. Jas. L. Lusk, Corps of Engineers, Instructor of Practical Military Engineering, U. S. M. A.</i></p>							
Placing gas pipes and gas fixtures throughout the barracks of Company "E," Battalion of Engineers.....	do.....				400 00		
<p>NOTE.—Gas lighting should supersede the present oil lamps, which are not satisfactory.—<i>Capt. Jas. L. Lusk, Corps of Engineers, Instructor of Practical Military Engineering, U. S. M. A.</i></p>							
For one steam road roller.....	do.....				4,500 00		
<p>NOTE.—This is very much needed for the purpose of properly and expeditiously packing broken stone necessary in the repair of roads upon the post and reservation. Many of these roads in the spring months and after heavy rains are in a soft and spongy condition and easily cut into ruts. To overcome these defects, and to secure a firm, smooth surface, a steam road roller is, in my opinion, indispensable.—<i>Capt. W. H. Miller, A. Q. M., U. S. Army.</i></p>

General object (title of appropriation) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes.			Estimated am't required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1894.
		Vol. or R. S.	Page.	Sec.			
Improvement of Yellowstone National Park— Improvement of the Yellowstone National Park, to be expended by and under the direction of the Secretary of War. Repair, maintenance, restoration, and construction of roads, bridges, and paths necessary to reach objects of interest in the park.....	Mar. 3, 1893	27	598	1	\$30,000 00	\$30,000 00	\$30,000 00
<small>NOTE.—The work of road construction is of such a nature that it is impossible to accurately describe it without expensive preliminary surveys. For the repairs the Government possesses an equipment of working implements, tents, and outfit, enabling it to do this work more economically and satisfactorily than by contract. The working season averages about from the middle of June to the middle of October, while appropriations in alternate years are generally made late in the session of Congress. It is, therefore, recommended that authority be given to carry on this work by contract or otherwise, as may be most economical and advantageous to the Government, and that the funds hereafter appropriated for this work be made available until expended.—Thos. Lincoln Casey, Brigadier-General, Chief of Engineers.</small>							
Chickamauga and Chattanooga National Park— Compensation and expenses of the civilian commissioners and their assistant in historical work, expenses of surveyors and assistants, clerical assistance, messenger, office expenses, labor, stationery, furniture, etc., and all other necessary expenses.....	Aug. 19, 1890 Mar. 3, 1893	26 27	333 598	1-11 1	\$40,000 00		
Draining, guttering, sewerage, and surfacing 20 miles of roads, at \$3,000 per mile.....	Same acts.....				60,000 00		
For continuing work in clearing fields and woods, restoring old lines of works and buildings which were landmarks in the battles.....	do.....				25,000 00		
For bronze historical tablets to mark notable military locations in and about Chattanooga.....	do.....				2,000 00		
For one arched iron gateway at entrance of the park, with historical tablets.....	Submitted.....				8,000 00		
Two iron bridges over the Chickamauga River.....	do.....				16,000 00		
Total Miscellaneous.....						151,000 00	100,000 00
RIVERS AND HARBORS.						885,000 00	480,000 00
Harbor of Refuge at Point Judith, Rhode Island— Continuing improvement.....	Mar. 3, 1893	27	603	1	100,000 00	100,000 00	100,000 00
Improving Hudson River, New York— Continuing improvement.....	Mar. 3, 1893	27	602	1	145,000 00	500,000 00	500,000 00
Improving Harbor between Philadelphia, Pa., and Camden, N. J.— Continuing improvement, removal of Smiths Island and Windmill Island, Pennsylvania, and Pettys Island, New Jersey, and adjacent shoals.....	Mar. 3, 1893	27	602	1	250,000 00	500,000 00	500,000 00
Improving Harbor at Charleston, S. C.— Continuing improvement.....	Mar. 3, 1893	27	603	1	450,000 00	750,000 00	750,000 00
Improving Harbor at Savannah, Ga.— Continuing improvement.....	Mar. 3, 1893	27	603	1	975,000 00	1,000,000 00	1,000,000 00
Improving Harbor at Mobile, Ala.— Completing improvement.....	Mar. 3, 1893	27	603	1	390,000 00	500,000 00	500,000 00

PUBLIC PRINTING AND BINDING.							
The following are the estimates for public printing, binding, and paper for the same, as furnished by the Library of Congress and the several Executive Departments, under the provisions of section 2, act of May 8, 1872 (R. S., page 720, section 3661):							
LIBRARY OF CONGRESS.							
<i>Printing and Binding—</i>							
Printing and binding, to be executed under the direction of the Public Printer, as follows: Printing and binding copyright records and blanks, binding of books and periodicals for the Library of Congress, and printing and binding Catalogue.....						\$12,000	
STATE DEPARTMENT.							
<i>Printing and Binding—</i>							
Printing and binding, to be executed under the direction of the Public Printer (increase of \$7,000)						25,000	
NOTE.—Increase of \$7,000 in the allotment of printing and binding, State Department: For years past and by the exercise of scrupulous economy the Department of State has succeeded in making the best of the amount heretofore allotted to it, but much of the correspondence received has unavoidably been allowed to accumulate, and by reason of its not being properly bound is exposed to the danger of loss or permanent injury. It is expected that the allotment of \$25,000 hereby submitted will enable the Department to provide for this essential work and at the same time cover the ordinary requirements for printing.

		Vol. or R. S.	Page.	Sec.			
TREASURY DEPARTMENT.							
Printing and Binding—							
Printing, and paper for the same; blank books, binding, ruling, and all other work for the Treasury Department.....					\$360,000		
SMITHSONIAN INSTITUTION.							
Printing and Binding—							
For the Smithsonian Institution, for printing labels and blanks, and for the "bulletins" and annual volumes of the "Proceedings" of the National Museum.....					18,000		
<p>NOTE.—The Proceedings and Bulletins of the National Museum, printed under this appropriation, are not "public documents;" hence no part of the edition is regularly apportioned for distribution by the Senate and House or to the legal depositories. The edition of 3,000 copies now printed is only sufficient to supply, in limited measure, the very urgent requests from public libraries, educational institutions, and scientific investigators in the United States and throughout the world. One of the principal objects in asking for a larger appropriation is to enable the Museum to place a full series of its publications in representative libraries in different parts of each State. It is not the intention that the annual number of issues of the Proceedings and Bulletins should be increased, but that a larger edition of each should be printed. On account of the small edition the Museum fails to receive in exchange the valuable publications of many scientific institutions.</p> <p>The amounts hitherto appropriated, though expended with strict economy, have been found inadequate.</p>							
Binding, National Museum—							
Binding scientific books and pamphlets presented to and acquired by the National Museum Library.....					1,000		
<p>NOTE.—There being no appropriation for binding, many valuable books in the Museum library are rendered practically useless and are in danger of damage, and many valuable publications—chiefly gifts—and important scientific serials can not be used for fear of injuring them, and are, in spite of care, in danger of destruction. Formerly, when the Museum was more closely connected with the Department of the Interior, the books in its library were bound at the Government bindery at the expense of that Department, but since this connection has ceased no books whatever have been bound.</p>							
WAR DEPARTMENT.							
Printing and Binding—							
Printing and binding for the War Department and its bureaus, to be executed under the direction of the Public Printer, as follows:							
Office of the Secretary of War					\$14,000		
Record and Pension Office.....					9,000		
Office of Adjutant-General.....					28,000		
Office of Inspector-General					1,500		
Office of Judge-Advocate-General...					500		
Office of Quartermaster-General					12,000		
Office of Commissary-General					4,500		
Office of Paymaster-General.....					2,000		
Office of Surgeon-General (including \$12,000 for the index-catalogue of the library).....					30,000		
Office of Chief of Engineers (including a sum not exceeding \$5,000, for publication of Professional Papers when approved by the Secretary of War)					20,000		
Office of Chief of Ordnance.					20,000		
Office of Chief Signal Officer.....					900		
Office of Rebellion Records.....					1,500		
					143,900

Salaries of two hundred and fifty-three keepers of life-saving and life-boat stations and houses of refugedo.....				220,500 00		
Pay of crews of surfmen employed at the life-saving and life-boat stations during the period of actual employment; compensation of volunteers at life-saving and life-boat stations, for actual and deserving service rendered upon any occasion of disaster, or in any effort to save persons from drowning, at such rate, not to exceed ten dollars for each volunteer, as the Secretary of the Treasury may determine; pay of volunteer crews for drill and exercise; fuel for stations and houses of refuge; repairs and outfits for same; rebuilding and improvement of same; supplies and provisions for houses of refuge, and for shipwrecked persons succored at stations; traveling expenses of officers under orders from the Treasury Department; for carrying out the provisions of sections seven and eight of the act approved May fourth, eighteen hundred and eighty-two; for draft animals and their maintenance, and for contingent expenses, including freight, storage, repairs to apparatus; labor, medals, stationery, newspapers for statistical purposes, advertising, and miscellaneous expenses that can not be included under any other head of life-saving stations on the coasts of the United Statesdo.....				1,088,947 50		
						\$1,330,747 50	\$1,330,747 50

NOTE.—The item for "newspapers for statistical purposes" is inserted because it has been found impossible to obtain accurate and complete statistics of marine disasters, the collection and compilation of which are directed by section 7 of the act of June 18, 1878, without the aid of the information contained in the marine columns of newspapers published in the important maritime cities. While these are not the principal sources from which such statistics are gathered, yet without the completeness which they make it possible to attain the compilation would be comparatively valueless. They have been used ever since the compilation was required, each succeeding Secretary of the Treasury having specifically authorized the subscription and the accounting officers having allowed the expenditure notwithstanding the provisions of section 192 of the Revised Statutes, just as they would allow expenditures for books, implements, or equipments indispensable in prosecuting any authorized work for the Government. The Commissioner of Customs, however, now suggests the insertion of the above item.

<i>Refuge Station, Point Barrow, Alaska—</i> Maintenance of a refuge station at or near Point Barrow, Alaska, on the Arctic Ocean.....	Mar. 2, 1889 Mar. 3, 1893	25 27	945 577	1 1	}	4,000 00	4,000 00
Total Revenue-Cutter Service.....						929,000 00	929,000 00
ENGRAVING AND PRINTING.							
<i>Labor and Expenses of Engraving and Printing—</i> Salaries of all necessary clerks and employes, other than plate-printers and plate-printers' assistants, to be expended under the direction of the Secretary of the Treasury..... Mar. 3, 1893	R. S. 27	706 577	3575-7 1	}	419,800 00	378,000 00
Wages of plate-printers, at piece rates to be fixed by the Secretary of the Treasury, not to exceed the rates usually paid for such work, including the wages of printers' assistants, at \$1.25 a day each when employed, to be expended under the direction of the Secretary of the Treasury.....	Same acts.....					495,400 00	469,000 00

Estimates of appropriations required for the service of the fiscal year ending June 30, 1895—Continued.

General object (title of appropriation) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes.			Estimated am't required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1894.
		Vol. or R. S.	Page.	Sec.			
<i>Labor and Expenses of Engraving and Printing—Continued.</i>							
Engravers', printers', and other materials, except distinctive paper, and for miscellaneous expenses, to be expended under the direction of the Secretary of the Treasury.....	Mar. 3, 1893	R. S. 27	706 577	3575-7 1	\$196,200 00	\$181,000 00
Total Engraving and Printing.....						1,111,400 00	1,028,000 00
NOTE.—See letter of Chief of Bureau in Appendix Q.							
LIGHT-HOUSE ESTABLISHMENT.							
<i>Supplies of Light-Houses—</i>							
Supplying fog signals, light-houses, and other lights with illuminating, cleaning, preservative, and such other materials as may be required for annual consumption; for books, boats, and furniture for stations, and not exceeding three hundred dollars for purchase of technical and professional books and periodicals for the use of the Light-House Board, and other incidental expenses	Mar. 3, 1893	27	575	1	370,000 00	370,000 00
NOTE.—The number of lights has been increased. This requires a corresponding increase in supplies with which they must be furnished. The hurricanes of August, 1893, did much damage to lights on the Atlantic. Additional supplies will be needed by them on that account.							
<i>Repairs of Light-Houses—</i>							
Repairing, rebuilding, and improving light-houses and buildings; for improvements to grounds connected therewith; for establishing and repairing pierhead and other beacon lights; for illuminating apparatus and machinery to replace that already in use; and for incidental expenses relating to these various objects.....	Mar. 3, 1893	27	575	1	525,000 00	525,000 00
<i>Salaries of Keepers of Light-Houses—</i>							
Salaries, fuel, rations, rent of quarters, where necessary, and similar incidental expenses of not exceeding 1,250 light-house and fog-signal keepers and laborers attending other lights.....	Mar. 3, 1893	R. S. 27	908 575	4673 1	670,000 00	670,000 00
NOTE.—There will be needed to pay the salaries of keepers of existing lights and those authorized by law which are to be soon put into operation, together with rations, fuel, rent of quarters, and similar incidental expenses, the sum of \$680,000. The increase over the sum appropriated last year is necessary because of the increased number of lights authorized by Congress which have been or are now being built and made ready for lighting.							
<i>Expenses of Light-Vessels—</i>							
Seamen's wages, rations, repairs, salaries, supplies, and temporary employment and incidental expenses of light-vessels.....	Mar. 3, 1893	27	575	1	250,000 00	250,000 00
NOTE.—Four of the old light-ships have been replaced by new ones, each of which has a steam fog signal, and each of which will cost much more to maintain than did each of the old ones. In addition, the board has built and placed on the lakes five new light-ships, which, being very cheaply built, will cost largely to keep in repair. The hurricanes of August, 1893, wrecked two light-ships and seriously damaged several more. The expenses of light-ships for this year will, therefore, be quite large.							
<i>Expenses of Buoyage—</i>							
Expenses of establishing, replacing, and maintaining buoys, spindles, and day beacons, and for incidental expenses relating thereto.....	Mar. 3, 1893	27	575	1	370,000 00	370,000 00
NOTE.—The ice of the last winter and the hurricanes of August, 1893, did great damage to the buoyage of our coasts. The reserve supplies have been drawn upon heavily. The board has been unable to grant many requests to place buoys to meet the new wants of our increasing commerce. It is now hardly able to keep up without increasing its buoyage.							
<i>Expenses of Fog Signals—</i>							
Establishing, replacing, duplicating, and improving fog signals and buildings connected therewith, and for repairs and incidental expenses of the same	Mar. 3, 1893	27	575	1	70,000 00	70,000 00

Estimates of appropriations required for the service of the fiscal year ending June 30, 1895—Continued.

General object (title of appropriation) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes.			Estimated amt't required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1894.
		Vol. or R. S.	Page.	Sec.			
<i>Inspecting Lights—</i> Mileage or traveling expenses of members of the Light-House Board, including rewards paid for information as to collisions, and for the apprehension of those who damage light-house property	Mar. 3, 1893	27	575	1	\$2,500 00	\$2,500 00
NOTE.—The theory is that light-house inspectors and engineers inspect the light-houses, light-ships, light-house and buoy depots, and other appurtenances, and that the members of the Light-House Board inspect the work of the inspectors and engineers. This appropriation is burdened by the provision that from it must be paid the rewards offered for information as to collisions and for the apprehension of those who damage light-house property. It is therefore recommended that this amount be increased to \$5,000 for the coming year; that the board be authorized to pay its Army and Navy members mileage and its civilian members traveling expenses.							
<i>Lighting of Rivers—</i> Establishing, supplying, and maintaining post-lights on the Hudson and East rivers, and Rondout Creek, New York; the Raritan River, New Jersey; Connecticut River, Thames River, between Norwich and New London, Conn.; the Delaware River, between Philadelphia and Bordentown, N. J.; the Elk River, Maryland; the Cape Fear River, North Carolina; Savannah River, Georgia; St. Johns and Indian rivers, Florida; at Chicot Pass, and to mark the navigable channel along Grand Lake, Louisiana; at the mouth of Red River, Louisiana; on the Mississippi, Missouri, Ohio, Tennessee, Illinois, and Great Kanawha rivers; Sacramento and San Joaquin rivers, California; on the Columbia and Willamette rivers, Oregon; and on Puget Sound, Washington Sound, and adjacent waters, Washington; and the channels in St. Louis and Superior bays at the head of Lake Superior; the Light-House Board being hereby authorized to lease the necessary ground for all such lights and beacons as are for temporary use or are used to point out changeable channels, and which, in consequence, can not be made permanent...	Mar. 3, 1893	27	575	1	300,000 00	300,000 00
NOTE.—The system of lighting rivers as it now exists can be maintained for the same appropriation as was made last year. But if it is to be extended to meet the demands of river commerce, and the Light-House Board recommends that it should be, the appropriation should be accordingly increased.							
<i>Survey of Light-House Sites—</i> Preliminary examinations, surveys, and plans for determining the proper sites and cost of light-houses and structures for which estimates are to be made to Congress.....	Mar. 3, 1893	27	576	1	1,000 00	1,000 00
Total Light-House Establishment.....						2,558,500 00	2,558,500 00
UNITED STATES COAST AND GEODETIC SURVEY.							
<i>Field Expenses, Coast and Geodetic Survey—</i> Every expenditure requisite for and incident to the survey of the Atlantic, Gulf, and Pacific coasts of the United States and the coast of the Territory of Alaska, including the survey of rivers to the head of tide water or ship navigation; deep-sea soundings, temperature, and current observations along the coast and throughout the Gulf Stream and Japan Stream flowing off the said coasts; tidal observations; the necessary resurveys; the preparation of the Coast Pilot; continuing researches and other work relating to terrestrial magnetism and the magnetic maps of the United States and adjacent waters, and the tables of magnetic declination, dip, and intensity usually accompanying them; and including compensation not otherwise appropriated for, of persons employed on the fieldwork, in conformity with the regulations for the government of the Coast and Geodetic Survey adopted by the Secretary of the Treasury; for special examinations that may be required by the Light-House Board or other proper authority, and including traveling expenses of officers and men of the Navy on duty; for commutation to officers of the field force while on field duty, at a rate to be fixed by the Secretary of the Treasury, not exceeding two dollars and fifty cents per day each; outfit, equipment, and care of vessels used in the Survey, and also the repairs and maintenance of the complement of vessels; to be

<i>Field Expenses, Coast and Geodetic Survey—Continued.</i>							
expended in accordance with the regulations relating to the Coast and Geodetic Survey from time to time prescribed by the Secretary of the Treasury, and under the following heads: <i>Provided</i> , That no advance of money to chiefs of field parties under this appropriation shall be made unless to a commissioned officer, or to a civilian officer, who shall give bond in such sum as the Secretary of the Treasury may direct:							
Survey of unfinished portions of the Atlantic coast from Maine to Florida, including the coast of New Brunswick to Point Lepreau; Grand Manan Island; Portsmouth Harbor, and Piscataqua River; Newburyport Harbor, and Merrimac River to Haverhill; Hudson River to Troy; Bogue Inlet and interior waters along the coast of North Carolina; Cooper and Ashley Rivers, South Carolina; and necessary resurveys, including Boston Harbor, Buzzards Bay, Nantucket Sound, Chesapeake Bay and tributaries, coast of New Jersey from Sandy Hook to Cape May, Bar and Entrance to Brunswick Harbor, St. Johns River to Jacksonville, and Fort George Inlet.	Mar. 3, 1871 Mar. 3, 1893	R. S. 16 27	910 508 578, 9	4681- 4691 1 1	\$17,700 00		
To continue the primary triangulation from the vicinity of Montgomery towards Mobile, and for triangulation, topography, and hydrography of unfinished portions of the Gulf coast, including Lakes Pontchartrain and Maurepas, and for necessary resurveys	Same acts.				8,400 00		
Offshoresoundings along the Atlantic and Gulf coasts, and current and temperature observations in the Gulf Stream	do.				6,400 00		
Continuing the survey of the coasts of California, Oregon, and Washington, including offshore hydrography and the survey of the Columbia River to the Cascades, and the resurvey of San Francisco Harbor, triangulation, topography, and hydrography	do.				18,600 00		
Continuing explorations in the waters of Alaska, and making hydrographic surveys in the same, and for the establishment of astronomical, longitude, and magnetic stations	do.				8,400 00		
Continuing the researches in physical hydrography relating to harbors and bars, including computations and plottings, and for continuing tidal and current observations on the Atlantic, Gulf, and Pacific coasts	do.				11,300 00		
Examination of reported dangers on the Atlantic, Gulf, and Pacific coasts, and to continue the compilation of the Coast Pilot and to make special hydrographic examinations for the same	do.				2,950 00		
To continue magnetic observations, including the maintenance of the magnetic observatory	do.				2,550 00		
Continuing the line of exact levels westward and southward from the vicinity of Kansas City, Mo.; westward from Old Point Comfort, Va.; eastward from San Francisco, Cal.; eastward from Vicksburg, Miss.; between St. Augustine and Cedar Keys, Fla., and from the vicinity of Chicago, Ill., to Lake Erie	do.				4,200 00		
Furnishing points to State surveys, to be applied, as far as practicable, in States where points have not been furnished, and for surveying and distinctly marking with permanent monuments that portion of the eastern boundary of the state of California commencing at and running southeastward from the intersection of the thirty-ninth degree of north latitude with the one hundred and twentieth degree of longitude west from Greenwich	do.				15,600 00		
Determinations of geographical positions, and to continue gravity observations	do.				4,650 00		
Continuing the transcontinental geodetic work on the line between the Atlantic and Pacific oceans, including a primary base in the vicinity of Salt Lake, and the necessary check bases	do.				12,600 00		
Traveling expenses of officers and men of the Navy on duty, and for any special surveys that may be required by the Light-House Board or other proper authority, and contingent expenses incident thereto	do.				2,950 00		
Objects not hereinbefore named that may be deemed urgent, including the actual necessary expenses of officers of the field force temporarily ordered to the office at Washington for consultation with the Superintendent, to be paid as directed by the Superintendent, in accordance with the Treasury regulations	do.				5,900 00

		Vol. or R. S.	Page.	Sec.			
UNDER SMITHSONIAN INSTITUTION.							
<i>Preservation of Collections, National Museum—</i>							
For continuing the preservation, exhibition, and increase of the collections from the surveying and exploring expeditions of the Government; and from other sources, including salaries or compensation of all necessary employes	Mar. 3, 1893	27	581	1	\$132,500 00	\$132,500 00
[The Smithsonian Institution estimates for an increase in this item of \$47,500 over the present appropriation.]							
NOTE.—From this appropriation are paid all expenses, not only for the preservation and increase of the collections, but for watchmen, cleaners, and other employes whose duty it is to keep the exhibition halls in order and provide for the comfort of visitors. The appropriations for 1893 and 1894 were greatly reduced from those of the preceding years, and scarcely exceeded that for 1887, although the collections are very much larger and more valuable and the number of visitors and students has largely increased. It is impossible, with the present force, to properly provide for the care of the Museum, and in several departments it has been necessary to suspend work almost entirely, especially since during the last two years the time of the employes has been diverted very largely to preparations for the World's Columbian Exposition.							
More assistants, especially in the lower grades, are needed, as well as a somewhat larger number of paid curators, for a majority of the curators are now volunteers, receiving no compensation, and only able to devote their leisure to the work of the Museum. For the safe-keeping of the collections, whose increase in value has rendered the responsibility of custody much greater, the force of watchmen should also be increased, while to insure proper cleanliness of the floors and cases a larger number of laborers and cleaners should be employed than is possible with the appropriation for the present year.							
<i>Furniture and Fixtures, National Museum—</i>							
For cases, furniture, fixtures, and appliances required for the exhibition and safe-keeping of the collections of the National Museum, including salaries or compensation of all necessary employes	Mar. 3, 1893	27	582	1	10,000 00	10,000 00
[The Smithsonian Institution estimates for an increase in this item of \$20,000 over the present appropriation.]							
NOTE.—From this appropriation are paid the expenses of construction of new cases and the keeping of the old ones in repair, the latter being an item of considerable expense, owing to the necessary wear and damage occasioned by the large number of visitors to the exhibition halls. From this appropriation, also, in accordance with long usage, expenses for the repair and maintenance of the Museum buildings, such as patching and painting the roofs, painting the woodwork, relaying wooden floors, the maintenance and improvement of the public-comfort rooms, and the sewerage system, are paid, and this, a matter which is becoming more expensive as years go by, renders it necessary that a number of competent mechanics should be employed. After the expenses of maintenance of buildings and of the numerous cases already on hand have been paid, very little remains for new cases and fixtures, although it is necessary that a considerable number of these shall be built every year for the reception of objects added to the collections, since valuable collections are constantly being offered as gifts on the condition that suitable receptacles shall be made for them. During the coming year it will be necessary to provide for a considerable number of important exhibits acquired as a result of the World's Columbian Exposition either by gift from foreign governments or from other Departments of the Government, in accordance with the law establishing the Museum. The appropriation for 1894 was insufficient for current needs, necessitating a reduction of the regular force of mechanics and laborers to two carpenters, one painter, three skilled laborers, and one laborer, and it is therefore especially important that the entire amount asked for shall be granted.							
<i>Heating and Lighting, National Museum—</i>							
For expense of heating, lighting, electrical, telegraphic, and telephonic service for the National Museum	Mar. 3, 1893	27	582	1	11,000 00	11,000 00
[The Smithsonian Institution estimates for an increase in this item of \$4,000 over the present appropriation.]							
NOTE.—The reduction of this appropriation in 1893 to \$11,000 made a deficiency necessary for that year. The same conditions exist in 1894, and there is no reason to suppose that in 1895 any reduction will be possible. With a less amount than that asked for, it is impossible to maintain a sufficiently high temperature in winter for the comfort of visitors and employes, and at the same time to make the necessary repairs of the steam boilers and pipes, burglar alarms, telephone wires, and other steam and electrical apparatus. The force of firemen is inadequate, and should be increased.							
<i>Postage, National Museum—</i>							
Postage-stamps and foreign postal-cards for the National Museum	Mar. 3, 1893	27	582	1	500 00	500 00
<i>Galleries, National Museum—</i>							
The erection of two galleries, one in the southwest court, the other in the southeast range, National Museum building; said galleries to be constructed of iron beams, supported by iron pillars, and protected by iron railings, and provided with suitable staircases; the work to

Estimated amt required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1894.
		Vol. or R. S.	Page.	Sec.			
<i>Galleries, National Museum—Continued.</i> be done under the direction of the Architect of the Capitol, and in accordance with the approval of the Secretary of the Smithsonian Institution	Submitted.....				\$8,000 00		
NOTE.—The erection of these galleries will add materially to the area available in the present Museum building for exhibition and storage purposes. Such galleries were provided for in the original plans of the building. They can be supported in such a manner as not to detract from the appearance of the halls or to interfere with the present installation of the collections.							
<i>Steam Boilers, National Museum—</i> Tearing down and rebuilding the brick walls of the steam boilers, providing tie rods and buck staves and grates for the same; removing, replacing, and resetting the fronts; and replacing worn-out boiler tubes, and for covering heating pipes with fire-proof material, including all necessary labor and material	Submitted.....				4,000 00		
NOTE.—The walls of the steam boilers have been under fire for thirteen years, and are now in such condition that safety requires that they should be immediately rebuilt. The fronts are cracked and a large proportion of the tubes are worn out and unserviceable.							
<i>International Exchanges, Smithsonian Institution—</i> Expenses of the system of international exchanges between the United States and foreign countries under the direction of the Smithsonian Institution, including salaries or compensation of all necessary employes..... [The Smithsonian Institution estimates for an increase in this item of \$8,500 over the present appropriation.]	Mar. 3, 1893	27	582	1	\$14,500 00	\$14,500 00
NOTE.—For 1892-'93, \$12,000 were appropriated and a deficiency appropriation of \$5,000 was subsequently made, and \$1,483.99 were received from different Government bureaus. The service has been curtailed on account of the reduced appropriation for 1893-'94, but to continue the work throughout the year a deficiency of about \$2,500 is inevitable. Attention is called to the fact that the United States is under formal treaty obligation to maintain this service. Advantage is now taken of the free freight privileges accorded the institution by many steamship companies, thus materially reducing the cost. To meet the entire freight expense and give effect to a further treaty for the "immediate exchange of parliamentary documents," for which no appropriation has yet been made, the sum of twenty-three thousand dollars (\$23,000) is estimated							
<i>North American Ethnology, Smithsonian Institution—</i> Continuing ethnological researches among the American Indians, under the direction of the Smithsonian Institution, including salaries or compensation of all necessary employes, \$40,000, of which sum not exceeding \$1,000 may be used for rent of building..... [The Smithsonian Institution estimates for an increase in this item of \$10,000 over the present appropriation.]	Mar. 3, 1893	27	582	1	40,000 00	40,000 00
<i>Astrophysical Observatory, Smithsonian Institution—</i> Maintenance of astrophysical observatory, under the direction of the Smithsonian Institution, including salaries of assistants, apparatus, and miscellaneous expenses	Mar. 3, 1893	27	582	1	9,000 00	9,000 00
[The Smithsonian Institution estimates for an increase in this item of \$1,000 over the present appropriation.]							
NOTE.—An astrophysical observatory has been established under the Smithsonian Institution in part from the Smithsonian fund and in part by subscriptions of private individuals. Researches of great scientific and economic value are carried on by every considerable civilized government at well-equipped astrophysical observatories. The investigations here contemplated are not provided for by any other observatory in this country.							
<i>National Zoological Park, Smithsonian Institution—</i> Continuing the construction of roads, walks, bridges, water supply, sewerage, and drainage, and for grading, planting, and otherwise improving the grounds; for erecting and repairing buildings and inclosures; and for care, subsistence, transportation, and purchase of animals, including salaries or compensation of all necessary employes, and general incidental expenses not otherwise provided for..... [The Smithsonian Institution estimates for an increase in this item of \$25,000 over the present appropriation.]	Mar. 3, 1893	27	582	1	50,000 00	50,000 00
Total under Smithsonian Institution.....						267,500 00	267,500 00

		Vol. or R. S.	Page.	Sec.			
Enforcement of Chinese Exclusion Act—							
To prevent unlawful entry of Chinese into the United States, by the appointment of suitable officers to enforce the laws in relation thereto, and for expenses of returning to China all Chinese persons found to be unlawfully in the United States, including the cost of imprisonment and actual expense of conveyance of Chinese persons to the frontier or seaboard for deportation, and for enforcing the provisions of the act approved May 5, 1892, entitled "An act to prohibit the coming of Chinese persons into the United States"....	Oct. 1, 1888 May 5, 1892 Mar. 3, 1893 Nov. 3, 1893	25 27 27	504 25 589	1-4 1-9 1	}	\$50,000 00	\$50,000 00
Enforcement of the Alien Contract-Labor Laws—							
Enforcement of the alien contract-labor laws, and to prevent the immigration of convicts, lunatics, idiots, and persons liable to become a public charge, from foreign contiguous territory.....	Aug. 3, 1882 Feb. 26, 1885 Feb. 23, 1887 Oct. 19, 1888 Mar. 3, 1891 Mar. 3, 1893 Mar. 3, 1893	22 23 24 25 26 27 27	214 332 414 566 1084 569 589	1 1-6 1-10 1 1-13 1-10 1	}	100,000 00	75,000 00
Quarantine Service—							
Maintenance and ordinary expenses, including pay of officers and employés of quarantine stations at Delaware Breakwater, Reedy Island, Cape Charles, South Atlantic (Sapelo Sound), Brunswick, Key West, Gulf, San Diego, San Francisco, and Port Townsend	Aug. 1, 1888 Aug. 30, 1890 Mar. 3, 1893	25 26 27	356 387 590	1-3 1 1	}	100,000 00	50,000 00
NOTE.—The \$50,000 was the amount allotted for the fiscal year ending June 30, 1893. A deficiency appropriation of \$50,000 was made by act of Congress approved March 3, 1893, all of which was expended, and the increased amount is required by reason of the additional work imposed upon the quarantine service and new stations.							
Preventing the Spread of Epidemic Diseases—							
The President of the United States is hereby authorized, in case of threatened or actual epidemic of cholera, yellow fever, or smallpox, to use the unexpended balance of the sums appropriated and reappropriated by the sundry civil appropriation act approved March 3, 1893, or so much thereof as may be necessary, in aid of State and local boards, or otherwise in his discretion, in preventing and suppressing the spread of the same, and in such emergency in the execution of any quarantine laws which may be then in force.....	Aug. 7, 1882 Mar. 3, 1883 July 7, 1884 Mar. 3, 1885 Aug. 4, 1886 Sept. 26, 1888 Oct. 2, 1888 Mar. 2, 1889 Aug. 30, 1890 Mar. 3, 1891 Aug. 5, 1892 Mar. 3, 1893	22 22 23 23 24 25 25 25 26 26 27 27	315 613 207 496 237 630 522 954 387 969 367 590	1 1 1 1 1 1 1 1 1 1 1 1	}	900,000 00

UNDER THE WAR DEPARTMENT.							
NATIONAL CEMETERIES.							
National Cemeteries—							
Maintaining and improving national cemeteries, including fuel for superintendents of national cemeteries, pay of laborers and other employés, and purchase of tools and materials..... Mar. 3, 1893	R. S. 27	943 599	4870 4879 1	}	100,000 00	100,000 00
Pay of Superintendents of National Cemeteries—							
Pay of seventy-five superintendents of national cemeteries..... Mar. 3, 1893	R. S. 27	943 599	4873 1	}	61,880 00	61,880 00
Headstones for Graves of Soldiers—							
Continuing the work of furnishing headstones for unmarked graves of Union soldiers, sailors, and marines in national, post, city, town, and village cemeteries, naval cemeteries at navy-yards and stations of the United States, and other burial places.....	Mar. 3, 1893	27	599	1	30,000 00	25,000 00
NOTE.—The amount asked is \$5,000 in excess of amount appropriated for this year, but not more than will actually be needed to provide the number of headstones which will be required in the fiscal year 1895.—E. N. Batchelder, Quartermaster-General, U. S. Army.							

Estimates of appropriations required for the service of the fiscal year ending June 30, 1895—Continued.

General object (title of appropriation) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes.			Estimated am't required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1894.
		Vol. or R. S.	Page.	Sec.			
Repairing Roads to National Cemeteries— Repairs to roadways to national cemeteries which have been constructed by special authority of Congress..... <i>Provided, That no railroad shall be permitted upon the right of way which may have been acquired by the United States to a national cemetery, or to encroach upon any roads or walks constructed thereon and maintained by the United States.</i>	Mar. 3, 1893	27	599	1	\$8,000 00	\$8,000 00
Burial of Indigent Soldiers— Expenses of burying in the Arlington National Cemetery, or in the cemeteries of the District of Columbia, indigent ex-Union soldiers, sailors, and marines of the late civil war who die in the District of Columbia, to be disbursed by the Secretary of War at a cost not exceeding \$50 for such burial expenses in each case, exclusive of cost of grave.....	Mar. 3, 1893	27	599	1	3,000 00	1,500 00
NOTE.—For the fiscal year 1893 there was appropriated by the act of August 5, 1892, the sum of \$1,500, and by deficiency act of March 3, 1893, \$1,000 additional was provided. Notwithstanding the fact that the average cost of burial in each case has been reduced, the appropriation for the current year will not suffice, and in view of the steady increase in the death rate it is believed that \$3,000 will not more than suffice for the fiscal year 1895.— <i>R. N. Batchelder, Quartermaster-General, U. S. Army.</i>							
Road to the National Cemetery, Presidio of San Francisco, Cal.— Continuing the work of improving the reservation at the Presidio of San Francisco, by developing and perfecting the water supply, the reclaiming of sand dunes, the planting of trees and shrubs and construction of new roads, the erection of a permanent fence or wall on the south and east lines of the reservation, the erection of permanent gateways, the reclamation of the marsh, and other general and much-needed improvements..... Battle Lines and Sites for Tablets at Antietam: Continuing the work of surveying, locating and preserving lines of battle of the Army of the Potomac and the Army of Northern Virginia at Antietam, and for locating and marking the positions of the forty-three different commands of the regular Army engaged in the battle of Antietam, and for purchase of sites for tablets for marking the same, and for the purchase of roadways to tablet sites; salaries of board, including office rent and hire of vehicles, and mileage, and for the condemnation of the land and acquiring title to the same.....	Mar. 3, 1893	27	599	1	24,250 00	15,000 00
Total National Cemeteries						237,130 00	221,380 00
MISCELLANEOUS OBJECTS.							
Surveys and Reconnoissances in Military Departments— Military surveys and reconnoissances and surveys of military reservations by the engineer officers attached to the several headquarters of military departments, being an average of \$2,142.86 for each of seven military departments west of the Mississippi River..... Publication of maps for use of the War Department, inclusive of war maps.....	Submitted.....do.....				\$15,000 00 10,000 00	25,000 00	
Survey of Northern and Northwestern Lakes— Surveys, additions to and correcting engraved plates (to be available until expended)..... NOTE.—The fiscal year in the latitude of the lakes is interrupted by the inclement season. As a matter of economy and effectiveness it is desired that fieldwork may be organized to commence in the spring and proceed without interruption throughout the season. This increased appropriation is asked for in order that the surveys now in progress on the St. Marys River may be pressed to completion as early as practicable, so that the large commerce passing through this highway may soon derive benefit through improved charts from the money expended.— <i>Thos. Lincoln Casey, Brigadier-General, Chief of Engineers.</i>	Mar. 3, 1893	27	600	1	50,000 00		
Printing and issuing charts for use of navigators, and electrotyping plates for chart-printing.....do.....				3,000 00	53,000 00	27,000 00

		Vol. or R. S.	Page.	Sec.			
Infantry and Cavalry School, Fort Leavenworth, Kans.—							
To provide for means of instruction at the United States Infantry and Cavalry School, by the purchase of text-books, books of reference, purchase and binding of professional and scientific works for the instruction of student officers, and for professional and scientific papers, periodicals, etc., instruments, materials, maps, drawing materials, stationery, office and section-room furniture, and for the other necessary expenses of the school.	Mar. 3, 1893	27	601	1	\$5,000 00	\$1,500 00
NOTE.—This increased appropriation is asked for in order to properly supply the school with a number of much-needed instruments, materials, etc., and to meet other necessary expenses on account of the increase in the number of student officers sent here for instruction.— <i>E. F. Townsend, Colonel 12th Infantry, Commandant.</i>							
For statement of items composing the above estimate, see Appendix U.							
The following copy of indorsement on the letter of transmittal of Col. E. F. Townsend, commandant of the Infantry and Cavalry School, is respectfully submitted in connection with the above estimate:							
"HEADQUARTERS OF THE ARMY, "Washington, July 10, 1893. "Approved by the Major-General Commanding, who has remarked as follows, in explanation of his approval: "1. The Artillery School, with 25 student officers, receives annually the very necessary appropriation of \$5,000. "2. The Infantry and Cavalry School will have in the class to enter September 1 next 47 student officers, and consequently will require an additional outfit of instruments, tools, materials, books of reference, etc. The general enlargement of the school facilities has extended far beyond the provisions that can be made through \$1,500, as appropriated for the fiscal year ending June 30, 1894. "In the past, in consequence of lack of funds, attempts have been made to secure instruments from the Corps of Engineers, but that corps has not been able to meet the demands. "THOMAS M. VINCENT, "Assistant Adjutant-General."							
Artillery School, Fort Monroe, Va.—							
To provide means of instruction at the United States Artillery School, by the purchase of text-books, drawing materials, and stationery, chemical apparatus, artillery, engineering, mechanical and electrical instruments, models, machines, and material, and repairs for same, and for other necessary expenses of the school..... Estimates of appropriations required for the service of the fiscal year ending June 30, 1895—Continued.

[illegible]

Estimates of appropriations required for the service of the fiscal year ending June 30, 1895—Continued.

General object (title of appropriation) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes.			Estimated am't required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1894.
		Vol. or R. S.	Page.	Sec.			
<i>Pay of Two and Three Year Volunteers (Certified Claims).—</i> Payment of amounts for arrears of pay of two and three year volunteers that may be certified to be due by the accounting officers of the Treasury during the fiscal year 1895.....	Mar. 3, 1893	27	607	1	\$250,000 00	\$435,000 00
<i>Bounty to Volunteers and their Widows and Legal Heirs (Certified Claims).—</i> Payment of amounts for bounty to volunteers and their widows and legal heirs that may be certified to be due by the accounting officers of the Treasury during the fiscal year 1895.....	Mar. 3, 1893	27	607	1	225,000 00	250,000 00
<i>Bounty under Act of July 28, 1866 (Certified Claims).—</i> Payment of amounts for bounty under the act of July 28, 1866, that may be certified to be due by the accounting officers of the Treasury during the fiscal year 1895.....	July 28, 1866 Mar. 3, 1893	14 27	322 607	12, 13 1	}	25,000 00	35,000 00
<i>Commutation of Rations to Prisoners of War in Rebel States, and to Soldiers on Furlough (Certified Claims).—</i> Payment of amounts for commutation of rations to prisoners of war in rebel States, and to soldiers on furlough, that may be certified to be due by the accounting officers of the Treasury during the fiscal year 1895.....	Mar. 3, 1893	27	607	1	15,000 00	30,000 00
NOTE.—Estimated amounts that will be certified by the accounting officers for these objects during the fiscal year 1894 are as follows:							
Pay of two and three year volunteers..... \$200,000 00							
Bounty to volunteers, etc..... 200,000 00							
Bounty under act of July 28, 1866..... 25,000 00							
Commutation of rations, etc..... 15,000 00							
440,000 00							
The amounts expended during the fiscal year 1893 were as follows:							
Pay of two and three year volunteers..... \$474,633 70							
Bounty to volunteers, etc..... 295,000 00							
Bounty under act of July 28, 1866..... 50,000 00							
Commutation of rations, etc..... 13,520 25							
833,153 95							
Total Miscellaneous Objects.....						4,254,150 70	4,700,903 89
Total Miscellaneous under War Department.....						4,491,280 70	4,922,283 89
UNDER THE INTERIOR DEPARTMENT.							
COLLECTING THE REVENUE FROM PUBLIC LANDS.							
<i>Salaries and Commissions of Registers and Receivers.—</i> Salaries and commissions of registers and receivers of district land offices, at not exceeding \$3,000 per annum each.....	Mar. 3, 1893	R. S. 27	392 591	2237, 2238 2240 1	}	530,000 00	520,000 00
NOTE.—The amount appropriated for the fiscal year ending June 30, 1894, viz, \$520,000, is wholly inadequate for the service, and a limitation of the appropriation to that amount will seriously interfere with the disposal of the public lands and result in a great disadvantage, inconvenience, and expense to the settlers. The accompanying detailed statement, marked Exhibit "A," shows the earnings of registers and receivers during the fiscal year ending June 30, 1893. (See Appendix X.)							
<i>Contingent Expenses of Land Offices.—</i> Clerk hire, rent, and other incidental expenses of the district land officers.....	Mar. 3, 1893	27	591	1	200,000 00	150,000 00
NOTE.—The foregoing estimate includes the salaries of clerks, office rent, registration fees, and a variety of other incidental expenses, such as furniture, safes, typewriters, binding platbooks, etc. The amount appropriated for the fiscal year ending June 30, 1894, namely, \$150,000, is entirely inadequate for the needs of the service. Owing to the insufficient appropriation, this office is now compelled to refuse many applications from the local land officers for allowances of clerk hire, office rent, and other necessary expenses for the running of their offices, in very many cases where the public business absolutely requires such allowance, and in no instance have fuel or lights been paid for by the United States.							
<i>Expenses of Depositing Public Moneys.—</i> Expenses of depositing money received from the disposal of the public lands.....	Mar. 3, 1893	R. S. 27	713 591	3617 1	}	5,000 00	5,000 00

Estimates of appropriations required for the service of the fiscal year ending June 30, 1895—Continued.

Estimated amt required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1894.
		Vol. or R. S.	Page.	Sec.			
<i>Depredations on Public Timber, Protecting Public Lands, and Settlement of Claims for Swamp Lands and Swamp-Land Indemnity—</i> To meet expenses of protecting timber on public lands, and for the more efficient execution of the law and rules relating to the cutting thereof; of protecting public lands from illegal and fraudulent entry or appropriation, and of adjusting claims for swamp lands and indemnity for swamp lands..... <i>Provided, That agents and others employed under this appropriation shall be allowed per diem subject to such rules and regulations as the Secretary of the Interior may prescribe, in lieu of subsistence, at a rate not exceeding \$3 per day each and actual necessary expenses for transportation.</i> <i>NOTE.—The appropriation of \$40,000 for the fiscal year ending June 30, 1894, is entirely insufficient for the proper protection of the public lands and timber and for adjusting claims for swamp lands and swamp-land indemnity, as it only allows the employment of thirteen agents, while not less than eighty are absolutely required in this branch of the service.</i>	Mar. 3, 1893	27	591	1	\$150,000 00	\$40,000 00
<i>Expenses of Hearings in Land Entries—</i> Expenses of hearings held by order of the Commissioner of the General Land Office to determine whether alleged fraudulent entries are of that character or have been made in compliance with law.....	Mar. 3, 1893	27	592	1	10,000 00	10,000 00
<i>Reproducing Plats of Surveys, General Land Office—</i> To enable the Commissioner of the General Land Office to continue to reproduce worn and defaced official plats of surveys on file, and other plats constituting a part of the records of said office, and to furnish local land offices with the same..... <i>NOTE.—The necessary reproduction of these township plats will require an increase of the appropriation over that for 1894, and a sum of less than \$4,000 will be entirely inadequate for the purpose.</i>	Mar. 3, 1893	27	592	1	4,000 00	2,000 00
<i>Transcripts of Records and Plats—</i> Furnishing transcripts of records and plats, to be expended under the direction of the Secretary of the Interior.....	Mar. 3, 1893	27	592	1	12,500 00	5,000 00
Total Public Lands Service, exclusive of surveying.....						911,500 00	732,000 00
SURVEYING THE PUBLIC LANDS.							
<i>Surveying the Public Lands—</i> Surveys and resurveys of public lands, \$400,000, at rates not exceeding \$9 per linear mile for standard and meander lines, \$7 for township, and \$5 for section lines, except that the Commissioner of the General Land Office may allow for the survey of lands heavily timbered, mountainous, or covered with dense undergrowth, rates not exceeding \$13 per linear mile for standard and meander lines, \$11 for township, and \$7 for section lines, and in cases of exceptional difficulties in the surveys, when the work can not be contracted for at these rates, compensation for surveys and resurveys may be allowed by the said Commissioner at rates not exceeding \$18 per linear mile for standard and meander lines, \$15 for township, and \$12 for section lines: <i>Provided, That in the States of Idaho, Montana, Oregon, and Washington there may be allowed for the survey of lands heavily timbered, mountainous, or covered with dense undergrowth, rates not exceeding \$25 per linear mile for standard and meander lines, \$23 for township, and \$20 for section lines, and it shall be lawful for the Commissioner of the General Land Office, when deemed expedient, to authorize surveys and resurveys at a reasonable compensation, by the day, instead of by the mile, and when surveys are required involving an expenditure not exceeding \$250, the said Commissioner may authorize the same to be made for a specified sum for the entire work.</i> And of the sum hereby estimated not exceeding \$75,000 may be expended for examination of public surveys in the several surveying districts in order to test the accuracy of the work in the field and to prevent payment for fraudulent surveys, and for examinations of	Mar. 3, 1893	R. MISCELLANEOUS OBJECTS.							
<i>Current Expenses, Government Hospital for the Insane—</i>							
Support, clothing, and treatment, in the Government Hospital for the Insane, of the insane from the Army and Navy, Marine Corps, Revenue-Cutter Service, and inmates of the National Home for Disabled Volunteer Soldiers, persons charged with or convicted of crimes against the United States who are insane, all persons who have become insane since their entry into the military or naval service of the United States, who have been admitted to the hospital and who are indigent, and for the indigent insane of the District of Columbia..	Mar. 3, 1893	R. S. 27	938 595	4838- 4858 1	266,520 00	266,786 00	
NOTE.—This estimate is based on a probable average number of 1,650 of the above classes at an annual cost of \$220 per capita. Congress has for many years divided the amount appropriated for this between the sundry civil and the District bill. Following the ratio of previous years, the increase in the District appropriation being based on the increase in the number of District patients during the past year, the amount in that bill will be \$96,480, leaving \$266,520 to be provided in the sundry civil bill. Of this it is asked that not exceeding \$1,500 may be used in defraying the expense of the return of patients to their friends.							
<i>Current Expenses, Columbia Institution for the Deaf and Dumb—</i>							
For the support of the institution, including salaries and incidental expenses, for books and illustrative apparatus, and for general repairs and improvements.....	June 10, 1872 Mar. 3, 1893	17 27	360 595	1 1	52,500 00	52,500 00	
NOTE.—In addition to the above, \$10,500 are included in the estimates of the Commissioners of the District of Columbia.							
Statement of the number of persons employed in the Columbia Institution for the Deaf and Dumb during the year ended June 30, 1893, and the rates of compensation paid.

<i>Education of Children in Alaska—</i>							
Industrial and elementary education of children in Alaska, without reference to race.....	Mar. 3, 1893	27	596	1		30,000 00	30,000 00
<i>Reindeer for Alaska—</i>							
Support of the reindeer station at Port Clarence, Alaska, and for the purchase and introduction of reindeer from Siberia for domestic purposes.....	Mar. 3, 1893	27	590	1	6,000 00		
Increase (see note).....	Submitted.				4,000 00		
						10,000 00	6,000 00
NOTE.—The experiment of introducing domesticated reindeer into Alaska as a food supply and for other uses, begun in 1891, has thus far proved successful. The herd established at Port Clarence numbered last fall 175 deer. They stood the winter remarkably well, showing an increase of 79 fawns and but 11 deaths, while in their native Siberia many thousands of deer had died of starvation. It is found that the actual expense of supporting the station for one year amounts to \$4,000. It would seem wise, therefore, to provide a larger sum for the purchase of animals, in order that the country may be rapidly stocked with them.							
<i>Supreme Court Reports—</i>							
Pay of Reporter of Decisions of the Supreme Court of the United States, for 76 copies each of volumes 155 to 159, inclusive, of the United States Reports, not to exceed \$2 per volume.....	Feb. 12, 1889 Mar. 3, 1893	25 27	661 595	1 1		760 00	760 00

JUDICIAL.							
UNITED STATES COURTS.							
NOTE.—In relation to the following estimates for expenses of United States courts, see letter of the Attorney-General in Appendix Y.							
Expenses of the United States Courts—							
Defraying the expenses of the Supreme Court; of the circuit and district courts of the United States; of the supreme court of the District of Columbia; of the district court of Alaska; of the court in the Indian Territory; of the circuit courts of appeals; of the Court of Private Land Claims; of suits and preparations for or in defense of suits in which the United States is interested; of the prosecution of offenses committed against the United States; and in the enforcement of the laws of the United States; and of the enforcement of the provisions of Title twenty-six of the Revised Statutes, or any acts amendatory thereof or supplementary thereto; specifically the expenses stated under the following appropriations, namely:							
Payment of the fees and expenses of the United States marshals and deputies:.....	June 3, 1879 Mar. 3, 1893	21 27	43 608, '9	1-3 1	}	\$1, 211, 925 00	\$675, 000 00
Provided, That not exceeding six hundred thousand dollars of this appropriation may be advanced to marshals, to be accounted for in the usual way, the residue to remain in the Treasury, to be used, if at all, only in the payment of the accounts of marshals in the manner provided in section eight hundred and fifty-six, Revised Statutes: Provided further, That hereafter no marshal or deputy marshal be allowed more than one mileage for each mile actually and necessarily traveled, irrespective of the number of writs he may execute in making such travel, nor shall any marshal or deputy marshal be allowed any additional mileage incident to the execution or return of any writ of arrest, commitment or removal other than the ten cents a mile now allowed by law for each deputy, prisoner, and guard, and no mileage shall be allowed upon any writ not executed or when the travel was without cost to marshal or deputy.							
Payment of United States district attorneys, the same being in payment of the regular fees provided by law for official services:.....	Same acts.....					350,000 00	250,000 00
Payment of district attorneys, the same being for payment of such special compensation as may be fixed by the Attorney-General for services not covered by salary or fees:.....	do.....					13,500 00	5,000 00
Payment of regular assistants to United States district attorneys, who are appointed by the Attorney-General, at a fixed annual compensation:.....	do.....					125,000 00	100,000 00
Payment of assistants to United States district attorneys, employed by the Attorney-General to aid district attorneys in special cases:.....	do.....					35,000 00	20,000 00
Fees of clerks:.....	do.....					268,000 00	175,000 00
Fees of United States commissioners, and justices of the peace acting as United States commissioners:.....	do.....					265,000 00	100,000 00
And hereafter no part of any money appropriated to pay any fees to the United States commissioners, marshals, or clerks shall be used for any warrant issued or arrest made, or other fees in prosecutions under the internal-revenue laws, unless said fees have been taxed against and collected from the defendant, or unless the prosecution has been commenced upon a sworn complaint setting forth the facts constituting the offense, and alleging them to be within the personal knowledge of the affiant, or upon a sworn complaint by a United States district attorney, collector, or deputy collector of internal revenue or revenue agent, setting forth the facts upon information and belief, and approved either before or after such arrest by a circuit or district judge or the attorney of the United States in the district where the offense is alleged to have been committed or the indictment is found: Provided, It shall be the duty of the marshal, his deputy, or other officer, who may arrest a person charged with any crime or offense, to take the defendant before the nearest United States circuit court commissioner or the nearest judicial officer having juris-

<i>Expenses of Treasury Notes, Act July 14, 1890—</i>							
That the Secretary of the Treasury is hereby directed to purchase, from time to time, silver bullion to the aggregate amount of four million five hundred thousand ounces, or so much thereof as may be offered in each month, at the market price thereof, not exceeding one dollar for three hundred and seventy-one and twenty-five hundredths grains of pure silver, and to issue in payment for such purchases of silver bullion Treasury notes of the United States to be prepared by the Secretary of the Treasury, in such form and of such denominations, not less than one dollar nor more than one thousand dollars, as he may prescribe; [<i>Repealed by act of November 1, 1893.</i>] and a sum sufficient to carry into effect the provisions of this act is hereby appropriated out of any money in the Treasury not otherwise appropriated. That the Treasury notes issued in accordance with the provisions of this act shall be redeemable on demand, in coin, at the Treasury of the United States, or at the office of any assistant treasurer of the United States, and when so redeemed may be reissued; but no greater or less amount of such notes shall be outstanding at any time than the cost of the silver bullion and the standard silver dollars coined therefrom then held in the Treasury purchased by such notes; and such Treasury notes shall be a legal tender in payment of all debts, public and private, except where otherwise expressly stipulated in the contract, and shall be receivable for customs, taxes, and all public dues, and when so received may be reissued; and such notes, when held by any national banking association, may be counted as a part of its lawful reserve. That upon demand of the holder of any of the Treasury notes herein provided for the Secretary of the Treasury shall, under such regulations as he may prescribe, redeem such notes in gold or silver coin, at his discretion, it being the established policy of the United States to maintain the two metals on a parity with each other upon the present legal ratio, or such ratio as may be provided by law.	July 14, 1890 Nov. 1, 1893	26	289	1-2	\$125,000 00	\$150,000 00	\$266,657 15
<i>Coinage of Silver Bullion—</i>							
That the Secretary of the Treasury shall each month coin two million ounces of the silver bullion purchased under the provisions of this act into standard silver dollars until the first day of July, eighteen hundred and ninety-one, and after that time he shall coin of the silver bullion purchased under the provisions of this act as much as may be necessary to provide for the redemption of the Treasury notes herein provided for, and any gain or seigniorage arising from such coinage shall be accounted for and paid into the Treasury. That the silver bullion purchased under the provisions of this act shall be subject to the requirements of existing law and the regulations of the mint service governing the methods of determining the amount of pure silver contained, and the amount of charges or deductions, if any, to be made. That so much of the act of February twenty-eighth, eighteen hundred and seventy-eight, entitled "An act to authorize the coinage of the standard silver dollar and to restore its legal-tender character," as requires the monthly purchase and coinage of the same into silver dollars of not less than two million dollars, nor more than four million dollars' worth of silver bullion, is hereby repealed..... Detection and prevention of frauds on customs revenue: That the Secretary of the Treasury be, and he is hereby, authorized to expend out of the appropriation for defraying the expenses of collecting the revenue from customs, such amount as he may deem necessary, not exceeding one hundred thousand dollars per annum, for the detection and prevention of frauds upon the customs revenue.....	Mar. 3, 1879	20	386	1			
Expenses of Regulating Immigration (Customs)— That there shall be levied, collected, and paid a duty of fifty cents for each and every passenger not a citizen of the United States who shall come by steam or sail vessel from a foreign port to any port within the United States. The said duty shall be paid to the collector of customs of the port to which such passenger shall come, or if there be no collector at such port, then to the collector of customs nearest thereto, by the master, owner, agent, or consignee of every such vessel, within twenty-four hours after the entry thereof into such port. The money thus collected shall be paid into the United States Treasury, and shall constitute a fund to be called the immigrant fund, and shall be used, under the direction of the Secretary of the Treasury, to defray the expense of regulating immigration under this act, and for the care of immigrants arriving in the United States, for the relief of such as are in distress, and for the general purposes and expenses of carrying this act into effect. The duty imposed by this section shall be a lien upon the vessels which shall bring such passengers into the United States, and shall be a debt in favor of the United States against the owner or owners of such vessels; and the payment of such duty may be enforced by any legal or equitable remedy: <i>Provided</i> , That no greater sum shall be expended for the purposes hereinbefore mentioned, at any port, than shall have been collected at such port.....	Aug. 3, 1882	22	214	1	225,000 00	225,000 00	228,975 29
Salaries, Shipping Service— Indefinite appropriation to pay compensation to shipping commissioners, and to clerks of shipping commissioners, for services under the act of June 19, 1886.....	June 19, 1886	24	79	1	60,000 00	60,000 00	60,527 52
Services to American Vessels (Customs)— Compensation to collectors or other officers of customs, in lieu of fees, for services rendered to American vessels as provided in the act abolishing certain fees for official services to American vessels, etc., approved June 19, 1886.....	June 19, 1886	24	79	1	25,000 00	25,000 00	24,393 34

* In addition to this sum there was expended from the appropriation for 1893 \$35,000 for detection and prevention of frauds on the customs revenue, and \$425,937.09 for the general service, a total of \$460,937.09. A deficiency appropriation was made for 1893 of \$500,000, of which \$39,062.91 remained July 1, 1893, to be used in the settlement of accounts accruing in 1893.

Estimates of appropriations required for the service of the fiscal year ending June 30, 1895—Continued.

APPENDIX.

APPENDIX.

APPENDIX A.

In relation to the estimates of the Department of State. (See pages 17 to 19.)

DEPARTMENT OF STATE, Washington, October 16, 1893.

SIR: I have the honor to transmit herewith the estimates of appropriations required for the service of this Department during the fiscal year ending June 30, 1895, and to offer the following explanations concerning the items of increase and new items therein submitted:

I.—INCREASE OF SALARIES OF OFFICERS OF THE DEPARTMENT.

Assistant Secretary	\$5,000; increase,	\$1,500
Second and Third Assistant Secretaries (each)	4,000; increase (each),	500
Chief clerk	3,000; increase,	500
Six chiefs of bureau and one translator,	2,400; increase (each),	300
Private secretary to the Secretary of State	2,500; increase,	500

Before recommending these increases, which in the aggregate amount to \$5,600, I have given careful consideration to the merits of each individual case and arrived at the conclusion that the public interest will best be served by the proposed increase and restoration of salaries.

The appropriations for the present year provide for the annual compensation of the Assistant Secretaries as follows:

At \$4,000, an Assistant Secretary of the Interior, the four Assistant Postmasters-General, and the Assistant Attorney-General for the Post-Office Department.

At \$4,500, the Assistant Secretaries of the Treasury, War, of the Navy, of the Interior, and of Agriculture.

At \$5,000, four Assistant Attorneys-General; while the Assistant Secretaries of State receive but \$3,500 each.

There is no reason for such an invidious distinction, and it is submitted that the present salaries are inadequate and should be increased.

In respect of the chief clerk, the private secretary, the chiefs of bureaus, and the translator, it is submitted that men whose qualifications would enable them to properly fill these positions can not afford to accept them at the remuneration provided.

The act of Congress establishing the bureaus of this Department (Vol. 17, p. 509) provided the same compensation for the chiefs thereof which is now submitted. This provision still stands in the Revised Statutes at section 201, although the appropriations therein contemplated have not been made since 1876. The first specific appropriation for the translator was in 1875, and at the same salary as the chiefs of bureaus.

The chief clerk of the Treasury Department is allowed \$3,000 per annum, and the salaries of the chiefs of division in the same Department whose office corresponds to that of chief of bureau in this range from \$2,500 to \$3,000. I do not quote these figures with any purpose of making invidious comparisons, but I wish to say that, in each case, the corresponding office in this Department is one of equal responsibility, and that, in justice to the merits and attainments of its incumbent, it should receive equal recognition.

II.—PURCHASE AND RENOVATION OF FURNITURE.

The appropriation of \$2,000 asked for under this heading is desired particularly for the renovation of the furniture in the diplomatic reception room. This furniture has been in use for the past eighteen years, and has naturally become very much faded and worn. This room being the one of all others in the Capital designed for the reception of the representatives of foreign nations, the desirability of its being appropriately furnished is obvious. In addition to the needed repairs, some new articles of furniture are required. The estimate of \$2,000 for this purpose is as low a one as can be made consistently with the necessities of the case.

III.—BOOKS AND MAPS FOR DEPARTMENT OF STATE.

The \$1,000 additional submitted with the estimate for books and maps is a suggestion that the appropriation be restored to what it was in 1880, thirteen years ago. In 1870 the appropriation was \$2,500. It was reduced to \$2,000 in 1878, restored to \$3,000 in 1880, and reduced to \$2,000 in 1885, notwithstanding the Department's estimate for \$3,000. The needs of the library grow with it. The collection of works on diplomacy and the law of nations has been ranked as one of the first three in the world, although it has suffered greatly by the reduction in the appropriation, and is of course constantly falling behind.

IV.—RESTORING, BINDING, AND PUBLISHING INDEXES OF MANUSCRIPT PAPERS ON FILE IN THE DEPARTMENT.

The \$5,000 asked for to be expended in restoring, binding, and publishing indexes of manuscript papers is designed for use in the care and preservation of the manuscript records of the Continental Congress, deposited with the Secretary of State in accordance with the act creating the "Department of Foreign Affairs," and of the manuscript papers of Washington, bought for \$45,000, appropriated by acts of June 30, 1834, and March 3, 1849; the Jefferson, Madison, and Monroe papers having been already restored, bound, and approximately indexed. The condition of these papers from age and handling renders constant care and speedy restoration indispensable to their proper preservation. The indexes contemplated are equally necessary to the use of the collection.

V.—TO ENABLE THE SECRETARY OF STATE TO PURCHASE CLINTON MANUSCRIPTS AND DUTCH BOOKS.

The estimate of \$1,500 for the purchase of the Clinton Manuscripts and the Dutch Books relates to a unique collection of historical material. The so-called "Clinton Manuscripts" are printed books and pamphlets upon the controversy between Clinton and Cornwallis over the "Campaign in America," extensively annotated by Clinton. The Department has for several years had the collection in its possession "on approval." It is of much importance to the history of the period, and its value has been ascertained by a careful and thorough examination. The collection was offered eight years ago, but funds were lacking for its purchase. The Department is anxious to secure it.

The so-called "Dutch Books" are a valuable collection of 100 pieces relating to the same period of the country's history, by Dutch writers, and they are regarded as well worth the sum asked for them.

VI.—CONTINGENT EXPENSES OF THE DEPARTMENT OF STATE.

From the fiscal years 1883 to 1893 the appropriation for the contingent expenses of this Department has annually been \$4,800, with the exception of the years 1888 and 1891, when it was increased to enable the Department to purchase a mail wagon and an official carriage, an excess of \$300 being allowed for the wagon and \$1,500 for the carriage. For the year 1893 the appropriation was cut down by Congress to \$3,500, and for the present fiscal year the sum appropriated is only \$3,000.

The inadequacy of the appropriation of \$3,500 was made plain to Congress at its last session, and an additional sum of \$900 was provided in the deficiency act to meet the expenses for the fiscal year 1893, making in all for that year \$4,400, which sum by very rigid economy has proved sufficient. It will, of course, be necessary to apply to Congress again for assistance to meet the requirements of the present fiscal year (1894), for which only \$3,000 has been appropriated. Hence in the estimates now submitted I have asked for a sum which does not exceed that of previous years, but is really necessary for the conduct of the Department's business with comfort.

The following table will show in round figures about what the annual expenses of the Department are:

Rent of stable.....	\$600	Matches	\$25
Care of clocks.....	180	Street-car tickets	60
Washing towels.....	180	Rubber stamps	50
Telephone service.....	120	Repairing carriages and wagons.....	300
Ice.....	300	Expressage.....	60
Newspapers, domestic	200	Typewriters, repairing and supplies.....	350
Newspapers, foreign.....	150	Towels, crash, etc.....	100
Horse feed	400	Hardware.....	100
Hay and straw for horses	250	Engraving	100
Shoeing horses.....	150	Cab hire.....	25
Harness.....	150	Roach paste.....	20
Repairing harness.....	75	Pitchers, tumblers, etc.....	100
Sponges, gum arabic, dusters, etc.....	350	Unforeseen incidentals.....	140
Soap, chamois' skins, oil, etc.....	240		
Gas at stable	25		4,800

This table, footing up \$4,800, shows the sum of only \$140 as being reserved for unforeseen contingencies, or to cover variations in the specific amounts named. Several of these amounts are actual contracts, and the others seem to be reasonable estimates. None of the figures are extravagant, but they show that the sum of \$4,800 at least is necessary to enable the Department to meet its contingent expenses. It is hoped that Congress will favorably consider this explanation and recommendation.

VII.—HISTORICAL REGISTER OF THE DEPARTMENT OF STATE; TO ENABLE THE PURCHASE OF THE MANUSCRIPT PREPARED BY JOHN H. HASWELL, \$6,000.

I can offer no better recommendation of this item than was presented to Congress by one of my predecessors, Hon. T. F. Bayard, whose letter, in which the value of the book is fully and forcibly set forth, reads as follows:

"This work, presenting in an accessible form full chronological data of the Department of State, and of the foreign relations of the Government from the organization of the Colonial Congress, in September, 1774, down to the present time, will be of unquestioned value as a book of reference for Congress and the Executive Departments, especially for the Department of State and its officers. It will also be a mine of information for students of history and a valuable accession to libraries of reference. Among other information, it contains a full and accurate list of officers and employes of the Department of State, of diplomatic and consular officers of this Government, and of the persons representing foreign countries in diplomatic and consular capacities in the United States, with dates of appointment and termination of services. The dates and scope of all treaties negotiated by the United States, together with all international commissions and arbitrations established under claims conventions, and their objects, are also briefly and accurately described. Valuable historical facts believed hitherto to have been buried in the mass of records have been brought to light. Much valuable data lost when the Government offices were destroyed by the British in the war of 1812 are supplied in this work, which will fill in the neighborhood of five hundred pages. Information which would require long and laborious, perhaps fruitless, search can be easily obtained by consulting the 'Chronological History,' and the thread of negotiations, which would otherwise be lost, will thus be traceable. The work, in fine, is a convenient and accessible digest of the records of the Department of State for over one hundred years, from which the most valuable facts have been carefully compiled. The compiler's twenty-one years of service in the Department of State have given him especial facilities and aptitude for his undertaking, to which he has devoted fourteen years of his time when not engaged in his official duties."

I have the honor to be, sir, your obedient servant,

W. Q. GRESHAM.

Hon. SECRETARY OF THE TREASURY.

APPENDIX B.

In relation to the estimates for "Salaries, Office of Supervising Architect." (See page 22.)

TREASURY DEPARTMENT, OFFICE OF THE SUPERVISING ARCHITECT,
Washington, D. C., October 19, 1893.

SIR: I have the honor to inclose herewith the estimates of salaries for the office of the Supervising Architect for the fiscal year ending June 30, 1895, in amount \$8,720, and for the services of skilled draftsmen, civil engineers, computers, accountants, assistants to photographer, copyists, and such other service as the Secretary of the Treasury may deem necessary, and especially order in the office of the Supervising Architect, exclusively to carry into effect the various appropriations for public buildings to be paid for from, and equitably charged against, such appropriations for the fiscal year ending June 30, 1895, in amount \$250,000.

In compliance with the provisions of act of Congress approved July 16, 1892, I also inclose herewith a list of the employes in this office and the amount paid to each during the fiscal year ending June 30, 1893, for transmittal to Congress with the annual estimates.

Respectfully, yours,

J. O'ROURKE,
Supervising Architect.

List of employes in office of Supervising Architect, Treasury Department, and amounts paid each, during fiscal year ended June 30, 1893 from appropriation for public buildings, furnished under requirements of the act of Congress approved July 16, 1892, 27 Statutes, p. 193. (See estimate for 1895 on page 22.)

				Total.....			59,954 01

OFFICE OF THE CHIEF OF ENGINEERS, UNITED STATES ARMY,
Washington, D. C., July 31, 1893.

Respectfully submitted to the Secretary of War.

THOS. LINCOLN CASEY,
Brigadier-General, Chief of Engineers.

APPENDIX E.

Explanation of estimates for "Public buildings and grounds" for the fiscal year ending June 30, 1895. (Estimates on pages 47, 48, and 182 to 184.)

As some of the foregoing estimates are larger than the amounts heretofore appropriated, and as others are for new work, it is deemed advisable to submit the following brief explanation in reference thereto:

1. An estimate for a captain of the watch is submitted and recommended. Such an officer is much needed in order that the park watchmen may be under proper supervision.

2. An estimate is submitted for \$1,000 for the ordinary care of Lincoln Park, situated in the extreme eastern section of the city and covering an area of over 6 acres. It is highly improved, contains the bronze "Emancipation Statue," and is visited by a large number of people; numerous important improvements have been made in the private property in its vicinity, and a large number of well-built dwellings constructed during the past two years.

3. For painting watchman's lodges, iron fences, vases, lamps, and lamp-posts, \$1,500 is requested. There are 8 watchmen's lodges, a number of post and chain fences, 18 vases, over 400 lamp-posts, and the iron fence around the Executive Mansion, all of which should be painted in 1894-95.

4. For trees, tree and plant stakes, etc., and stock for nursery, \$3,000 is asked in place of the \$2,000 last granted. The larger sum is the amount appropriated annually for more than twelve years ending June 30, 1892.

5. For removing snow and ice, the sum of \$1,500 is asked. The sum usually granted, viz, \$1,200, is generally sufficient, but sometimes is not. The latter was the case during the last fiscal year, as mentioned in my annual report.

6. For laying asphalt walks in various reservations, \$5,000. It is proposed to replace with first-class asphalt walks the gravel paths in Washington Circle, Mount Vernon Square, Executive Mansion grounds (south side), Lincoln Square, Stanton Square, Folger Square, Marion Square, Henry and Seaton Parks, and to renew those in Farragut Square. In the late fall, winter, and early spring these walks are muddy, and pedestrians seek the lawns, which are thus destroyed by trespassers. The amount of these paths which it is proposed to lay is about 3,500 square yards. Each autumn it becomes necessary to put down plank walks, which must again be removed in the spring. If asphalt walks are laid the annual expense incident to plank walks will be avoided.

7. For improvement, care, and maintenance of Henry (Armory) and Seaton Parks, \$5,000. These reservations, extending from Seventh street to the Botanic Gardens, cover an area of 34 acres, with road and walk surfaces of over 10,000 square yards. They are in an advanced state of improvement. Their beauty has been marred by the depot and tracks of the Baltimore and Potomac Railroad. A mound has been constructed around the depot, upon which it is intended to plant trees and shrubs, so that in time the depot will be hidden partially from view. The materials for this mound have thus far been obtained free of expense to the United States, and it is now proposed to grade the mound and to seed and plant it. The funds requested are needed for this purpose, and for the care of roads, lawns, gutters, etc., and laying out additional paths.

8. For replacing the old flagging pavement of the sidewalks in the grounds north of the Executive Mansion by a granolithic pavement, \$2,500. These sidewalks lead from the entrance gates on Pennsylvania avenue to the north front of the Executive Mansion. The old flagging at present composing them is in bad condition, and should be replaced by a granolithic pavement.

9. For lodges for park watchmen in Stanton, Mount Vernon, Iowa, Dupont, Thomas, McPherson, and Folger reservations, at \$500 each, \$3,500. The watchmen in these reservations are exposed to the inclemency of the weather at all seasons of the year. Rain or shine, hot or cold, night or day, year in and out, they must be at their stations and take shelter when necessary either under a tree or in such a dwelling or store as will offer its hospitality. The dictates of humanity call for this appropriation.

10. An increase in the appropriation for care, etc., of the Executive Mansion is requested. The building should be repainted inside and out; much of the furniture needs to be reupholstered; new carpets are necessary, and it is desired to change the office rooms into bed rooms and use the entire Mansion simply for the home of the President of the United States.

11. The sum of \$1,500 is requested for renewing the superstructure of one of the greenhouses connected with the Executive Mansion. The present structure is weak, and should be rebuilt at the earliest opportunity. This estimate was submitted last year, but only \$1,000 was appropriated. As a proper superstructure could not be built for that sum, the money will not be used, and will revert to the Treasury.

Two thousand dollars is requested for repair of conservatory. The structure is old, in bad condition, and requires continual repairs and patching to preserve the splendid collection of plants it contains.

12. For portrait of ex-President Harrison and frame for portrait, \$2,500. This sum was appropriated for the portrait of ex-President Harrison's immediate predecessor. The Executive Mansion now contains the portraits of all the ex-Presidents of the United States except President Harrison.

13. The appropriation requested for lighting Executive Mansion and public grounds, and which is in excess of that made last year, is deemed very necessary in order to extend the electric-light system through the Monument Grounds, now entirely without illumination, and to change the system in Lafayette and Franklin parks from gas to electric lights. In the interest of morality, as well as for the protection of persons visiting or passing through the parks after dark, it is desired to make them as light as possible at night.

14. The estimate for repairs to water pipes and fire plugs has been increased from \$2,500 to \$5,000. The sources of the spring which supplies the United States Capitol with water were much impaired by the excavations made in connection with the construction of the large reservoir near the Howard University for the increase of the city's supply of Potomac water, which has resulted in diminishing the pressure at the Capitol. It is proposed to use the additional amount requested in making connection with the strongest springs in the vicinity, and in overhauling and repairing the old pipe line, and renewing such portions of it as may be found unserviceable.

15. I recommend that the salaries of the two steam engineers at the Washington Monument be increased from \$80 and \$60 to \$90 and \$70 per month, respectively. The duties of these two men are of great importance. Upon their efficiency and intelligence depend, to a great extent, the lives of those who use the elevator. The increase asked is small, and the men deserve it. I also recommend that the pay of the two firemen be placed at \$60 per month each. That is the rate allowed firemen in the Executive Departments, and there appears to be no reason why the firemen at the Monument should receive less.

The item for fuel, lights, oil, waste, repairs, etc., should be increased from \$3,000 to \$3,600, for the purpose of painting the ironwork in the interior of the Monument, and an item is added for a new engine for the electric-light system to replace the old one, which is in bad condition and constantly breaking down.

In submitting these estimates, I earnestly recommend that the various items under the heading of "Improvement and care of public grounds" be aggregated under one head, and while each item of work shall be named, the whole shall be covered by a general sum, not a specific sum for each item. This is done in other Departments of the Government, particularly the Quartermaster's Department of the Army. It saves quite an amount of clerical labor by permitting the preparation of accounts under one heading rather than under about thirty; moreover, it permits small balances which might be saved from one item to be used in some other equally necessary and important work.

This recommendation is based strictly upon business principles, and is for the purpose of reducing clerical labor and expediting the progress of the work.

APPENDIX F.

In relation to the estimates for the Navy Department library and Office of Naval Records of the Rebellion. (See page 49.)

NAVY DEPARTMENT, LIBRARY AND NAVAL WAR RECORDS,
Washington, August 14, 1893.

SIR: I have the honor to transmit herewith estimates for the Navy Department library, and for the Office of Naval War Records for the fiscal year 1894-'95, marked respectively "A" and "B."

Since the report of my predecessor, Lieut. Commander F. M. Wise, U. S. N., in this office, under date of August 27, 1892, there have been added to the library 1,300 volumes.

Congress cut down the appropriation for professional books and periodicals for the present fiscal year to \$500. It is recommended that the estimate for this purpose be restored to \$1,000, the original figure, which has been appropriated for many years past, this amount being necessary to keep up the present high professional standard of the library, as well as to supply the Naval Intelligence Office with technical and professional information.

The work of collecting and preparing for publication the Naval Records of the Civil War has been continued during the past year, and valuable additional material has been obtained.

The papers of the following prominent officers, among others, have already been collected and listed, including those of Farragut, Porter, DuPont, Goldsborough, Mervine, McKean, and Foote on the Union side, and Buchanan, Semmes, Barron, Mitchell, Hunter, Brooke, Maffit, and Waddell, on the Confederate side.

While the supply of documents of the Union naval commanders is very voluminous, it has been found that the Confederate matter is not as complete as could be desired. This is due to the great difficulty in collecting these papers, scattered as they are all over the country in family archives, and also for the reason that the Confederate navy department in Richmond, with its contents, was burned at the close of the war. Each year adds to this difficulty of collection, and in order that we may obtain these papers before all trace is lost, it is essential that the search should be vigorously continued.

This office has been in correspondence recently with Capt. Jas. D. Bulloch, of Liverpool, England, who was Confederate naval agent abroad during the civil war, and who has in his possession a mass of valuable material covering the outfit of the Confederate cruisers, which I trust we may be able to obtain. I am also informed that there are original Confederate archives of much value in the collection of the British Museum, and I have requested Mr. B. F. Stevens, of London, to examine these papers and inform me of their character.

We are now prepared to begin the publication of the Naval War Records, a proposed plan of which is herewith respectfully submitted, marked "C." It is estimated that sufficient material is ready for two volumes of about 800 or 1,000 pages each. For the purpose of beginning this publication and providing for the cost of issuing these two volumes, an additional item of \$15,000 is recommended. This estimate will permit the publication of an edition of 10,000 copies, and is based upon a careful examination of the cost of a volume of similar size of the Army War Records.

In order to place the Naval War Records in a permanent and accessible form, where it can be retained as standard reference for the executive and legislative departments of the Government and for the public generally, it is of great importance that the publication should be no longer delayed. Frequent inquiries are received in this office from different parts of the country asking for volumes of the work, which it has been impossible to supply.

Very respectfully,

RICHARD RUSH,
Superintendent Naval War Records.

Hon. SECRETARY OF THE NAVY.

APPENDIX G.

In relation to the estimates for the Diplomatic and Consular Service. (See pages 87 to 96.)

DEPARTMENT OF STATE, Washington, October 23, 1893.

SIR: I have the honor to submit the following explanations in regard to the estimates of appropriation, so far as this Department is concerned, for the fiscal year ending June 30, 1895:

1. *Mission to Haiti.*—I have recommended for the minister-resident and consul-general at Haiti the salary fixed by law (Revised Statutes, section 1675), which is \$7,500.

2. *Mission to Portugal.*—The estimates for 1894 provided for minister-resident and consul-general to Portugal, but the President, when he appointed Mr. George William Caruth, on April 25, 1893, caused him to be commissioned as envoy extraordinary and minister plenipotentiary, in virtue of the authority conferred by the act of Congress of March 1, 1893. This designation is the same as that borne by the minister from Portugal to the United States, and involves no increase of salary.

3. *Mission to Liberia.*—The estimates provide for a minister-resident and consul-general to Liberia, and an increase of \$1,000 is asked. This increase, if granted, will fix the salary at that heretofore paid to the minister, viz: \$5,000. Our interest in that distant Republic leads me to hope that this small increase will be allowed.

4. *Secretaries of embassies and legations.*—The missions to Germany, Great Britain, France, Russia, and Italy having been elevated to the rank of embassies, salaries for the secretaries of those embassies have been provided for at the same rate heretofore paid to each, viz, \$2,625 for the first four, and \$1,800 for the secretary at Rome. The only change thus made is changing the title of the officer so as to correspond with that of the mission.

The designations of the second secretaries at Berlin, London, and Paris have been changed to second secretaries of embassies for the reason above mentioned.

5. *Secretary of legation to Mexico.*—The mission to Mexico is now and has been for several years past of the first class, but the salary of the secretary of legation has never been increased. It remains at \$1,800, the amount designated when the mission was of the second class. It should, therefore, be placed on a par with that paid to other secretaries of legation of the \$17,500-grade, not only because of uniformity, but because the actual duties entitle the secretary to this small increase. The duties in Mexico are quite as exacting and the volume of work is as great, if not greater, than almost anywhere else. The Department has several times asked for this increase, and it now renews its request with additional confidence.

6. *Second secretary of legation to Mexico.*—I have submitted an estimate of \$2,000 for the pay of a second secretary of legation in Mexico. This has likewise been heretofore asked of Congress, but never granted. All that I have stated about the mission to show the necessity for an increase of compensation for the secretary applies with equal force to the second secretary. It is not only a natural condition, in view of Mexico being one of the first-grade missions, but the duties there demand this additional officer.

The small increase of salary from \$1,800 to \$2,625 for the secretary, and the appropriation of \$2,000 for the employment of a second secretary, will place the legation in Mexico on an equal footing with those of the other first-class missions, and I sincerely hope this will be accorded.

7. *Secretary of legation in Korea.*—The salary now paid is \$1,500, and an additional sum of \$500 is asked. This increase, if granted, will only make the salary \$2,000 per annum. The post is expensive, so far as living is concerned, and costly for the appointee to reach. He can be allowed only thirty days' salary towards these expenses in advance, and this is quite an insignificant sum, even at the increased rate, towards paying transit to and from his post. I accordingly urge this small increase of salary.

8. *Secretary of legation in Nicaragua, Costa Rica, and Salvador.*—I have submitted an item of \$2,000 with which to provide for the pay of a secretary of legation in those countries. The minister being often called to either of the other two countries to which he is accredited needs some one in whom he has confidence to place in charge of the valuable archives of the legation at Managua during his absence. He is held personally responsible for the safe custody of these, and while the Government demands this of the minister, it is believed that it should provide the means as well on that account no less than for the reason that the importance of the mission and its volume of work demand this additional assistance. The other mission in Central America has a secretary of legation, who is also consul-general to Guatemala, with the same salary.

9. *Contingent expenses, foreign missions.*—Heretofore there have been appropriated under this head the sum of \$105,000, which has been found little enough in consequence of the uses to which the Department has been obliged to apply it, but for the past two years only \$90,000 has been granted. I have therefore submitted an additional sum of \$15,000, which will increase the gross amount to \$105,000, and I can not too strongly urge that this be granted.

10. *Rent of buildings and grounds for legation in China.*—The sum now appropriated is \$3,100. I have accordingly asked that \$500 additional be granted. It is proper to add, in this connection, that extensive improvements have been made by the lessors, due to the necessities of the legation and the requirements of the public service at Peking. In view of this enforced outlay on the part of the lessors in erecting, I may add, a fire-proof building for the preservation of the valuable archives of the legation, and making other improvements within the legation compound, I believe that they are justly entitled to a slight increase in the rent, and with the \$500 additional satisfactory arrangements can be made to that end.

Under the act of Congress approved March 3, 1875, Statutes at Large, volume 18, page 377, the Secretary of State is authorized to provide for rent not exceeding the sum of \$5,000 per annum. I therefore urge that the \$3,600 now asked may be granted.

11. *Rent of legation building in Tokyo, Japan.*—The item under this head has been made to correspond with that in China, except in the amount which Congress has uniformly granted, \$4,000, and which is still necessary. In explanation of this change in the language, it may be proper to state that the lease now provides that the Japanese Government, the lessor, shall keep the premises in good and sufficient repair. That Government, like our own, is compelled by its laws to turn the money so received into the treasury, and at times has found it difficult to obtain from the Diet the necessary appropriations to make needed repairs as provided in the lease. Hence, it is agreeable to that Government to alter the lease so as to accept for rent \$3,400, and permit the United States to retain \$600 annually to make needed repairs. This can be done if the language of the item be followed in the appropriation bill when submitted to Congress.

12. *Buildings for legation in Japan.*—I have resubmitted in the estimates provision for the erection of legation buildings at Tokyo, Japan, upon ground offered to the United States by the Government of Japan, and asked that the \$25,000 necessary for the purpose may be granted. I believe this to be in the line of strict economy. Moreover, it would enable the Government of the United States to have a permanent residence for its minister in Japan and provide additional security for the valuable archives.

13. *Expenses under the neutrality act.*—The sum of \$15,000 has been heretofore appropriated under this head. Finding that it was more than necessary to meet the expenses for which the appropriation is made, I have reduced the amount to \$5,000, which I regard as ample under all the circumstances.

14. *Emergencies arising in the diplomatic and consular service.*—Congress has heretofore granted \$60,000 under this head, but the present item of appropriation provides for \$40,000 only, which I think will be sufficient to meet all demands in unforeseen emergencies arising in the consular and diplomatic service.

15. *Transporting remains of diplomatic officers, consuls, and consular clerks to their homes for interment.*—After an examination of the expenditures made under this head for several years past, I have come to the conclusion that the \$10,000 appropriated is more than is actually necessary. Hence I have asked that the amount be placed at \$3,000. I regard that sum as ample.

16. *Secretary of legation to the Hawaiian Islands.*—No provision exists for clerical or other assistance to our minister in these islands. Such assistance is at this time necessary, and I have recommended the appropriation of a salary of \$1,500 a year for a secretary of legation there.

Consular salaries.—The aggregate of the estimates for consular salaries is \$531,000—\$13,000 less than the amount asked for in the last preceding estimates. Of this amount of \$531,000, \$35,000 is submitted in obedience to the provision in the appropriation act of March 1, 1893, which requires that an estimate for salary shall be made for all consulates and commercial agencies at which the official fees collected in the previous year have exceeded \$1,000. Subtracting the amount thus submitted in obedience to law for salaries at feed consular offices, the aggregate of the estimates for the salaries at consulates now compensated by salary is \$495,500, the precise amount appropriated for consular salaries in the last appropriation act. The additions to the salaries of certain consulates proposed in the estimates submitted herewith are therefore exactly compensated by reductions or omissions proposed in reference to other consulates; so that the proposed changes are merely a redistribution of the appropriation heretofore made for consular salaries, with a view to the adjustment of inequalities and to the improvement of the general efficiency of the consular service.

The changes other than omissions which appear in these estimates are as follows:

1. *Singapore.*—It is proposed to make the consulate at Singapore a consulate-general, without increase of salary. The proximity of Singapore to the capital of the Sultan of Johore, and the fact that a large part of our commerce with that city is derived from the Sultan's dominions, makes it important that our consular officer shall have official standing and influence with the Sultan and his people. With them titles and official rank are important elements of standing and influence, and the last consular officer appointed to Singapore was for that reason nominated and confirmed consul-general.

2. *Barcelona.*—Consulate, at \$1,500; submitted, consulate-general, at \$2,500.

Barcelona is the most important commercial city of Spain, and is the place where the consuls-general of other foreign countries reside. Our greatest trade is with Malaga, but Barcelona is regarded as the best location for a consul-general having supervisory jurisdiction over the other consular officers in the country. Such supervision is known to be needed, and the increased efficiency of the service in Spain which is expected to follow the proposed change will justify the increased expenditure and the raising of the grade of the Barcelona office.

3. *Bahia and Pará, Brazil.*—Consulates, at \$1,500; submitted, \$2,000.

The tendency to increased trade between the United States and these two Brazilian ports renders the presence of an efficient consular officer at each place more important than ever before. The present salaries do not attract good business men to those ports, where the cost of living is great. It is believed that the salaries should be equal to that at Pernambuco, which is \$2,000.

4. *Cape Town.*—Consulate, at \$1,500; submitted, \$2,500.

Our consul at Cape Town represents the United States throughout South Africa. By virtue of his supervisory powers over the consular agents in the Transvaal and the Orange Free State, this consul has charge of our commercial interests and prospects in that vast and flourishing territory. The growing importance of our trade with South Africa makes the office of the consul at Cape Town one of the most important in the service, and the increased appropriation is earnestly recommended.

5. *Turin.*—Feed commercial agency; submitted, consulate, at salary of \$1,000.

The fees of this office are usually less than \$500 a year, but the city is much frequented by citizens of the United States, and an efficient consular officer is needed there. By raising the grade of the office to that of consul and appropriating for it a salary of \$1,000 it is believed this end can be attained.

6. *Hull.*—Consulate, fees \$1,053; submitted, salary at \$2,500.

It has been found impossible to obtain the services of a suitable person for this office at the present compensation. Many of our seamen become destitute there; merchandise from the Continent is often transhipped there, and the port is always a source of danger to us in times when epidemics prevail in Europe. An officer of character and efficiency is a great want at this place, and such a one can not be obtained without the proposed increase of compensation. The irregularities are and have long been so great that the office should be raised to a salaried one or abolished. It is worse than useless as conducted during the last eight or ten years.

Special emphasis is laid upon the increase of salaries proposed for the consulates at Cape Town and at Hull.

7. *Salaries, consular clerks.*—Ten of these clerks have been appointed more than five years and are under the law entitled to salary at \$1,200 a year. The other three are entitled to \$1,000 a year.

8. *Allowance for clerks at consulates.*—Specific appropriations are proposed for clerk hire at twelve consulates where the Department has for a number of years found it necessary to supply clerks regularly out of the general fund for clerk hire distributed by the Secretary of State. The aggregate of the increase thus requested is \$9,000. As a partial set-off against this increase, the amount submitted for distribution at the discretion of the Secretary of State is diminished by \$5,000, as compared with last year's estimates. Four hundred dollars additional is also asked for the consulate at Sonneberg, where the business and the need of clerical service is as great as at any of the consulates allowed \$1,200 a year for clerk hire. The total increase recommended is \$4,400. The interests of the Government demand the increased provision for clerk hire herein submitted.

9. *Contingent expenses, United States consulates.*—An increase of \$50,000 has been asked because it is necessary. The rent allowances coming under the law out of this fund would amount to \$97,300 if each consul spent the amount allowed him by law. Eighty-three thousand six hundred and seventeen dollars were actually spent for office rent in the fiscal year 1893. Postage on official correspondence is another large and indeterminate item of expenditure out of this appropriation; likewise the cost of telegrams and cable messages, advertising, supplies to consulates, and the freight on same, all necessary and not subject to arbitrary limitation without crippling the service. These expenditures, which are so essential to the conduct of the service that the Department has very little power to reduce them, absorb quite all of the sum annually appropriated, leaving nothing for the other purposes named in the estimates, such as messenger service and furniture for the increasing number of consular offices. The inadequacy of this appropriation has caused a deficiency every year except one (1887), and the Department kept within the appropriation that year by simply withholding needed allowances, which had to be made up in the succeeding year in addition to the regular expenses of that year, causing an enlarged deficiency in the year 1888. The total expenditure for the contingent expenses of United States consulates in 1890 was \$187,971.57; in 1891, \$228,693.99; in 1892, \$228,589.50; in 1893, upwards of \$200,000. The Department can and will make \$200,000 a year pay the expenses under this head; but \$150,000 can not be made to meet the expenditures which are absolutely necessary to the preservation of the efficiency of the service, to say nothing of its advancement.

Requesting that this letter may, if practicable, appear in the Book of Estimates submitted to Congress,

I have the honor to be, sir, your obedient servant,

W. Q. GRESHAM.

Hon. SECRETARY OF THE TREASURY.

APPENDIX H.

Statement showing wherein the estimates for pay, etc., of the Army for the fiscal year ending June 30, 1895, vary from the amount appropriated for like purposes for the fiscal year ending June 30, 1894. (Estimates for 1895 on pages 100 to 103.)

Items.	Estimate for 1895.	Appropriated for 1894.	Increase.	Decrease.	Remarks.
Pay of officers of the line.....	\$2,857,000 00	\$2,775,000 00	\$82,000 00	Estimate based upon present organization.
Pay to officers for length of service, to be paid with monthly pay.	884,100 00	822,670 00	11,430 00	Estimate based upon longevity records.
Aids-de-camp.....	4,100 00	4,100 00	Authorized by law, but omitted from appropriation, 1894.
Additional pay to officers of foot regiments when mounted by proper authority.	5,220 05	5,220 05	Do.
Pay of enlisted men.....	4,345,504 50	4,100,000 00	245,504 50	Estimate made for 25,000 enlisted men, present organization.
Pay of Hospital Corps.....	227,100 00	215,000 00	12,100 00	Estimate based upon letter of Surgeon-General.
Pay of enlisted men, Signal Corps.....	21,720 00	21,720 00	Authorized by law in addition to the 25,000 enlisted men, but omitted from appropriation, 1894.
Pay of enlisted men for length of service.....	468,216 00	475,130 00	\$6,914 00	Estimate based upon amount expended last year, and information from Adjutant-General.
Additional pay for length of service, Corps of Engineers.....	76,100 00	77,030 00	900 00	Decrease in length of service of officers.
Pay of officers, Ordnance Department.....	130,300 00	132,700 00	2,400 00	Decrease in allowance between pay of lieutenants and captains.
Additional pay for length of service, Ordnance Department.	44,120 00	44,080 00	40 00	Increase in length of service of officers.
Additional pay for length of service, Quartermaster's Department.	51,200 00	51,006 00	200 00	Do.
Pay of officers, Subsistence Department.....	77,500 00	79,500 00	2,000 00	Decrease in number of acting commissaries of subsistence.
Additional for length of service, Subsistence Department....	21,800 00	21,400 00	400 00	Increase in length of service of officers.
Pay of officers, Medical Department.....	418,700 00	422,700 00	4,000 00	Decrease in allowance between lieutenants and captains.
Additional pay for length of service, Medical Department ...	106,530 00	108,850 00	2,320 00	Decrease in length of service of officers.
Pay of officers, Pay Department.....	84,000 00	86,500 00	2,500 00	Number of majors reduced to twenty-five.
Additional pay for length of service, Pay Department.....	26,250 00	27,000 00	750 00	Decrease in length of service of officers.
Pay of officers, Signal Corps.....	23,200 00	22,800 00	400 00	One lieutenant promoted to captain by length of service.
Additional pay for length of service, Signal Corps.....	6,440 00	6,280 00	160 00	Increase in length of service of officer.
Pay of retired officers.....	1,147,580 34	1,100,000 00	47,580 34	Estimate based on information from Adjutant-General's office.
Additional pay for length of service, retired officers.....	341,833 96	330,000 00	11,833 96	Increase in aggregate service.
Pay of enlisted men on the retired list.....	302,625 41	320,000 00	17,374 59	Estimate based on number of men reported by A. G. O. and disbursements of last year.
Pay of hospital matrons.....	15,000 00	12,000 00	3,000 00	Estimate based upon expenditures of last year.
Pay, etc., paymasters' clerks, paymasters' messengers, traveling expenses of same, and expert accountant, Inspector-General's Department.	83,956 45	84,200 00	243 55
For expenses of courts-martial, courts of inquiry, and compensation of reporters and witnesses attending the same.	5,785 35	7,279 78	1,494 43	Do.
Commutation of quarters to commissioned officers on duty without troops where there are no public quarters.	217,824 16	200,000 00	17,824 16	Do.
Travel pay, retained pay, clothing not drawn, and interest on deposits payable to enlisted men on discharge.	318,209 23	375,000 00	56,790 67	Do.
Mileage to officers when authorized by law.....	200,000 00	160,000 00	40,000 00	Do.
	12,961,915 55	12,556,089 78	503,513 01	97,687 24	
	12,556,089 78		97,687 24

Total.....	4,584,916 00

APPENDIX J.

In relation to the estimate under "Repairs, Ordnance," for the naval magazine, Mare Island, Cal. (See page 121.)

OFFICE OF INSPECTOR OF ORDNANCE;
Navy-Yard, Mare Island, Cal., July 8, 1893.

SIR: 1. I have the honor to submit herewith an estimate of the probable amount of money that will be required in the ordnance department of this yard for the fiscal year 1894-'95.

2. The filling house should be built as soon as funds can be obtained, as ammunition is now prepared in the watchhouse on the wharf, which is closely approached by passing steamers. The estimate is for a building with brick walls and metal roof, but the board, of which Capt. E. C. Matthews was the senior member, also considered, and may have submitted to the Bureau, the plans of an iron building sheathed with wood inside which would cost considerably less. A wooden building was regarded as out of the question on account of the danger from grass fires during the dry season.

3. The gun cotton magazine is required because part of the gun cotton now on hand has to be stored in one of the powder magazines, contrary to regulations. The estimate is for a brick building with metal roof, with ventilated air space under it to keep down the temperature. The gun-cotton magazine is the bombproof at the redoubt, and if this is considered the best type and the new is to be excavated the estimate should be at least doubled.

4. The building in place of the wooden filling house ruined by the explosion, to be torn down when more storage room is obtained, and the extension asked for to the new building now nearly completed, on the site of the brick filling house, are needed for the safe and proper handling of ammunition, and for the storage of rapid-fire ammunition. Room is also required to allow repairs to be made to the shell houses, the walls of No. 1 having been injured, the floor timbers of No. 2 being rotted, and the floors of both being worn down so far that the nails are showing in places.

5. The paint and tool house is required by regulation and should be built of brick with metal roof so as to avoid the risks due to the presence of wooden buildings in the inclosure.

6. The house for watchman is asked for because two families, those of the men who have been especially commended for bravery and good conduct, are crowded into quarters only large enough for one. There being no way of dividing the lower floor, one family has to live in rooms that are under the pitch of the roof, and in summer the heat of the sun and the kitchen fire make them almost uninhabitable. The cost of a dwelling on the proposed site to the northward of the

inclosure could well be afforded if for no other purpose than to have the grounds and approaches to No. 2 magazine and the beach in front of it, where fishermen and hunters can now land, overlooked. The watchman is obliged to walk 200 yards from the watchhouse to bring No. 2 magazine into view.

* * * * *

	Labor.	Material	Total.
Filling house, 24 by 20 feet; height, 12 feet; walls, 17 inches thick; metal roof.....	\$1,700 00	\$1,100 00	\$2,800 00
Gun-cotton magazine, 30 by 24 feet; height, 14 feet; walls, 17 inches thick; metal roof.....	2,000 00	1,400 00	3,400 00
Building in place of wooden filling house, 50 by 30 feet; height, 14 feet; walls, 17 inches thick; metal roof.....	2,600 00	1,800 00	4,400 00
Extension of building nearly completed, 60 by 30 feet; height, 14 feet; walls, 17 inches thick; metal roof.....	2,500 00	1,700 00	4,200 00
Paint and tool house, 12 by 12 feet; height, 10 feet; walls, 13 inches thick; metal roof.....	550 00	350 00	900 00
Watchman's house, 35 by 24 feet; wood, slate roof.....	1,200 00	1,000 00	2,200 00
Total.....	10,550 00	7,350 00	17,900 00

* * * * *

Very respectfully,

The COMMANDANT,
Navy-Yard, Mare Island, California.

C. E. CLARK,
Commander, U. S. N., Inspector of Ordnance.

APPENDIX K.

Recapitulation of the estimates of "Indian Service," as furnished by the Indian Office. (See pages 135 to 154.)

<i>Appropriations for the fiscal year ending June 30, 1894.</i>		<i>Amounts embraced in estimates for 1895 not appropriated for 1894—Cont'd.</i>

		Agreeing with the difference between the amount of these estimates and the amount appropriated for 1894.....	193,639 83

APPENDIX L.

In relation to the estimate for repairs to Treasury Department buildings. (See page 161.)

TREASURY DEPARTMENT, OFFICE OF THE SUPERVISING ARCHITECT,
Washington, D. C., June 26, 1893.

SIR: I have the honor to report that under date of the 13th instant I made an examination of the Winder Building in this city as to its stability and capacity, and as a result thereof concluded that the report of an inspection of the building made under date of December 29 last by Mr. Adolf Cluss, inspector of public buildings of this office, was in substance in accord with the conditions as they exist this day. A copy of the report referred to was transmitted under date of January 4 last to the chief clerk of this Department, who is charged with work of repairs to Treasury, Butler, and Winder buildings in this city. I would respectfully submit that the matters therein referred to should have early consideration, and the adoption of such suggested measures as may be necessary to preclude the possibility of any damage. In this connection I may be permitted to call especial attention to that portion of the report which states that "the embankments between sidewalks and the fronts of the building were very injudiciously cut down and graded, so that the rain water falling

upon the parked spaces, instead of being rapidly thrown outward to the gutters, is now directed towards the walls of the building, and, absorbed by the soil, hardly ever reaches a drain at the foot of the marble-cased foundation walls," and further, "that when heavy rains occur or when sprinkling is copiously applied to the parking the water finds its way underneath the foundations and crops out in basement rooms. Since the bed of the foundation is within easy reach of frost, this is by no means safe, notwithstanding that the slow action of the elements has not resulted in a catastrophe so far."

The remedy suggested to correct this condition is to raise and resod the parking so as to drain towards the sidewalks. A strip of concrete with Portland cement facing wide enough for taking up the drip from the balcony on the second story should be laid between the sodding and the base of the building. This is a matter which should have early consideration, and is respectfully so recommended.

In conclusion, I desire to state emphatically that while I do not consider the building in a dangerous condition at the present time, it shows many cracks and evidences of movement, and is manifestly unfit for the purposes to which it is now applied.

It should be torn down and replaced by a suitable structure.

Respectfully, yours,

J. O'ROURKE,
Supervising Architect.

Hon. SECRETARY OF THE TREASURY.

TREASURY DEPARTMENT, OFFICE OF THE SUPERVISING ARCHITECT,
Washington, D. C., January 4, 1893.

SIR: In compliance with your request of the 21st ultimo, asking that a competent person be sent from this office to inspect the Winder Building in this city, and report on the condition of same, I have to inform you that Mr. Adolf Cluss, inspector of public buildings, was requested to visit the building named and make such inspection, and I herewith inclose a copy of his report submitted to this office.

Respectfully, yours,

JAMES P. LOW,
Acting Supervising Architect.

Mr. FRED. A. STOCKS,
Chief Clerk, Treasury Department.

TREASURY DEPARTMENT, OFFICE OF THE SUPERVISING ARCHITECT,
Washington, D. C., December 29, 1892.

SIR: In compliance with your instructions of December 23, I have examined "Winder's Building" for the purpose of determining whether the walls and floors thereof are of sufficient strength to carry with safety the weight which the business of the office imposes thereon, and what measures, if any, are required for its safety.

The walls and floor arches have been, ever since the construction of the building, and are now, marred and weakened by numerous cracks. While not by any means underrating such serious defects, I find that of late years these difficulties of long standing have not been materially increased. The building is not in as precarious a condition as to call for radical repairs. However, some precautionary measures and minor repairs are essential for the preservation of the building, and should not be deferred. Before presenting them I proceed to state the case:

The building was erected in the years 1848 and 1849 by private enterprise. It covers about 13,000 square feet of ground and represents on five floors, above a basement, about 43,000 square feet neat floor space in offices. It was purchased by the Government in 1854. A mixed board of military and civil experts reported at that time that the building appears to have been constructed of good materials, and most of the workmanship to have been well done. Numerous cracks in the walls, especially in the lower rooms near the corner of Seventeenth and F streets, indicating either imperfect foundations or careless construction, are not of such a nature as to warrant any apprehensions as to the stability of the structure.

In 1872 and 1873 the adjoining streets were graded down several feet. The foundations of the front walls now extend but about 20 inches beneath the surface of the new sidewalks. The basement rooms were then excavated and fitted up for record and storage rooms, and are now but 10 inches above the ground under the walls. The embankments between sidewalks and the fronts of the building were very injudiciously cut down and graded, so that the rain water falling upon the parked spaces, instead of being rapidly thrown outward to the gutters, is now directed towards the walls of building and absorbed by the soil, and hardly ever reaches a drain at the foot of the marble-cased foundation walls.

In 1881 the combustible roof of the building was replaced by a very heavy fireproof roof, which added about 500 tons to the dead load upon the ground underneath the walls.

In 1882 the old cracks in the walls were reported by the Second Auditor as increasing in width and in number.

The expert of the Supervising Architect's Office made a thorough examination. Since the building was then under the control of the War Department, the attention of the Secretary of War was called to it, and, as usual, it was referred to a board of army engineers.

At this time all the cracks were traced and marked, the walls were plumbed, the sufficiency of the foundations was tested by excavation and exposure.

The material thus collated is valuable for a comparison with the present state of the building after a lapse of ten years. The weight of the occupied building is approximately as follows:

Weight of walls and fireproof floors.....	12,000 tons.	
Weight of a heavy snow fall and wind pressure.....	150 tons.	
Increase of weight by the fireproof roof.....	500 tons.	
		12,650 tons.
Movable load by the estimated weight of contents of offices.....	600 tons.	
Weight of 270 regular occupants and casual visitors.....	25 tons.	
		625 tons.
Total.....		13,275 tons.

This load is transmitted on the underlying clay beds by foundations of 30 inches width under the front walls, 38 inches width under exterior yard walls, and of but 18 inches width under the heavily loaded interior bearing walls. While the foundations of the exterior walls press upon the clay bed with a load of $2\frac{1}{2}$ tons per square foot, those of the interior walls press down at the rate of 6 tons. The unequal loads have produced unequal settings, the greater subsidence having been under the excessively loaded interior walls. These results of the improper distribution of the loads have caused the much-discussed cracks.

Clay soils are compressed under given loads to a certain depth, and then the compression will stop, unless changes in the load occur. Such a change was introduced with the fireproof roof, and told upon the cracks before long.

After the investigations of 1882, and again by the removal of the War Department offices in 1888, the movable loads were reduced to some extent. The accumulation of records since that time has probably restored the loads to their status at the end of 1881.

The grave blunder in the planning of the foundations is to a great extent offset by the peculiar construction of the building. The corridor walls are covered by heavy arches on each floor, and numerous cross walls between exterior and corridor walls divide the building into small rooms, perpendicularly upon each other, from basement to the roof. The exterior walls are braced by the transverse walls, and the cracks, occurring between these strong and well-preserved lines, can not unexpectedly cause trouble.

The settling of the interior walls tends to draw the tops of the exterior walls inwards, hence the cracks, which are most prominent from the third to the fifth story, are comparatively harmless, since they are not due to any overhang or outward spread of the walls.

The list of loads shows that the weight of the files amounts to but a small percentage of the total load. And again, it has been observed that there is less trouble with cracks in and about the northwestern ranges of rooms, where the bulk of the files is stored in five successive stories, than in the south and southeastern office rooms, where there are but few files stored.

Under these circumstances, it is held that, the bed under the interior foundations being notoriously overtaxed beyond safe limits, the storage of files should be kept as low as the exigencies of the service admit, and that, provided that due vigilance is exerted whenever the loads are materially changed, no danger need be apprehended on that score.

It is lucky that the front walls have foundations of at least fair width, since they have been quite unduly exposed after the regrading of the streets. The building regulations of the American cities, including the District of Columbia, prohibit the flimsiest dwelling from being erected upon as shallow foundations as those of the front walls of this cumbrous structure. I am informed that when heavy rains occur, or when sprinkling is copiously applied to the parking, the water finds its way underneath the foundations and crops out in basement rooms. Since the bed of the foundation is within easy reach of frosts, this is by no means safe, notwithstanding that the slow action of the elements has not resulted in a catastrophe so far.

I earnestly repeat the recommendation heretofore made, that the foundations of the exterior walls be protected against frost or softening or yielding of the clay beds by seepage of rain water. For this purpose the parking ought to be raised and resodded so as to drain towards the sidewalks. The sodding should to be kept off the foot of the marble-faced base of the building by a strip of concrete with a Portland-cement facing, wide enough for taking up the drip from the balcony on the second story.

The cost of thus securing the foundations under a well-digested scheme is about \$1,750.

Next I call attention to a number of items which are deemed highly necessary for the preservation of the building.

The wide cracks on the face of the exterior walls appear never to have been filled, probably because they are difficult to reach. They admit water and frost within the walls, particularly on the eastern front. It is only a question of time when such a state will work serious mischief, hence the necessary repair should not be delayed.

The exterior of the end and rear walls is rough casted (plastered). Large patches have fallen. They admit the destructive elements to the space between brickwork and plastering, and increase rapidly the deterioration of the work. The repair is badly required. The cost of these repairs will be \$500. The exposed wood and iron work of widows, doors, balcony, and main cornice of the fronts has not been repainted for many years. Many sashes, subsills, and the balcony floor are rotting and need immediate repairs and repainting in two coats. Cost, \$650. Four rear rooms of the basement used for fuel and storage have large window openings and sunk areas of 25 square feet each on the outside which are not drained. There are no sash frames or gratings, and intruders have free scope during the night. Four well-secured wrought-iron double doors will cost \$120. The courtyard is paved with a sunken cobblestone pavement, where pools of water are stagnating. It should be repaved. Cost, \$165. Two pump rooms in the basement need Portland cement and concrete floor. Cost, \$150; making a total cost of \$1,585.

Besides the above items, I suggest the propriety of certain repairs:

The soiled walls of the rooms and corridors have received tinted calcimining about five years ago. It now peels and rubs off worse than ordinary whitewash. The tinting has been stopped around many file cases and other furniture, which have been removed long ago, and the old soiled plastering is exposed to view in unsightly patches.

After electric wires were introduced, the orifices of numerous holes drilled through the solid floor arches were never repaired. These repairs, substantial filling of cracks, and the recalcimining is estimated to cost \$1,400.

Finally, I call attention to the appearance of the fronts. The brickwork had been finished many years ago with a sanded cement composition, then in vogue, which has proved worthless, has gradually worn off, and imparts to the ponderous building the desolate looks of abandoned property. To scrape the front clean and restore it by three coats of oil paint will involve an expense of about \$750.

Recapitulating the amounts required under the different heads treated in this report, we have:

Redeeming the foundations of the front walls.....	\$1, 750
Various repairs necessary for preservation of the building.....	1, 585
Interior repairs and calcimining.....	1, 400
Painting of front walls.....	750

5, 485

An adjoined diagram illustrates, in section, the insecure section of foundations of the front walls and proposed mode of redeeming them.

Diagrams of two floors of the building locating the offices, file rooms, etc., will be of service in reading the report.

Very respectfully, your most obedient servant,

The SUPERVISING ARCHITECT OF THE TREASURY.

ADOLF CLUSS,
Inspector.

TREASURY DEPARTMENT, OFFICE OF THE SUPERVISING ARCHITECT,
Washington, D. C., February 3, 1893.

SIR: I have to state that as directed by you I have examined the Butler Building in this city. I also saw Surgeon-General Wyman and other officials at the building. I find that the tin-roof covering generally is in very fair condition, except painting, flashing, etc., and that there are no leaks of importance observable at present. I would recommend that all the tin and galvanized-iron work of the roof and tower above the main roof, and all gutters, balustrades, wall copings, etc., of the same be painted two good coats of metallic paint, after being well cleaned of loose scales, etc. The painted iron surfaces of the tower from top of balustrade to top of main roof, to be sanded to imitate granite. All exposed defective places on the cornice of main building, soffits of cornices, brackets, etc., to be repaired where paint is loose and flaked off, and to be painted and sanded to match adjoining work. All exposed surfaces of balustrades, copings of exterior walls, etc., of main building to be also sanded after being painted. All low places in gutters, or on roof near chimneys or elsewhere, should be raised and repaired to throw water towards down-spout outlets. The tin-roof flashings, galvanized-iron work of tower and main building, should also be thoroughly repaired wherever necessary, especially around vent pipes, skylights, and at copings on walls, down-spout outlets, etc., and where flashing of walls and chimneys are thin and worn, new flashing should be put on. Some glass in skylights also wants repairing where broken or defective. The skylight over the vent shaft adjoining water-closets does not carry off the foul or warm air, there being no upward draft. Several windows of water-closets open into this shaft for light. I recommend that the skylight over shaft be raised above the roof 4 feet higher and ventilating galvanized-iron louvre openings be put in on three sides, there being but one small one, about 10 by 14 inches, at present, which is of no use. The vent soil pipe adjoining skylight should also be raised 4 feet higher. The lime mortar pointing of brick chimneys and party walls above roof is defective, and the joints should be raked out and re-pointed with Portland cement; all defective or loose cement on offsets of party walls should be removed, and new cement be put on. Pavement of approaches to building also needs repairing. Several of the rooms of interior want repairs to plastering and the walls and ceilings should be cleaned and painted where necessary. It is also requested that two of the office rooms of first story and three of second and third story rooms be entirely repainted three coats and the cornices, centerpieces, and wall friezes plainly decorated, and this I recommend to be done, the walls, ceiling, etc., first to be cleaned. I estimate the cost of proposed necessary repairs as follows:

Repairs to brickwork, and repointing of ten chimneys and of party walls above roof.....	\$150 00
Repairs to tin and galvanized-iron work of roof and tower, especially flashings, gutters, etc.....	200 00
Repairs to glass, etc., of five skylights.....	50 00
Raising of skylight and vent pipe over vent shaft.....	100 00
Painting of tin and galvanized-iron work of roof, tower, copings, balustrades, cornices, etc.....	500 00
Repairs to plastering and painting of rooms of interior.....	350 00
General repairs to locks, windows, and interior finish.....	50 00
Repairs to pavement, copings, etc., of approaches.....	100 00
Contingencies.....	150 00
	<hr/> 1,650 00

Very respectfully,

EDWARD T. AVERY.

Hon. JAMES P. LOW,
Acting Supervising Architect.

APPENDIX M.

Statement (prepared in accordance with Statutes at Large, Vol. 24, page 512) of persons employed on contingent force at public buildings in course of construction, etc., showing names, occupation, time of service, rates of compensation, and total amount of compensation during the fiscal year ended June 30, 1893.

TREASURY DEPARTMENT, OFFICE OF THE SECRETARY,
Washington, D. C., November 15 1893.

SIR: In accordance with the requirements of act of Congress approved March 3, 1887 (ch. 362, p. 512, Vol. 24, U. S. Statutes at Large), I have the honor to inclose herewith a statement of the persons employed outside of the District of Columbia as superintendents, clerks, watchmen, and otherwise, and paid from appropriations for the construction of public buildings, showing where said persons are employed, in what capacity, the length of time, rate of compensation, and total amount of compensation, during the fiscal year ended June 30, 1893, for transmission to Congress with the estimates of appropriations.

I have the honor to be, respectfully, yours,

H. KREUTZ,
Chief of Appointment Division.

Hon. JOHN G. CARLISLE,
Secretary of the Treasury.

APPENDIX O.

List of light-houses, beacons, and fog signals submitted by the Light-House Board in addition to those estimated for on pages 162 to 167.

For what object.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes.			Amount.
		Vol. or R. S.	Page.	Sec.	
LIGHT-HOUSES, BEACONS, AND FOG SIGNALS.					
Indispensable.					
In the list of items classified as indispensable there are only included items which are urgently required for the protection, care, and efficiency of existing aids to navigation.					
Prices of labor and material have appreciated so much since these estimates were made, mainly by reason of the eight-hour law, that each of the following estimates should be increased 25 per cent to enable the Light-House Board to construct these works:					
Boon Island Light-Station, Maine— Construction of a keeper's dwelling.....	Submitted.....				\$3,400 00
NOTE.—Three keepers are employed at this station. There are but two sets of quarters. Another set of quarters is needed. (See Book of Estimates for 1894, page 176.)					
Cape Elizabeth Light-Station, Maine— Construction of a keeper's dwelling.....	Submitted.....				3,300 00
NOTE.—Four keepers are employed at this station. There are now but three sets of quarters. Another set of quarters is needed. (See Book of Estimates for 1894, page 176.)					
Heron Neck Light-Station, Maine— Construction of a keeper's dwelling.....	Submitted.....				3,300 00
NOTE.—The keeper's dwelling, which was built in 1853, was built by contract. The joints in its walls do not exclude moisture. The building is very damp. The site is of saturated soil. The dwelling is so unhealthy that 5 deaths have occurred in it. (See Book of Estimates for 1894, page 178.)					
Libby Island Light-Station, Maine— Construction of a keeper's dwelling.....	Submitted.....				6,200 00
NOTE.—There are three keepers employed at this station. There is but one set of quarters. A double dwelling suitable for the two assistant keepers is urgently needed. (See Book of Estimates for 1894, page 179.)					
Matinicus Rock Light-Station, Maine— Construction of a keeper's dwelling.....	Submitted.....				3,200 00
NOTE.—Four keepers are employed at this station. They and their families are the only inhabitants of this rock. There are now but three sets of quarters for the four keepers. Another set is needed. (See Book of Estimates for 1894, page 179.)					
Perkins Island Light-Station, Maine— Establishing a light at or near the southwest point of Perkins Island, Kennebec River, Maine.....	Submitted.....				5,700 00
NOTE.—The need of this light is shown by the fact that a private light has for some time been maintained there after a fashion. It is proposed to replace it by a fixed red lens-lantern beacon light with a white sector to the northward and a fog bell struck by machinery. (See Book of Estimates for 1894, page 174.)					
Squirrel Point Light-Station, Maine— Establishing a light at or near Squirrel Point, Kennebec River, Maine.....	Submitted.....				4,650 00
NOTE.—The need of this light is shown by the fact that a private light has been shown there for some time after a fashion. It is proposed to replace it with a fixed red beacon light from a lens lantern with a white sector to the southward. (See Book of Estimates for 1894, page 175.)					
Doubling Point Light and Fog-Signal Station, Maine— Establishing a light, range lights, and a fog signal at or near Doubling Point, Kennebec River, Maine.....	Submitted.....				6,300 00
NOTE.—The need of these lights is shown by the fact that private lights have been shown there for some time after a fashion. It is proposed to replace them by a red lens-lantern light at the point, showing up and down the river, and a fog bell, and by white range lights, not less than 500 feet apart, to mark the channel from Ram Island to Fiddlers Reach. (See Book of Estimates for 1894, page 173.)					
Ames Ledge Light-Station, Maine— Establishing a light at Ames Ledge, Kennebec River, Maine.....	Submitted.....				75 00
NOTE.—The need of this light is shown by the fact that a private light is shown there now after a fashion. It is proposed to replace it by a red lens-lantern beacon light mounted on a wooden spindle, to be maintained there during the season of navigation only. (See Book of Estimates for 1894, page 171.)					
Boston Harbor Light-Ship, Massachusetts— Constructing, equipping, and outfitting, complete for service, a first-class steam light-vessel with a steam fog signal; and the Light-House Board is authorized to employ temporarily at Washington three draftsmen, to be paid at current rates, to prepare the plans for the light-house vessels for which appropriation may be made during the Fifty-third Congress; such draftsmen to be paid from the appropriation for building said vessels; such employment to cease and determine on or before the date when, the plans for such vessels being finished, proposals for building said vessels are invited by advertisement.....	Submitted.....				70,000 00
NOTE.—A vessel at the entrance to Boston Harbor about 6 nautical miles east by south of Boston light would be of great value to incoming vessels. During thick weather in approaching the harbor it is difficult to determine the location of the Boston light, and the bell at Minots Ledge is of doubtful utility. (See Book of Estimates for 1894, page 172.)					

List of light-houses, beacons, and fog signals submitted by the Light-House Board, etc.—Continued.

For what object.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes.			Amount.
		Vol. or R. S.	Page.	Sec.	
Butler Flats Light-Station, Massachusetts— Establishing a light and fog signal on or near Butler Flats, entrance to the lower harbor of New Bedford, to take the place of Clarks Point and Fairhaven Bridge lights..... <i>NOTE.</i> —The entrance to the lower harbor of New Bedford, at Butler Flats, where vessels alter course, is narrow, and in fog and at night is obscure, difficult, and hard to find. If a light and fog signal were placed on Butler Flats vessels inward bound could run straight for it into the narrow entrance, and outward bound could run directly for it through the lower reach of channel. Vessels making the port in rough weather would be guided to good anchorage. The lights at Clarks Point and Fairhaven Bridge would no longer be needed, and could be discontinued. (See Book of Estimates for 1894, page 172.)	Submitted.....				\$45,000 00
South Boston Range Lights, Massachusetts— Establishing range lights at or near Marine Park Pier and City Point, Boston Harbor, Massachusetts..... <i>NOTE.</i> —This range is needed to guide vessels coming up from Mix Mate to State Ledge turn. (See Book of Estimates for 1894, page 174.)	Submitted.....				1,000 00
Marblehead Light-Station, Massachusetts— Constructing a new tower at Marblehead Light-Station, Massachusetts..... <i>NOTE.</i> —The present light is obscured from the sight of vessels coming from the west and south. The safety of navigation absolutely requires that a higher tower be erected.	Submitted.....				45,000 00
Black Ledge Light-Station, Connecticut— Establishing a light and fog signal at or near Black Ledge, New London Harbor, Long Island Sound, Connecticut..... <i>NOTE.</i> —The numerous outlying shoals and ledges surrounding the entrance to this harbor make the approach to it dangerous in thick weather. The present light station is so far inside the obstruction that it is partially ineffective. The commerce of the harbor has greatly increased, and a naval station has been established in this harbor since the establishment of the old light. (See Book of Estimates for 1894, page 176.)	Submitted.....				45,000 00
Hog Island Shoal Light-Vessel, Rhode Island— Constructing, equipping, and outfitting, complete for service, a first-class steam light-vessel, with steam fog signal; and the Light-House Board is authorized to employ temporarily at Washington three draftsmen, to be paid at current rates, to prepare the plans for the light-house vessels for which appropriation may be made during the Fifty-third Congress; such draftsmen to be paid from the appropriation for building said vessels; such employment to cease and determine on or before the date when, the plans for such vessels being finished, proposals for building said vessels are invited by advertisement..... <i>NOTE.</i> —The vessel now on this station is old, obsolete in fittings, structurally weak, and will hardly more than last until a proper vessel is built to take her place. (See Book of Estimates for 1894, page 178.)	Submitted.....				70,000 00
Tender for the Third Light-House District— Constructing, equipping, and outfitting, complete for service, a new steam tender for buoyage, supply, and inspection in the Third Light-House District, New York; and the Light-House Board is authorized to employ temporarily at Washington three draftsmen, to be paid at current rates, to prepare the plans for the light-house vessels for which appropriation may be made during the Fifty-third Congress; such draftsmen to be paid from the appropriation for building said vessels; such employment to cease and determine on or before the date when, the plans for such vessels being finished, proposals for building said vessels are invited by advertisement..... <i>NOTE.</i> —This tender is to take the place of an old side-wheel steamer which has been nearly worn out by service in Long Island Sound and on the seacoast of New York, which steamer is too small to properly do the largely increased work of the district, and is so slow that it takes a great deal of time unnecessarily to do her work, all of which can be more economically done by a faster modern-built steamer. (See Book of Estimates for 1894, page 170.)	Submitted.....				95,000 00
Absecon Buoy Depot, New Jersey— Completion of the purchase of a site and the erection of a buoy depot at Absecon Inlet, New Jersey..... <i>NOTE.</i> —An appropriation of \$1,500 for the purchase of a site and the erection of a buoy depot at Absecon Inlet, New Jersey, was made by act approved on October 2, 1888, but it was found that the amount was insufficient, and a further appropriation is needed. (See Book of Estimates for 1894, page 175.)	Oct. 2, 1888 Submitted.....	25	509	1	2,000 00
Cape May Boathouse, New Jersey— To complete the purchase of a site and the erection of a boathouse for light-ships' boats at Cape May, N. J..... <i>NOTE.</i> —An appropriation of \$750 was made for this purpose by the act approved on October 2, 1888. The cost of the land and the legal expenses of obtaining it about exhausted the appropriation. The further appropriation is needed for the erection of a suitable building. (See Book of Estimates for 1894, page 177.)	Oct. 2, 1888 Submitted.....	25	508	1	800 00
Baltimore Light and Fog-Signal Station, Maryland— Establishing a light and fog-signal station at or near the junction of New Cut-Off Channel and Craighill Channel, Baltimore Harbor, Maryland..... <i>NOTE.</i> —The Government has spent large sums in dredging out these two channels. This light is needed to make them available at night for large vessels. Owing to the push of moving ice at this point, a very strong and consequently expensive foundation for the light is needed. (See Book of Estimates for 1894, page 176.)	Submitted.....				60,000 00

List of light-houses, beacons, and fog signals submitted by the Light-House Board, etc.—Continued.

For what object.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes.			Amount.
		Vol. or R. S.	Page.	Sec.	
<i>Cape Lookout Shoals Light-Ship, North Carolina—</i> Constructing, equipping, and outfitting, complete for service, a first-class steam light-vessel with a steam fog signal; and the Light-House Board is authorized to employ temporarily at Washington three draftsmen, to be paid at current rates, to prepare the plans for the light-house vessels for which appropriation may be made during the Fifty-third Congress; such draftsmen to be paid from the appropriation for building said vessels; such employment to cease and determine on or before the date when, the plans for such vessels being finished, proposals for building said vessels are invited by advertisement.....	Submitted.....				\$70,000 00
NOTE.—A more powerful light is needed to warn vessels off these shoals, which extend 12 statute miles out from the pitch of the cape. It is impracticable to extend the light from the light-house much further, as the tower is now 150 feet high. The establishment of a light-ship with a steam fog signal off the outer end of the shoals is now deemed a necessity. (See Book of Estimates for 1894, page 177.)					
<i>Rappahannock River, Additional Lights, Virginia—</i> Establishing four additional lights in the Rappahannock River, one to be on an iron beacon at or near the entrance to Carters Creek, and three beacon lights to be placed on poles, one on or near Sharp's Wharf near Suggets Point, one on or near Tappahannock Wharf, and one on or near Naylor's Wharf.....	Submitted.....				3,300 00
NOTE.—The river is inadequately lighted. Steamers loaded with fruits and vegetables have to tie up at night for lack of lights.					
<i>Portsmouth Light-House Depot, Virginia—</i> For repairs to the buildings, and for extending the wharf along the water front.....	Submitted.....				40,000 00
NOTE.—The buildings are greatly out of repair. The present wharf is in such condition as to make its use dangerous. The wharf and sea wall should be extended so as to cover all the lately acquired water front.					
<i>Cape Fear Light-Station, North Carolina—</i> Establishment of a first-order light-station at or near the pitch of Cape Fear, North Carolina.....	Submitted.....				70,000 00
NOTE.—The present Cape Fear (Bald Head) light, because of its inland location and lack of height, is inadequate as a proper aid to navigation. The interests of commerce require that a first-order light be established, on or near the pitch of Cape Fear, at the earliest date practicable. (See Book of Estimates for 1894, page 176.)					
<i>Cape Fear River Range Lights, North Carolina—</i> Establishing range lights on the Cape Fear River in addition to those now there to guide through newly dredged channels.....	Submitted.....				3,105 00
NOTE.—The channels which the Government has dredged in Cape Fear River at large expense will be of little use at night until these lights are established. (See Book of Estimates for 1894, page 177.)					
<i>Mount Cornelia Light-Station, Florida—</i> Establishment of a first-order light-station on or near Mount Cornelia, north side of the mouth of the St. Johns River, Florida.....	Submitted.....				125,000 00
NOTE.—The light now maintained at the mouth of the St. Johns River is of the third order. For years there have been complaints of its inefficiency as a seacoast light. A first-order light on Mount Cornelia would answer the requirements of commerce. (See Book of Estimates for 1894, page 180.)					
<i>Light-House and Buoy Depot for the Sixth Light-House District, South Carolina—</i> Establishing a light-house and buoy depot at or near Charleston, S. C., to replace the depot destroyed by the cyclone of August 26-27, 1893.....	Submitted.....				155,000 00
NOTE.—The light-house and buoy depot at Castle Pinckney, with most of its destructible stores, was destroyed by cyclone. It is proposed to acquire a site at or near one of the Charleston city piers and to erect thereon suitable structures for storing light-house and buoy material to be kept ready for immediate use in the Sixth Light-House District.					
<i>Maumee Bay Range Light-Station, Ohio—</i> Establishing a new beacon at each end of the range, and keeper's dwelling; to form a range both outward and inward in the line of the channel in Maumee Bay, Lake Erie, Ohio.....	Submitted.....				15,000 00
NOTE.—This is needed to light and make available at night the new channel. The Government has spent more than \$1,200,000 in improving the system of channels, more than half of which amount was spent on this new channel.					
<i>Oswego Fog Signal, New York—</i> Establishing a steam fog signal at Oswego Light-Station, Lake Ontario, New York.....	Submitted.....				4,300 00
NOTE.—There is a bell at this station. Captains report failure to hear it when within half a mile. This uncertainty of a bell as a fog signal is generally admitted. The substitution of a steam fog signal for the bell is called for by commercial interests. (See Book of Estimates for 1894, page 169.)					
<i>Sandusky Bay Range Light-Station, Ohio—</i> Moving and rebuilding range lights and building keeper's dwelling, Sandusky Bay, Ohio..	Submitted.....				25,000 00
NOTE.—The new straight channel cut by the Government will be ready for use in the fall of 1893. The old channel will then go out of use. It is proposed to discontinue the three beacons in the old channel, and to rebuild two of them and a keeper's dwelling in the new channel. The entire commerce of Sandusky depends, in going in and out, on these range lights.					

List of light-houses, beacons, and fog signals submitted by the Light-House Board, etc.—Continued.

For what object.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes.			Amount.
		Vol. or R. S.	Page.	Sec.	
Detroit Light-House Depot, Michigan— Paving Mount Elliot avenue, Detroit, Mich., in front of the light-house depot and the United States Marine Hospital.....	Submitted.....				\$2,000 00
NOTE. —Mount Elliot avenue, a narrow street, leads from Jefferson avenue to the water front past the light-house depot and the marine hospital. The city and adjacent property owners, under the city ordinance, divide pro rata the cost of paving. The avenue is now in bad condition. Difficulty and delay in delivering at the light-house depot material purchased for light-house construction have been caused thereby.					
Superior Pierhead Light-Station, Wisconsin— Establishing a fog signal at or near Superior Pierhead Light-Station, entrance to the harbors of Duluth and Superior, Wisconsin.....	Submitted.....				5,500 00
NOTE. —A fog signal is needed here to supplement and to guide into these harbors when, as is often the case, fog prevents the light from being seen.					
Grand Marais Light-Station, Minnesota— That the unexpended balance of the appropriation of \$9,522, made in the act approved March 3, 1885, for completing the construction of a light-house at Grand Marais, Minn., be applied to the purchase of a site for and construction of a light keeper's dwelling at or near Grand Marais Light-Station.....	Mar. 3, 1885 Submitted.....	23	485	1	}
NOTE. —There is an unexpended balance of \$8,409.17 remaining from this appropriation. The estimate made contemplated the erection of a keeper's dwelling on a site to be bought for the purpose, but it could not be done under the ruling of the accounting officers of the Treasury. Authority is asked to expend this balance of an appropriation for the purpose for which the Light-House Board recommended that the appropriation be made.					
Cape Mendocino Light-Station, California— Construction of a roadway to the county road, additional.....	Aug. 5, 1892 Submitted.....	27	352	1	}
NOTE. —The Board asked \$1,000 for this purpose. An appropriation of \$500 was made by act of August 5, 1892. It is not sufficient. A further appropriation of \$500 is indispensable to do the work. (See Book of Estimates for 1894, page 168.)					
Point Arguello Light and Fog-Signal Station, California— Establishing a light and fog-signal station at or near Point Arguello, seacoast of California..	Submitted.....				35,000 00
NOTE. —This is a prominent point about 12 miles north of Point Conception, and one of the foggiest regions of the Pacific coast. A sharp bend in the coast here makes it particularly desirable that proper aids should be established. (See Book of Estimates for 1894, page 180.)					
Cape Flattery Light and Fog-Signal Station, Washington— Reestablishing the fog signal at Cape Flattery Light-Station upon a new site.....	Submitted.....				17,000 00
NOTE. —It is found that the fog signal at this important station will be much more effective as an aid to mariners if removed to West Island. The change would make it necessary to build new structures for accommodation of the signal and a new dwelling for the keeper. (See Book of Estimates for 1894, page 172.)					
Yaquina Bay Lights, Oregon— Establishing inexpensive lights at or near Yaquina Bay, Oregon.....	Submitted.....				300 00
NOTE. —The growing commerce of this region makes night passage in and out of the bay necessary. The lights are required for the safety of the vessels going in and out at night. (See Book of Estimates for 1894, page 171.)					
Umpqua River Light-Station, Oregon. For completing Umpqua River Light-Station, Oregon.....	Submitted.....				2,371 00
NOTE. —The contractors for the erection of the keeper's dwellings, barn, etc., at this station failed to carry out their agreement. This made a reletting of the contract necessary at an additional cost of \$2,371. Suit has been brought against the original contractors and their sureties in this amount.					
Cape Arago Light-Station, Oregon— Establishing a first-class fog signal and erecting keepers' dwellings at Cape Arago Light-Station, Oregon, \$15,500, the amount or so much thereof as may be necessary to be paid from the \$50,000 appropriated by the sundry civil act, approved on March 3, 1891, "For the purchase of a site and the establishment of a proper light and fog signal at the mouth of the Coquille River, on the Pacific Ocean, the same to be constructed under the direction of the Secretary of the Treasury."	Mar. 3, 1891	26	955	1	
NOTE. —A fog signal is much needed to supplement the light, as the fogs are dense and frequent on this coast. The keeper's dwelling is old, much decayed, and not sufficiently large for the needs of the station. The appropriation for the establishment of the light and fog signal at the mouth of Coquille River, Oregon, was much more than sufficient for the purpose. Authority is asked to use so much as may be needed of the unexpended balance of the appropriation to build the Coquille River Light-Station, to place a fog signal, and build light-keepers' dwellings at Cape Arago Light-Station.					
Oil Houses for Light-Station— Establishing isolated oil houses for the storage of mineral oil.....	Mar. 3, 1893	27	574	1	15,000 00
NOTE. —The introduction of mineral oil into general use in the Light-House Service greatly increases the danger from fire and necessitates greater storage capacity. As there are no proper means at present of storing the large quantities for annual supply, it is proposed to erect small buildings entirely separated from any others, thus avoiding the danger from fire as far as possible. (The sum of \$7,500 was appropriated for this object by act of March 3, 1893, for the fiscal year 1894.)					
Total.....					1,058,301 00

List of light-houses, beacons, and fog signals submitted by the Light-House Board, etc.—Continued.

For what object.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes.			Amount.
		Vol. or R. S.	Page.	Sec.	
Necessary.					
In the list classified as necessary are included those items which, in the opinion of the Board, are urgently necessary for the safe and convenient navigation of the waters of the various localities.					
Prices of labor and material have appreciated so much since these estimates were made, mainly by reason of the eight-hour law, that each of the following estimates should be increased 25 per cent to enable the Light House Board to construct these works :					
Little River Fog Signal, Maine—					
Establishing a steam fog signal in place of the bell now at the Little River Light-Station, Cutler Harbor, Maine.....	Submitted				\$10,500 00
NOTE.—Cutler Harbor is a station of the Eastport, St. Johns, and Bay of Fundy pilots. It is rapidly growing as a summer resort. Vessels entering the Bay of Fundy first make Libby Island, and then try to make Little River light. Steamers of the International Line wish to make this harbor a stopping place. They carry much freight and many passengers. It is the only near harbor of refuge, and is used as such by vessels when they can get in ; but this is impossible in a fog without a fog signal. On July 21, 1889, the Spanish steamer Eduardo, bound for St. Johns, struck on Old Man Ledge, 2 miles south of Cutler Harbor, during a dense fog. The crew of forty persons was saved, but the ship, valued at \$285,000, was a total loss. (See Book of Estimates for 1894, page 179.)					
Spring Point Ledge Light and Fog-Signal Station, Maine—					
Establishing a light and fog signal on Spring Point Ledge, Portland Harbor, Maine.....	Submitted.....				45,000 00
NOTE.—With a bell and a small light on Spring Point Ledge vessels could always change their course there in thick weather by day and by night at this dangerous point. More than half a million of passengers were carried by this ledge last year, and it is expected that the number will increase year by year. (See Book of Estimates for 1894, page 175.)					
Spectacle Island Range Lights, Massachusetts—					
Establishing range lights on Spectacle Island, Boston Harbor, Massachusetts.....	Submitted.....				9,350 00
NOTE.—These range lights are needed to mark the turning point into the channel for vessels coming up from Mix Mate. (See Book of Estimates for 1894, page 175.)					
Fort Wadsworth Light and Fog-Signal Station, New York—					
Moving the light now at Fort Tompkins to Fort Wadsworth, both in the Narrows, New York Harbor, New York, and establishing a fog signal at Fort Wadsworth.....	Submitted.....				1,500 00
NOTE.—This change is needed because this light is now back of the point it is intended to mark. If placed as proposed it would better serve as a mark to the channel leading directly into New York Harbor. The proposed fog signal would be of special service to the large commerce going through the Narrows in thick weather. (See Book of Estimates for 1894, page 173.)					
Plum Beach Light and Fog-Signal Station, Rhode Island—					
Establishing a light and fog-signal station at or near Plum Beach, Narragansett Bay, Rhode Island.....	Submitted.....				60,000 00
NOTE.—The great Sound steamers plying between New York City and Providence are in extreme hazard while running between Warwick Neck and Dutch Island, as, while trying to avoid Dutch Island, they may run on to Plum Beach, as is shown by the recent grounding of the steamer Pequod. (See Book of Estimates for 1894, page 180.)					
Warwick Fog Signal, Rhode Island—					
Establishing a steam fog signal at Warwick Light-Station, Rhode Island.....	Submitted.....				5,000 00
NOTE.—A steam fog signal is much needed at this point. (See Book of Estimates for 1894, page 175.)					
Doller Point Range Lights, Virginia—					
Establishing range lights between Doller Point and Hog Island Wharf, James River, Virginia.....	Submitted				2,500 00
NOTE.—Lights are needed on James River, between Doller Point and Hog Island Wharf, to guide vessels through the narrow and shallow channel known as Goose Hill Slough, between Hog Island and Jamestown Island, and to guide through another difficult channel from Deep-Water Shoals light to Hog Island, where a sharp turn is made to enter Goose Hill Slough. The need is shown by the fact that lights have been maintained for several years at these points by private enterprise. (See Book of Estimates for 1894, page 173.)					
Lazaretto Point Light-House Depot, Maryland—					
Construction of a dwelling for the accommodation of the keeper of the Lazaretto Point Light-House depot	Submitted.....				2,500 00
NOTE.—The quarters now occupied by the keeper are in the warehouse ; they are unsuitable and uncomfortable. It would cost nearly as much to make the present quarters habitable as it would to build a new dwelling, even if the room thus occupied was not required for other purposes. The depot-keeper must be constantly on the spot, and therefore can not live away from the premises. (See Book of Estimates for 1894, page 179.)					
Pork Point Light-Station, North Carolina—					
Establishing a light and fog-signal station off Pork Point, Roanoke Island, Croatan Sound..	Submitted.....				20,000 00
NOTE.—A large inland commerce navigates these waters and many serious accidents have occurred at this place for want of a light. It is also a turning point for vessels navigating the sound. (See Book of Estimates for 1894, page 181.)					

List of light-houses, beacons, and fog signals submitted by the Light-House Board, etc.—Continued.

For what object.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes.			Amount.
		Vol. or R. S.	Page.	Sec.	
Swan Point Bar Light-Station, Maryland— Establishing a light and fog-signal station on or near Swan Point Bar, opposite Bodkin Point, Chesapeake Bay, Maryland..... <i>NOTE.</i> —This is an important turning point for vessels navigating Chesapeake Bay. It is proposed to place a light-house in 12 feet of water on the extreme point of the bar. It must be strong enough to withstand ice. (See Book of Estimates for 1894, page 182.)	Submitted.....				\$50,000 00
Doboy Sound Range Lights, Georgia— Establishing additional range lights to guide vessels from the present Sapelo Island Range to a safe anchorage..... <i>NOTE.</i> —The two present ranges guide vessels to the intersection of the Wolf Island and Sapelo Ranges, and leaves them there without guidance in a dangerous position if they anchor, and with the Knuckles and the Chimney Spit Shoal on either side if they proceed. (See Book of Estimates for 1894, page 178.)	Submitted.....				1,500 00
Hillsboro Inlet Light-Station, Florida— Establishing a light-station at or near Hillsboro Inlet, seacoast of Florida..... <i>NOTE.</i> —A light on this important point is necessary to complete the system for this dangerous coast. (See Book of Estimates for 1894, page 178.)	Submitted.....				90,000 00
St. Joseph Point Light-Station, Florida— Establishing a light-station at or near St. Joseph Point, in St. Joseph Bay, west coast of Florida..... <i>NOTE.</i> —This light is needed to guide into St. Joseph Bay, the only harbor of refuge for some 60 miles. It would be of great advantage to the numerous fishing vessels on this coast. (See Book of Estimates for 1894, page 181.)	Submitted.....				25,000 00
Egmont Key Light-Station, Florida— Building a light-keeper's dwelling at Egmont Key Light-Station, Florida..... <i>NOTE.</i> —A dwelling is needed for the assistant light-keeper at this station.	Submitted.....				4,000 00
Depot for the Ninth and Eleventh Light-House Districts, Michigan— Establishing a supply and buoy depot at Scammons Harbor, Lake Huron, Michigan..... <i>NOTE.</i> —The depot for the Ninth Light-House District is at the southern end of Lake Michigan, at St. Joseph, while the depot for the Eleventh Light-House District is at Detroit, near the southern end of Lake Huron. A depot is needed near the northern end of the two lakes for the storage of coal, buoys, and other heavy supplies needed for use in the many light-houses in the upper parts of the two lakes. (See Book of Estimates for 1894, page 172.)	Submitted.....				15,000 00
Old Mackinac Point Light-Station, Michigan— Providing additional land for the light-house site at Old Mackinac Point, Straits of Mackinac, Michigan..... <i>NOTE.</i> —It is necessary to add to the light-house site. The land needed will cost \$800 and the legal expenses may amount to \$200. (See Book of Estimates for 1894, page 174.)	Mar. 3, 1891 Submitted.....	26	954	1	1,000 00
South Milwaukee Light-Station, Wisconsin— Establishing a light-station at or near the north pier at South Milwaukee, Lake Michigan, Wisconsin..... <i>NOTE.</i> —There is a large business done here in building material. It is a new town and is rapidly increasing in population and commerce. The light is needed to enable its vessels to get into its harbor at night.	Submitted.....				7,500 00
Kewaunee Light and Fog-signal Station, Wisconsin— Establishing a fog signal at or near one of the pierhead lights at Kewaunee, Lake Michigan, Wisconsin..... <i>NOTE.</i> —This is a regular stopping place for the Goodrich transportation steamers. Boats make this port summer and winter, passing between two piers but 200 feet apart, guided by a light on each. As the lights can be seen but dimly, if at all, in fog or snow, a fog signal is needed to supplement the lights.	Submitted.....				5,500 00
Ballards Reef Light and Fog-Signal Station, Michigan— Establishing a light-house and steam fog-signal on or near Ballards Reef, Detroit River, Michigan..... (See Book of Estimates for 1894, page 171.)	Submitted.....				100,000 00
Cleveland Light-Station, Ohio— Establishing a new site, a keeper's dwelling, and storehouse at Cleveland, Ohio..... <i>NOTE.</i> —The Cleveland main light with keeper's dwelling annexed on the hill is no longer needed. It is proposed to sell the real estate and erect a keeper's dwelling and storehouse on site in the harbor to be built for that purpose. It is supposed that the property will sell for about as much as the new site and buildings will cost.	Submitted.....				25,000 00
Grosse Isle Range-Light Station, Michigan— Building a dwelling for the light keeper at Grosse Isle Range-Light Station, Detroit River, Michigan..... <i>NOTE.</i> —The light keeper is now living in a dwelling belonging to the Service on Mamajuda Island, which is on the opposite side of the channel, at quite a distance from his station. This is not only inconvenient, but dangerous. A house should be provided for the keeper on Grosse Isle, that he may not have to leave the island.	Submitted.....				5,000 00

List of light-houses, beacons, and fog signals submitted by the Light-House Board, etc.—Continued.

For what object.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes.			Amount.
		Vol. or R. S.	Page.	Sec.	
<i>Range Lights above Grassy Island, Detroit River, Michigan—</i> Completing the construction of range lights on or near Grassy Island, Detroit River, Michigan, in addition to the \$1,500 already appropriated.....	Aug. 5, 1892 Submitted.....	27	352	1	\$1,500 00
NOTE.—The amount of \$1,500 appropriated by the act approved on August 5, 1892, is insufficient to build such beacons as it is now found are here needed.					
<i>Grassy Island South Range-Light Station, Michigan—</i> Establishing range-light station at or near Grassy Island, south end, Detroit River, Michigan.....	Submitted.....				700 00
NOTE.—This range will give ample room for vessels which may meet along that line, will make the course as nearly direct as practicable, and will place the turning point for the next range where it can not be mistaken, even though the range itself might be obscured by fog or other cause.					
<i>Grassy Island North Range-Light Station, Michigan—</i> Establishing a range-light station at or near Grassy Island, north end, Detroit River, Michigan.....	Submitted.....				5,500 00
NOTE.—This is needed to mark the channel, so that vessels may take a more direct and certain course and avoid the danger of running upon the flats.					
<i>Cheboygan River Front Range-Light Station, Michigan—</i> Authorizing the purchase of additional land for the Cheboygan River Front Range-Light Station, Straits of Mackinac, Michigan.....	Submitted.....				1,750 00
NOTE.—The light-house lot is narrow, and its entire front is occupied by the light-house buildings. The cellar is often inundated, and there is no drainage, or means of any, except over private land to the river. It is proposed to purchase an adjoining lot at the side of the light-house lot, which runs down to the river. (See Book of Estimates for 1894, page 172.)					
<i>Deadman Island, San Pedro Harbor Light-Station, California—</i> Establishing a light and fog-signal station at or near Deadman Island, to mark the entrance to San Pedro Harbor.....	Submitted.....				5,000 00
NOTE.—This is the seaport for Los Angeles, and large quantities of coal, lumber, and general freight are brought here. (See Book of Estimates for 1894, page 172.)					
<i>Point Buchon Light and Fog-Signal Station, California—</i> Establishing a light and fog-signal station at or near Point Buchon, near San Luis Obispo.....	Submitted.....				33,000 00
NOTE.—This is a prominent and dangerous point, where vessels going to and from Port Harford make a sharp turn. (See Book of Estimates for 1894, page 180.)					
<i>Point Hueneme Light-Station, California—</i> Purchase of additional land for right of way between Point Hueneme Light-Station and the county road.....	Aug. 30, 1890 Submitted.....	26	375	1	3,000 00
NOTE.—An appropriation of \$250 was made for this purpose by the act approved on August 30, 1890, but it was found to be inadequate. (See Book of Estimates for 1894, page 174.)					
<i>Punta Gorda Light and Fog-Signal Station, California—</i> Establishing a light and fog-signal station at or near Punta Gorda, between Shelter Cove and Cape Mendocino, California.....	Submitted.....				40,000 00
NOTE.—There are here several dangerous sunken rocks that add to the hazards of navigation, and in dark nights the overhanging mountains keep the shore line in dark shadows, so as to confuse even the most experienced. (See Book of Estimates for 1894, page 181.)					
<i>Umatilla Reef Light-Ship, off the Straits of Fuca, Washington—</i> Constructing, equipping, and outfitting a steam light-ship, with steam fog signal, to be established at or near Umatilla Reef at the Flattery Rocks, off the Straits of Fuca, Washington.....	Submitted.....				80,000 00
NOTE.—The coast from this reef to Tatoosh Island is full of rocky islets and submerged dangers. The currents are rapid and uncertain. The steamship Michigan was wrecked on this reef in January, 1893. It is one of the most dangerous points on the coast.					
<i>Gas Buoys—</i> For purchase of gas buoys.....	Mar. 3, 1891 Submitted.....	26	956	1	30,000 00
NOTE.—Gas buoys are needed to take the place temporarily of light-ships when under repair, to mark wrecks by night, and warn shipping from ledges, shoals, and other hidden dangers. (See Book of Estimates for 1894, page 173.)					
<i>Electric Communication with Light-Vessels—</i> Establishing electric communication between light-vessels and the shore.....	Submitted.....				50,000 00
NOTE.—The House of Representatives Committee on International and Foreign Commerce, on December 6, 1892, asked the views of the Treasury Department as to the bill (H. R. No. 9729) appropriating \$50,000 to provide communication from light-ships and outlying light-houses to the shore. Favorable reply was made on December 8, 1892. Since then the Light-House Board has experimented, and is now satisfied that it can establish electric communication between light-ships and shore. It is proposed to commence with an important light-ship quite near shore, then take a more important one more distant, and then, if need be, another still further away, and thus acquire by successive effort the experience needed to successfully lay an electric cable to connect with the shore the most distant and important light-ship, that on the New South Shoals, some 30 miles off Nantucket, Mass.

Desirable.					
In the list classified as desirable there are included items which, in the opinion of the Board, are necessary to carry out the general scheme for the lighting of our coasts, and which would be of great service to navigation.					
Prices of labor and material have appreciated so much since these estimates were made, mainly by reason of the eight-hour law, that each of the following estimates should be increased 25 per cent to enable the Light-House Board to construct these works.					
Clarks Ledge Light-Station, Maine— Establishing a light and fog-signal station on or near Clarks Ledge, entrance to St. Croix River, Maine.....	Submitted.....				\$30,000 00
NOTE.—A light and fog signal are needed here to guide vessels to the entrance to the river clear of the whirlpools off Deer Point and of the eddy above Dog Island, both of which are very powerful. Also needed to keep vessels off ledges above and below Dog Island, submerged at high water. (See Book of Estimates for 1894, page 177.)					
Green Island Light-Station, Maine— Establishing a light-station on Green Island, near the entrance to Burnt Coat Harbor.....	Submitted.....				12,000 00
NOTE.—Burnt Coat Harbor is an excellent and capacious harbor of refuge. The range lights which guided to the harbor were unsatisfactory, and a vessel was wrecked in 1883, while trying to make the harbor by their aid. One of them was accordingly discontinued, and it is proposed to erect in its stead a light-house on Green Island, about 1 mile to the southward of the entrance. (See Book of Estimates for 1894, page 178.)					
State Ledge Light-Station, Massachusetts— Establishing a light-house and fog signal at or near State Ledge, Boston Harbor.....	Submitted.....				42,000 00
NOTE.—Required to mark an important turning point in the main ship channel, Boston Harbor. Large steamers are obliged to anchor in thick weather because they have no guide between Mixs Mate and the wharves. (See Book of Estimates for 1894, page 182.)					
Sheffield Harbor Light-Station, Connecticut— Establishment of a light-station in Sheffield Harbor, Connecticut.....	Submitted.....				10,000 00
NOTE.—A large and increasing commerce is now centering here. Last year nearly 100,000 tons of coal and more than that quantity of general merchandise were landed, and in view of new railway connections it is said that the tonnage will be double. A light is needed at this point to make more certain the safety of life and property. (See Book of Estimates for 1894, page 182.)					
Statue of Liberty Light-Station, New York— Completing the pedestal of the Statue of Liberty Enlightening the World, Bedloe Island, New York Harbor.....	Mar. 3, 1887 Submitted.....	24	516	1	50,000 00
NOTE.—Congress having placed this statue under the care of the Light-House Board, it is found that the above sum is required to complete the structure. (See Book of Estimates for 1894, page 182.)					
Alligator River Light-Station, North Carolina— Establishing a light and fog-signal station at or near Great Shoal, at the mouth of the Alligator River, Albemarle Sound, North Carolina.....	Submitted.....				20,000 00
NOTE.—Alligator River furnishes the only harbor for the 30 miles of coast between Croatan and Laurel Point Light-Houses in Albemarle Sound. This light is needed to make that harbor available at night. (See Book of Estimates for 1894, page 175.)					
Beaufort Harbor Range Lights, North Carolina— Establishing range lights at the entrance to Beaufort Harbor, North Carolina.....	Submitted.....				10,000 00
NOTE.—This is the only harbor of importance between Chesapeake Bay and Wilmington; a distance of some 200 miles. The channel across the bar is narrow but straight, and if properly marked by range lights would lead into the safest and easiest harbor to enter at night between Hampton Roads and Savannah. (See Book of Estimates for 1894, page 176.)					
Point No Point Light-Station, Maryland— Establishing a light-station on or near the shoal off Point No Point, Chesapeake Bay, Maryland.....	Submitted.....				35,000 00
NOTE.—A deviation from their sailing course might carry vessels of heavy draft on to dangerous shoals. A light on this shoal is needed. (See Book of Estimates for 1894, page 170.)					
Wreck Point Light-Station, North Carolina— Establishing a light-station at or near Wreck Point, southeast of Cape Lookout, on the seacoast of North Carolina.....	Submitted.....				5,000 00
NOTE.—This light would be of great assistance to the many vessels which seek a lee under Cape Lookout. (See Book of Estimates for 1894, page 183.)					
Inside Passage Beacon Lights, Georgia and Florida— Establishing beacon lights in the Inside Passage from Savannah, Ga., to Fernandina, Fla...	Submitted.....				4,000 00
NOTE.—This passage, which runs nearly parallel with the ocean, is largely used in daylight by river steamers and small craft not strong enough to go to sea. The establishment of some twenty-five post lights would make it almost equally navigable by night. (See Book of Estimates for 1894, page 179.)					
Dog River Bar Light-Station, Alabama— Establishing a permanent light-station to mark the Dog River Bar Channel, Mobile Bay...	Submitted.....				20,000 00
NOTE.—The present system of lights is inadequate for running vessels up to Mobile during the night. (See Book of Estimates for 1894, page 177.)					
Escanaba Fog Signal, Michigan— Establishing a fog bell at Escanaba Light-Station, on or near Sand Point, Lake Michigan, Michigan.....	Submitted.....				1,100 00
NOTE.—A fog bell, struck by machinery, at this station would be a valuable aid to navigation. (See Book of Estimates for 1894, page 168.)					

List of light-houses, beacons, and fog signals submitted by the Light-House Board, etc.—Continued.

For what object.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes.			Amount.
		Nol. or R. S.	Page.	Sec.	
<i>Manistique Light-House and Fog Signal, Michigan—</i> Establishing a light-house and fog signal on or near Pointe aux Barques, Lake Michigan, Michigan.....	Submitted.....				\$32,000 00
NOTE.—There is a space of $13\frac{3}{4}$ miles off Pointe aux Barques not covered by any light. (See Book of Estimates for 1894, page 179.)					
<i>Menasha Range Lights, Wisconsin—</i> Establishing range lights on Menasha River, a tributary to Lake Michigan, Wisconsin....	Submitted.....				500 00
NOTE.—The reestablishment of the light which was discontinued and the establishment of another small light will guide vessels through the earth-cut and the rock-cut, which are quite intricate. (See Book of Estimates for 1894, page 173.)					
<i>Portage Lake Light-Station, Michigan—</i> Constructing a keeper's dwelling at or near Portage Lake Pierhead Range, Portage Lake Harbor, Lake Michigan.....	Submitted.....				3,500 00
NOTE.—A dwelling for the keeper of this new light should be erected, as there are but few houses in this vicinity which can be used as quarters. (See Book of Estimates for 1894, page 181.)					
<i>Bodega Head Light and Fog Signal Station, California—</i> Establishing a light and fog signal at or near Bodega Head, California.....	Submitted.....				30,000 00
NOTE.—The stretch of coast between Point Reyes Light-Station and Bodega Head has become notorious as the scene of many wrecks, due to foggy weather and uncertain currents. It is believed that the establishment of a powerful fog signal and a small light will do away with its peculiar danger. (See Book of Estimates for 1894, page 176.)					
<i>Point Pinos Light-Station, California—</i> Purchase of land for landing supplies at Point Pinos Light-Station, entrance to Monterey Harbor.....	Submitted.....				2,000 00
NOTE.—There is at present no sea front to the light-house site. For convenience of landing stores and supplies it is essential that the United States should own a strip between the light-house and the seacoast. (See Book of Estimates for 1894, page 181.)					
<i>Quarry Point Fog Signal Station, California—</i> Establishing a steam fog bell or other fog signal at or near Quarry Point, Angel Island, San Francisco Bay, California.....	Submitted.....				6,000 00
NOTE.—A fog signal at this point would be of great use to mariners. During foggy weather, especially since most of the wheat shipped from San Francisco is loaded at Port Costa, and the deep-water ships are towed there for cargo, a number of vessels have gone ashore near Quarry Point. (See Book of Estimates for 1894, page 170.)					
<i>Mary Island Light-Station, Alaska—</i> Establishing a beacon light at or near Mary Island, Alaska, and maintaining it for one year.....	Submitted.....				800 00
NOTE.—The establishment of an inexpensive light at Mary Island, Alaska—say a lens-lantern beacon—would assist vessels to make the place during the night and hold on. A custom-house has been established here, and hence many vessels have to make it a place of call. (See Book of Estimates for 1894, page 179.)					
Total.....					313,900 00
Aggregate.....					2,108,501 00

APPENDIX P.

*In relation to the estimates for Revenue-Cutter Service. (See page 213.)*TREASURY DEPARTMENT, OFFICE OF THE SECRETARY,
Washington, D. C., September 6, 1893.

SIR: I have the honor to transmit herewith an estimate of an appropriation required for the Revenue-Cutter Service during the fiscal year ending June 30, 1895, in detail, showing, separately, the amount required for pay of officers, rations for officers, pay of crews, rations for crews, clothing for crews, fuel, repairs and outfits, ship chandlery and engineers' stores, and for traveling and contingent expenses, pay of pilots, and commutation of quarters, as required by chapter 410 of the public acts of the Fiftieth Congress of the United States, passed at the second session (25 Stat., 907), and also, in accordance with the same act, herein include a statement showing the authorized number of officers in the Revenue-Cutter Service, their rank and pay, as follows:

36 Captains, at \$2,500 per annum.....	\$90,000
36 First lieutenants, at \$1,800 per annum.....	64,800
36 Second lieutenants, at \$1,500 per annum.....	54,000
26 Third lieutenants, at \$1,200 per annum.....	31,200
10 Cadets, at \$900 per annum.....	9,000
26 Chief engineers, at \$1,800 per annum.....	46,800
26 First assistant engineers, at \$1,500 per annum.....	39,000
26 Second assistant engineers at \$1,200 per annum.....	31,200
222 Officers—annual pay.....	366,000

I also report the number of men constituting the crews of the vessels in the Revenue-Cutter Service:

	Annual wages.		Annual wages.
On vessels on the Atlantic, Pacific, and Gulf coasts:		On vessels on the Atlantic, Pacific, and Gulf coasts—Continued.	
9 Petty officers, at \$50 per month.....	\$5,400	1 Steward, at \$40 per month.....	\$480
1 Petty officer, at \$45 per month.....	540	65 Cooks and stewards, at \$35 per month.....	27,300
4 Petty officers, at \$40 per month.....	1,920	On vessels on the Great Lakes, calculated as in commission	
47 Petty officers, at \$35 per month.....	19,740	eight months in the year:	
51 Petty officers, at \$30 per month.....	18,360	8 Petty officers, at \$35 per month.....	2,240
2 Seamen, at \$65 per month.....	1,560	12 Petty officers, at \$30 per month.....	2,880
20 Seamen, at \$45 per month.....	10,800	4 Seamen, at \$45 per month.....	1,440
5 Seamen, at \$40 per month.....	2,400	7 Seamen, at \$29 per month.....	1,624
2 Seamen, at \$35 per month.....	840	37 Seamen, at \$28 per month.....	8,288
8 Seamen, at \$32 per month.....	3,072	7 Boys, at \$15 per month.....	840
52 Seamen, at \$30 per month.....	16,560	8 Boys, at \$12 per month.....	768
6 Seamen, at \$28 per month.....	2,016	2 Firemen, at \$50 per month.....	800
34 Seamen, at \$26 per month.....	10,608	16 Firemen, at \$35 per month.....	4,480
161 Seamen, at \$25 per month.....	48,300	8 Coal-passers, at \$28 per month.....	1,792
6 Seamen, at \$20 per month.....	1,440	14 Cooks and stewards, at \$35 per month.....	3,920
8 Boys, at \$17 per month.....	1,632		
42 Boys, at \$15 per month.....	7,560	854 Men—total annual pay.....	284,912
38 Boys, at \$12 per month.....	5,472		
2 Firemen, at \$75 per month.....	1,800	Pilots employed on vessels of the Revenue-Cutter Service:	
10 Firemen, at \$50 per month.....	6,000	10 Pilots, at \$109.12½ per month.....	13,095
23 Firemen, at \$45 per month.....	12,420	8 Pilots, at \$100 per month.....	9,600
6 Firemen, at \$35 per month.....	2,520	3 Pilots, at \$100 per month, for eight months.....	2,400
70 Firemen, at \$30 per month.....	25,200	6 Pilots, at \$84.12½ per month.....	6,057
2 Coal-passers, at \$40 per month.....	960	1 Pilot, at \$80 per month.....	960
9 Coal-passers, at \$30 per month.....	3,240	2 Pilots, at \$69.12½ per month.....	1,659
35 Coal-passers, at \$25 per month.....	10,500		
12 Cooks and stewards, at \$50 per month.....	7,200	30 Pilots—total annual pay.....	36,771

The estimate herewith inclosed contains the amounts required for pay of officers, etc., resulting from a calculation based upon the total number authorized at full rates. In the ordinary course of business somewhat less would be required to defray these expenses, as vacancies and difference in pay when officers are on leave or waiting orders would make a considerable reduction, but this amount is so variable that it cannot be accurately calculated, and, therefore, the full amounts stated should be appropriated if separate appropriations are to be made for each particular object of expenditure for the support of this service. The same is true as to the other items which have been separately estimated for when only a reasonable margin for contingencies has been added to the average amount expended in former years.

If but one appropriation is made for the Revenue-Cutter Service, as in former years, it need not be so large as the aggregate of a number of separate ones would be. The usual course of business is such that almost invariably when one class of expenditures is increased another is diminished. When much is done in the way of repairing vessels and large drafts are made on the general appropriation for this purpose, the pay of crews, consumption of fuel, rations, etc., is diminished by the enforced inaction of the vessels, and when comparatively little is required for repairs, the ability of the vessels to perform constant duty will require increased sums for fuel, pay of crews, and general supplies. These changes can not be calculated in advance, but the entire amount required can be quite fairly estimated by comparison with the actual expenditures of previous years. It is therefore respectfully suggested that the appropriation be made as formerly, to wit:

‘Expenses of Revenue-Cutter Service, 1895.—For expenses of the Revenue-Cutter Service: For pay of captains, lieutenants, engineers, cadets, and pilots employed, and for rations for the same: *Provided*, That on and after the passage of this act, the pay of cadets in the Revenue Cutter Service shall be five hundred dollars per annum (\$500), and one ration per day, in lieu of the rates at present authorized by law, chap. 246, par. 4, act July 31, 1876; for the pay of petty officers, seamen, firemen, coal-passers, stewards, cooks, and boys, and for rations for the same; for clothing, to be resold to the enlisted men; for fuel for vessels and repairs and outfits for the same; ship-chandlery and engineers' stores for the same; traveling expenses of officers traveling on duty under orders from the Treasury Department; instruction of cadets; commutation of quarters; for protection of the seal fisheries in Bering Sea and the other waters of Alaska and the interest of the Government on the seal islands and the sea-otter hunting grounds, and the enforcement of the provisions of law in Alaska; to carry into effect the provisions of 'An act relating to the anchorage of vessels in the port of New York,' approved May 16, 1888; contingent expenses, including wharfage, towage, dockage, freight, advertising, surveys, labor, and miscellaneous expenses which can not be included under special heads."

If this is done it is believed that \$985,000 would be sufficient for the fiscal year ending June 30, 1895, in lieu of the aggregate sum of \$1,081,014, as shown in the estimate as transmitted, in which the principal items are separately stated.

Such a separation would greatly increase the clerical labor of accurately keeping the multiplicity of accounts which would be thus created in the authorization and settlement of these expenditures. The increase of labor would occur not only in the office of the Secretary and the accounting divisions of the Treasury, but at every custom-house where the collector is now a disbursing officer for this Service. Collectors of customs are required to render monthly accounts of disbursements under seven different heads, "Revenue-Cutter Service" being one. If the amount required for the proper maintenance of this Service be divided into nine separate appropriations, monthly accounts being required for each, it is not believed that the advantage gained would be at all commensurate with the augmented labor in various localities and consequent increase in clerical force rendered necessary thereby.

Respectfully, yours,

L. G. SHEPARD,
Chief Revenue Marine Division.

Hon. SECRETARY OF THE TREASURY.

APPENDIX Q.

In relation to the estimates for engraving and printing. (See pages 213, 214.)

TREASURY DEPARTMENT, BUREAU OF ENGRAVING AND PRINTING,
October 16, 1893.

SIR: I have the honor to submit herewith an estimate of the appropriations required for labor and expenses, engraving and printing, for the fiscal year 1895. The estimates submitted by the heads of the several Bureaus show that there will be needed in the fiscal year 1895 56,190,285 sheets of securities, stamps, and miscellaneous work, requiring 75,674,198 printings. Of this amount the Treasurer of the United States estimates that 3,850,000 sheets of Treasury notes will be needed, requiring 7,892,500 printings, the cost of which will be paid from the appropriation for the issue of Treasury notes under act of July 14, 1890, leaving 52,340,285 sheets, requiring 67,781,698 printings, to be provided for by specific appropriations for this Bureau.

The estimated cost of the aggregate amount of work which will be required is as follows:

Compensation of employés.....	\$491,419 95
Plate printing.....	565,247 18
Materials and miscellaneous expenses.....	232,009 97
Total.....	1,288,677 10

The estimated cost of the 3,850,000 sheets of Treasury notes which will be charged against the permanent appropriation for that work is \$177,277.10.

The amounts which will have to be provided for by specific appropriations, and for which the estimates herewith are submitted, are as follows:

Compensation of employés.....	\$419,800 00
Plate printing.....	495,400 00
Materials and miscellaneous expenses.....	196,200 00
Total.....	1,111,400 00

Should Congress perfect legislation affecting the issue of Treasury notes under act of July 14, 1890, the estimates of appropriation herewith submitted will necessarily have to be modified in accordance with such legislation.

The aggregate amount of work to be done in 1895, on the basis of the number of printings required, which gives the proper comparison, exceeds the amount proposed to be executed in 1894 a little more than 2 per cent, while the estimated aggregate cost for 1895 is, excluding estimated cost of boiler plant and repairs from the estimate for 1894, \$40,336.63 less than that for 1894. This reduction makes the aggregate cost per 1,000 sheets for 1895 \$23.24, against \$24.51 for 1894, and the aggregate cost per 1,000 printings, \$17.26, against \$18.15 for 1894.

Very respectfully,

Hon. JOHN G. CARLISLE,
Secretary of the Treasury.

CLAUDE M. JOHNSON,
Chief of Bureau.

APPENDIX R.

Detailed estimate for "Pay of assistant custodians and janitors." (Estimate for 1895 on page 226.)

Amount estimated to be required for the "Pay of Assistant Custodians and Janitors, 1895," for the following-named buildings, completed and to be completed prior to June 30, 1895, under the control of the Treasury Department.

APPENDIX S.

In relation to the estimate "Lands and other property of the United States." (See page 227.)

DEPARTMENT OF JUSTICE, OFFICE OF THE SOLICITOR OF THE TREASURY,
Washington, D. C., June 29, 1893.

SIR: By section 3750, Revised Statutes of the United States, it is provided that—

"The Solicitor of the Treasury shall have charge of all lands and other property which have been or may be assigned, set off, or conveyed to the United States in payment of debts, and of all trusts created for the use of the United States in payment of debts due them; and of the sale and disposal of lands assigned or set off to the United States in payment of debts, or vested in them by mortgage or other security for the payment of debts: *Provided*, That this section shall not apply to real estate which has been or shall be assigned, set off, or conveyed to the United States, in payment of debts arising under the internal-revenue laws, nor to trusts created for the use of the United States, in payment of such debts due them."

By section 3749, Revised Statutes of the United States, it is provided that—

"The Solicitor of the Treasury is authorized, with the approval of the Secretary of the Treasury, to rent, for a period not exceeding three years, or to sell, at public sale, any unproductive lands, or other property of the United States acquired under judicial process or otherwise in the collection of debts, after advertising the time, place, and conditions of such sale for three months preceding the same in some newspaper published in the vicinity thereof, in such manner and upon such terms as may, in his judgment, be most advantageous to the public interest."

To properly discharge the duties thus devolved upon this office it is necessary that there should be a fund available from which may be paid the expense of investigating the title, procuring abstracts, auctioneers' fees, advertising, etc. Until within the last year or two Congress has annually for a number of years past appropriated for this purpose under the head of "Lands and other property of the United States" the sum of \$500 or more. The lack of an appropriation since the fiscal year 1892 has caused much inconvenience and has to some extent prevented the due execution of the duties with which this office is charged by the statutes referred to.

I therefore have the honor to recommend that an estimate of not less than \$500 for the purposes named for the fiscal year to end June 30, 1895, be included in the forthcoming Book of Estimates of the Treasury Department.

Very respectfully,

F. A. REEVE,
Solicitor.

Hon. SECRETARY OF THE TREASURY.

APPENDIX T.

In relation to the estimate for "Maintenance of Garfield Hospital." (See page 230.)

THE GARFIELD MEMORIAL HOSPITAL,
Washington, D. C., June 16, 1893.

SIR: In the absence from this country of Mr. Justice John M. Harlan, president of the Garfield Memorial Hospital, I have the honor to request, on behalf of the directors of that institution, that you will include in your estimates to be submitted to Congress for the fiscal year ending June 30, 1895, the following item:

"*The Garfield Memorial Hospital.*—For maintenance, to enable it to provide medical and surgical treatment to persons unable to pay therefor, \$25,000."

For several years prior to last year Congress made an annual appropriation of \$20,000 for this purpose. Last year the directors asked that the amount be increased to \$25,000, because during the year the demands upon the hospital for the class of patients provided for in the appropriation had so largely increased that a new building, doubling the capacity of the hospital, was erected, finished, and completely equipped. Congress, however, instead of granting the increase, cut the appropriation down to one-half the amount asked for, namely, \$12,500.

In addition to the new building just spoken of there is now in process of construction on the hospital premises another and larger building, providing accommodations for the house staff and forty nurses and pupil nurses, at a cost to the institution of \$50,000.

The whole expense of maintenance is double the amount asked for, the difference being made up by voluntary contributions and by payments by a few patients who are able to bear a part of the expense of their care and treatment.

The demands upon the hospital are greater now than ever before, and there is every reason to believe that they will be greater still.

This is a *General Hospital*, untrammelled by limitations as to sex, age, color, form of disease, residence, or nationality. It is open to all.

The patients come not only from the District of Columbia, but also from many of the States of the Union, and include a large proportion of clerks, mechanics, housewives, etc., who are not paupers, but who are, nevertheless, too poor to pay for hospital relief when unable to pursue their occupations by reason of disease or injury.

The entire plant of the hospital, including grounds, buildings, machinery, furniture, and equipment, has been paid for without the aid of any appropriation by Congress.

The board of directors through its executive committee, and the Ladies' Aid by its visiting committees, keep constant supervision of every detail of the hospital work, and in every expenditure the closest economy is exercised. Accounts for all expenditures under this appropriation, with proper vouchers, have been submitted to you, and these are finally audited and settled by the accounting officers of the Treasury. These vouchers show the absolute need of the aid requested and the manner in which the money appropriated has been applied.

The fullest inspection of the hospital by you is cordially and earnestly invited.

I have the honor to be, your obedient servant,

Hon. DANIEL LAMONT,
Secretary of War.

H. A. WILLARD,
Vice-President.

APPENDIX U.

Statement composing items of estimate of appropriation for the United States Infantry and Cavalry School for the fiscal year ending June 30, 1895. (Estimate on page 231.)

Department of Engineering:

Purchase of:	
One aneroid barometer.....	\$20 00
Three surveyor's compasses.....	90 00
Eighteen box compasses, Government pattern.....	63 00
Six prismatic compasses.....	52 50
Nine clinometers, Abney's.....	135 00
Two Y-levels.....	100 00
Two New York rods.....	32 00
Two plane tables, complete, with tripod.....	150 00
Twelve protractors.....	36 00
Ten range poles.....	25 00
One transit, with Saegemuller solar attachment.....	226 00
Thirteen triangular scales, metal.....	39 00
One sextant, hydrographic.....	100 00
Two artificial horizons with mercury.....	78 00
Three pocket sextants.....	127 50
Three tape measures, linen.....	11 70
Three range finders, Weldon.....	45 00
Three range finders, Pratt.....	45 00
Three range finders, Labbez.....	49 50
Three range finders, Souchier.....	27 00
Six chains, steel, surveying.....	66 00
Six Gabion knives.....	6 00
Three sets pins, surveying.....	4 50
	<hr/>
	1,528 70
Purchase of necessary tools and materials for field engineering, and for repair and preservation of engineering instruments.....	100 00
Purchase of text-books, books of reference, purchase and binding of professional and scientific works for the instruction of student officers, and for professional and scientific papers, periodicals, etc., maps, drawing materials, stationery, office and section room furniture, and for the other necessary expenses of the school.....	2,971 30
Purchase of one stereotype outfit, type, and printing material required to properly equip printing office.....	400 00
	<hr/>
Total.....	5,000 00

E. F. TOWNSEND,
Colonel Twelfth Infantry, Commandant.

APPENDIX V.

In relation to the estimate for "Artillery School, Fort Monroe, Va." (See page 231.)

Department of Artillery:	
Purchase of books, periodicals, works of reference, etc.....	\$130 00
Chemical Laboratory:	
Purchase of chemical apparatus.....	125 00
Purchase of chemicals.....	200 00
	<hr/>
Total.....	325 00
Electrical Department:	
Electrical instruments and material for instruction purposes.....	1,800 00
Maintenance of lines and batteries, and material for repairs and operation of same.....	130 00
	<hr/>
Total.....	1,930 00
Department of Steam and Mechanism:	
Purchase of text and reference books, plates, etc.....	220 00
Purchase of machinery and machine tools for instruction purposes.....	365 00
	<hr/>
Total.....	585 00
Repair shops:	
Purchase of material and necessary tools for metal and carpenter work for the repair and preservation of engineering, electrical, and artillery apparatus in the use of the several departments of the school, etc.....	350 00
Department of Engineering:	
Purchase and repair of instruments, for the purchase of drawing material, text and reference books, maps and plans, for the instruction of officers in military engineering, and for current expenses.....	135 00
Artillery School Library:	
Purchase of professional and scientific works for the instruction of student-officers, and for professional and scientific papers, periodicals, etc..	500 00
Department of Military Science:	
Purchase of text books and pamphlets, occasional publications, maps and books of reference, etc.....	200 00
Secretary of the staff of the United States Artillery School:	
Printing current papers and instruction manuals, including papers, inks, and printing material, etc.....	325 00
Lithographic material, etc.....	100 00
Binding books, papers, instruction manuals, and preservation of professional library, such as leathers, cloth for covers, and mounting maps, gilding, thread, and other bookbinding material, etc.....	230 00
	<hr/>
Total.....	655 00
Division for Noncommissioned Officers:	
Purchase of text-books in mathematics, surveying, mechanical engineering, and electricity, for instruction purposes.....	125 00
To enlisted men for extra-duty pay in scientific departments, at not more than 50 cents per day:	
One printer in charge of printing office, lithographic office, bookbinding, and Artillery School records, one clerk, two printers, one book-binder, one lithographer, one machinist, one engineer, one fireman, one carpenter, two laborers in electrical department, one assistant in charge of surveying and engineering instruments, one chemist, one photographer, one assistant librarian, and one janitor, at \$5 per month.....	2,438 60

RECAPITULATION.

Department of Artillery.....	\$130 00
Chemical Laboratory.....	325 00
Electrical Department.....	1,930 00
Department of Steam and Mechanism.....	585 00
Repair shops.....	350 00
Department of Engineering.....	135 00
Artillery School Library.....	500 00
Department of Military Science.....	200 00
Secretary of the staff of the United States Artillery School (printing, lithographing, and binding).....	655 00
Division for Noncommissioned Officers.....	125 00
Extra-duty pay, etc.....	2,438 60
Total.....	7,373 60

ROYAL T. FRANK,
Lieutenant-Colonel Second Artillery, Commandant.

Estimate reduced by Secretary of War to \$5,000.

APPENDIX W.

Explanation to accompany the estimates of the National Home for Disabled Volunteer Soldiers for the fiscal year ending June 30, 1895. (See pages 232 to 234.)

HARTFORD, CONN., October 10, 1893.

On June 30, 1893, the roll of the National Home for Disabled Volunteer Soldiers showed an increase of 465 members over that of June 30, 1892. But since that date there has been an abnormal rush to the home, so that on September 20, 1893, the number present was 1,303 greater than it was on the same date a year previous. Notwithstanding this fact, the board has made the estimate for the next fiscal year on the basis of the appropriations for maintenance for the current year, except in the cases of the two new branches, the Pacific and Marion, and some few other instances in the older branches where new constructions are necessary in the opinion of the board, and where new buildings require larger expenditures for heating, and in one case for water supply.

Central Branch (near Dayton, Ohio).—The average number present one year for the fiscal year ending June 30, 1893, is 4,534. That for the year ending June 30, 1892, was 4,548, a falling off of 14. But the number present on September 30, 1893, was 4,813, an excess of 324 above the number present on the same date in 1892. The board has increased the estimate for household from \$87,517.59 to \$90,611.84, the amount required for heating the buildings having been found inadequate.

Northwestern Branch (near Milwaukee, Wis.).—The average number present one year for the fiscal year ending June 30, 1893, is 2,012. That for the fiscal year ending June 30, 1892, was 1,976, an increase of 36.

An increase in the appropriation for household from \$56,950 to \$61,950 is asked for the following reason:

The Branch has been supplied with water from two artesian wells, which have given out and can not be replaced. The city of Milwaukee asks \$5,000 to supply the home with water, and the amount is not unreasonable.

For several years in succession the board has estimated for a sum sufficient to place the boilers in use at this Branch in a position of safety, to renew the old boilers, and to make the necessary connections between the boilers and the buildings of the Branch. It has estimated again for this work, after much consideration, and with regret that it finds such an estimate necessary in the present depleted state of the Treasury. It has seen from year to year the increasing necessity for the expenditure, and can not longer take the responsibility of allowing the danger to exist without urging the necessity for an appropriation of the amount estimated.

The governor of the Branch wrote on July 13: "I desire to call your attention to the desirability of assembling the steam boilers under one roof, both as a matter of economy and safety. A number of the boilers now in use are getting old, and to insure perfect safety it will soon be necessary to replace them with new ones. Located as they are, they are a constant menace to life in case of accident. I inclose a statement from Chief Engineer Hickman regarding the plant." Mr. Hickman is in charge of the whole engineering apparatus for the Branch, and the following is his statement:

"Most of the boilers have been in operation several years, and in consequence of their limited capacity they have been overtaxed and show the effects of long service. We have no reserve space in the separate boiler rooms to set other boilers, and in event of one of them giving out we would be in bad shape. The present cost per year is for—

Fuel.....	\$29,600 00
Labor.....	4,450 00
Total.....	34,050 00

"In the absence of a central boiler plant, when new barracks have been erected from time to time, the boilers have been placed under them. Of the fourteen boilers now in operation five, by their location and high pressure necessary for power, jeopardize life.

"The proposed site for central boiler and engine room is 400 feet south of Company F barracks and east wing of hospital. The north side of plant being 50 feet south of railroad track, a side track could be run to the coal shed and the coal deposited in one place instead of being carted a distance of 5 miles and deposited at the different plants.

"The cost of assembling and establishing a central plant is estimated at \$34,500. The cost of running the plant, when assembled, would be a reduction of about \$2,000 on the present cost."

After inspection the foregoing is sustained by the report of the assistant inspector-general.

The board has examined the drawings and estimates and believes that the amount estimated, as given below and in the estimate for the Branch, is economical and proper.

Northwestern Branch (submitted).—

Building for central boiler plant, including coal sheds and smokestack.....	\$16,900 00
Steam boilers in place.....	9,400 00
Water heater.....	1,000 00
Tunnel for connection with main building, hospital, and barracks.....	5,400 00
Excavation.....	1,800 00

Eastern Branch.—Average number present for fiscal year ending June 30, 1893, 1,606. Average number present for fiscal year ending June 30, 1892, 1,533; an increase of 73. No change in the appropriation for maintenance is asked.

The board investigated the condition of the boilers in use and their location. It found them under the kitchen in danger of fire, necessitating a difference of level between kitchen and dining room. The railroad track for carrying coal to the boilers is a constant source of danger to the disabled men, who have to be watched to guard them from accident. It is proposed to remove the boilers, engines, and other machinery to an isolated structure to be built, and to place the railroad tracks where there will be the least danger. The board considers that the danger from fire is so great as to constitute this an exceptional case, and respectfully recommends that the sum of \$5,000 be appropriated, as contained in the estimate.

Southern Branch.—Average number present for the fiscal year ending June 30, 1893, 2,729. Average number present for the fiscal year ending June 30, 1892, 2,670, an increase of 59. No change in the appropriation for maintenance is asked, except an increase of \$7,500 under the head of household, for expense of additional water supply. This supply has always been inadequate, and during the last summer all fresh-water bathing and washing of clothes had to be suspended for want of water. A contract, subject to the appropriation by Congress, has been made with a responsible company to supply this want at the rate of \$7,500 per annum, a reasonable price.

Western Branch.—The average number present for the fiscal year ending June 30, 1893, is 2,039. The average number present for the year ending June 30, 1892, was 2,044, a falling off of 5. No change in the appropriation for maintenance is desired.

Pacific Branch.—The average number present for the fiscal year ending June 30, 1893, is 818. The average number present for the fiscal year ending June 30, 1892, was 652. Increase, 166. The amount appropriated for this Branch for the year ending June 30, 1894, is not sufficient for the requirements of the Branch, and the membership must be kept down in consequence. But taking it for granted that the average number present will increase in the coming year as much as it has in the year just ended, which is entirely probable, the year for which this estimate is made will begin with a membership of 984, and the amount estimated for is less per capita than that appropriated for the current year.

Marion Branch.—The average number present for the year ending June 30, 1893, is 920. The average number present for the year ending June 30, 1892, was 770. The increase is 150. The same remarks as to the appropriation for the maintenance of this Branch for the year just passed apply to the Pacific Branch, and for several months of that year all applications for admission were denied on account of want of funds. The appropriation estimated for the year 1894-'95 is \$178,511.08, \$14,335.70 in excess of that for the current year, but \$12,248.12 less than it would be at the same rate per capita as that of the same year.

The crowded state of this Branch on September 30 last, the average increase being 160 since June 30, involving a near approach to the time forbidding more admissions, every corner of the barracks being full, has induced the board to submit an estimate of \$5,000 for two additional barracks, which will be needed long before they can be erected.

Outdoor relief and incidental expenses.—The appropriation for the current year is \$30,000, less by \$5,000 than that for the preceding year. It is respectfully asked that the amount cut off be restored.

This appropriation is more heavily drawn upon each year by expenses incidental to the increased number of members of the Home, increased number of members of the Board of Managers, and increased distances required to be traveled by them. The statement of expenditures of the appropriation forwarded with this, immediately following, shows the truth of this claim.

It is suggested by the Second Comptroller of the Treasury that, as the salaries of the officials of the Board of Managers are paid from this item, the word "salaries" should be added to the title.

State or Territorial Homes.—No change is asked in this appropriation. The average number of members who were kept a year at these homes in the fiscal year ending June 30, 1893, is 5,504. The average number of members who were kept a year at these homes in the fiscal year ending June 30, 1892, was 5,330, an increase of 174. The same increase during the coming year will absorb the whole amount estimated.

W. B. FRANKLIN,
President Board of Managers, National Home for Disabled Volunteer Soldiers.

Statement of expenditures, outdoor relief, and incidental expenses, National Home for Disabled Volunteer Soldiers, year ending June 30, 1893.

Traveling expenses, attending meetings, and official visits to Central, Northwestern, Eastern, Southern, Western, Pacific, and Marion Branches Board of Managers, viz:

Compensation and allowances of officers, members, and employes of the Board of Managers, National Home for Disabled Volunteer Soldiers.

President, traveling and other actual expenses incurred while upon the business of the Home.

First vice-president, traveling and other actual expenses incurred while upon the business of the Home.

Second vice-president, traveling and other actual expenses incurred while upon the business of the Home.

Treasurer, who is also president of the board, \$1,000 and expenses as above.

Secretary, a member of the board, \$2,000 and expenses as above.

Managers are allowed traveling and other actual expenses incurred while upon business of the Home, and, at request, clerks, pay not to exceed \$100 per annum.

Inspector-general, \$3,000 per annum and traveling and other actual expenses incurred while upon business of the Home.

Medical director and inspector, \$5,000 per annum and traveling and other actual expenses incurred while upon business of the Home.

Assistant inspector-general (financial), \$2,500 per annum and traveling and other actual expenses incurred while upon business of the Home.

Assistant inspector-general (State homes), \$2,500 per annum and traveling and other actual expenses incurred while upon business of the Home.

Consulting engineer (temporary), \$250 per month and traveling and other actual expenses incurred while upon business of the Home.

Clerks, president's office, one at \$1,500 per annum and three at \$1,000 per annum.

Messenger, president's office, one at \$144 per annum.

Managers' clerks.

Gen. W. J. Sewell, first vice president, one at \$400 per annum.

Maj. E. N. Morrill, one at \$360 per annum.

Maj. A. W. Barrett, one at \$400 per annum.

Agents.

Boston, Mass., \$55 per month.

Chicago, Ill., \$50 per month and \$20 per month for rent and \$5 per week for typewriter.

New York, N. Y., \$50 per month and \$16 per month for rent.

Washington, D. C., \$50 per month and \$12 per month for messenger.

Compensation and allowances of the Branches, National Home for Disabled Volunteer Soldiers. (Each officer is allowed quarters, fuel, light, and, in some cases, forage for horses, but no commutation therefor. There are no allowances for contingent or other expenses.)

APPENDIX Y.

In relation to the estimates for expenses of United States courts and other miscellaneous expenses under the Department of Justice.
(See pages 239 to 242.)

DEPARTMENT OF JUSTICE,
 Washington, D. C., October 14, 1893.

SIR: Referring to Department letter that accompanied the estimates submitted for defraying the expenses of the United States courts for the fiscal year ending with June 30, 1895, I would respectfully request that the following statement be printed in the Book of Estimates in explanation of the estimates:

The estimates are the probable expenses of the whole fiscal year 1895, not for six months of that year or any other part of it. It is understood that the Committee on Appropriations in each branch of Congress desires a statement in the meaning of the section 3660, R. S., requesting the head of a Department to communicate the sources from which the estimates are derived, the calculations upon which they are founded, discriminating between those which are conjectural and those that are framed upon actual information of disbursing officers.

In compliance therewith, I respectfully submit that the estimates for 1895 are grounded upon prior appropriations mainly.

Appropriations.	Estimates for 1895.
Fees and expenses of marshals	\$1,211,925 00
For 1892.....	\$675,000 00
Deficiency appropriation, July 28, 1892.....	250,000 00
Deficiency appropriation, March 3, 1893.....	286,925 00
	1,211,925 00
Fees of United States attorneys.....	350,000 00
For 1892.....	255,000 00
Deficiency appropriation, July 28, 1892.....	65,000 00
Deficiency appropriation, March 3, 1893.....	30,000 00
	350,000 00
Special compensation of United States attorneys.....	13,500 00
For 1892.....	5,000 00
Deficiency appropriation, July 28, 1892.....	3,563 86
Deficiency appropriation, March 3, 1893.....	5,000 00
	13,563 86
Fees of regular assistant United States attorneys.....	125,000 00
For 1892.....	125,000 00
For 1893.....	100,000 00
For 1893.....	21,000 00
	121,000 00
An appropriation of \$100,000 does not meet all the needs of the Department. This amount is not to be gauged by the business of the attorney's office altogether, as represented in his official fees. Other considerations, at times, must govern. An assistant attorney usually earns, in a term of court, more than double his salary for that time in attending upon the grand jury. The sum of \$125,000 is really needed.	
Fees of special assistant United States attorneys.....	35,000 00
For 1891.....	\$30,000 00
Deficiency appropriation, July 28, 1892.....	7,461 76
Deficiency appropriation, March 3, 1893.....	100 00
	37,561 76

Appropriations.	Estimates for 1895.
Fees of special assistant United States attorneys—Continued.	
For 1892.....	\$35,000 00
Deficiency appropriation, March 3, 1893.....	8,477 93
	<u>43,477 93</u>
For 1893.....	20,000 00
Deficiency appropriation.....	7,937 00
	<u>27,937 00</u>
With the suits that may extend into the fiscal year 1895, under the legislation of Congress, to institute actions, etc., the Department can not expect to get on with less than the sum of \$35,000. In all probability more than this sum will be needed. It will be near \$45,000.	
Fees of clerks.....	\$268,000 00
For 1892.....	\$175,000 00
Deficiency appropriation, July 28, 1892.....	45,000 00
Deficiency appropriation, March 3, 1893.....	50,000 00
	<u>270,000 00</u>
For 1893.....	175,000 00
Deficiency appropriation, March 3, 1893.....	93,000 00
	<u>268,000 00</u>
Fees of commissioners.....	265,000 00
For 1892.....	100,000 00
Deficiency appropriation, July, 1892.....	91,196 43
Deficiency appropriation, March, 1893.....	65,000 00
	<u>266,196 43</u>
For 1893.....	100,000 00
Deficiency appropriation, 1893.....	165,000 00
	<u>265,000 00</u>
Fees of jurors.....	650,000 00
For 1892.....	650,000 00
For 1893.....	600,000 00
Deficiency appropriation, 1893.....	25,000 00
	<u>625,000 00</u>
There will be a deficiency, as the appropriation is exhausted at this date.	
Fees of witnesses.....	1,150,000 00
For 1892.....	1,000,000 00
Deficiency appropriation, 1892.....	150,000 00
	<u>1,150,000 00</u>
For 1893.....	750,000 00
Deficiency appropriation, 1893.....	400,000 00
	<u>1,150,000 00</u>
Support of prisoners (see marshals' estimates below).....	575,000 00
For 1892.....	375,000 00
Deficiency appropriation, 1892.....	125,000 00
Deficiency appropriation, 1893.....	61,357 83
	<u>561,357 83</u>
Rents.....	85,000 00
For 1892.....	50,000 00
Deficiency appropriation, 1892.....	20,000 00
Deficiency appropriation, 1893.....	16,000 00
	<u>86,000 00</u>
Bailiffs.....	190,000 00
For 1892.....	135,600 00
Deficiency appropriation, 1892.....	27,000 00
	<u>162,600 00</u>
For 1893.....	135,600 00
Deficiency appropriation, 1893.....	40,000 00
	<u>175,600 00</u>

ESTIMATES OF APPROPRIATIONS.

Appropriations.	Estimates for 1895.
To which is to be added the per diem of the circuit court of appeals.	
Miscellaneous expenses.....	\$225, 000 00
For 1892.....	\$150, 000 00
Deficiency appropriation, 1892.....	33, 000 00
Deficiency appropriation, 1893.....	55, 000 00
	238, 000 00

The marshals for the judicial districts, save one, have furnished their estimates of expenses of the fiscal year 1893, and probable estimates of expenses of the fiscal year 1894, under the appropriations disbursed by them, in whole or in part, which amount to :

	1893.	1894.
Jurors	\$612, 772 20	\$697, 687 35
Witnesses.....	1, 170, 397 15	1, 217, 316 18
Prisoners	556, 706 46	588, 492 04
Bailiffs.....	165, 607 97	194, 603 18
Miscellaneous.....	148, 734 47	164, 051 15

The marshals' estimates for 1894 have been revised and approved by the United States judges and United States attorneys, and have been considered in making up the estimates for 1895.

Appropriated.	Estimates for 1895.
Defending suits, Court of Claims	\$30, 000 00
For 1892	\$25, 000 00
	6, 321 80
	1, 132 80
	32, 454 60
Intercourse acts	5, 000 00
For 1892.....	5, 000 00
For 1893.....	5, 000 00
Prosecution of crimes	35, 000 00
For 1892.....	35, 000 00
For 1893.....	35, 000 00
For 1894.....	35, 000 00
Territorial courts, Utah.....	70, 000 00
For 1892.....	40, 000 00
	25, 000 00
	1, 601 79
	66, 601 79
For 1893, August 5, 1892.....	35, 000 00
March 3, 1893.....	35, 000 00
	70, 000 00
Traveling expenses, Alaska	1, 000 00
For 1892.....	1, 000 00
For 1893.....	500 00
	500 00
	1, 000 00
Rents, etc., Alaska.....	1, 200 00
For 1892.....	500 00
	697 27
	1, 197 27
Indian depredation claims.....	35, 000 00
For 1893.....	25, 000 00
	10, 000 00
	35, 000 00

It is proper to add that the following figures show what have been the total expenses of the United States courts in the years 1891, 1892, and 1893, so far as they were ascertained at the time the estimates were made :

Expenses of courts, 1891.....	\$4, 992, 195 64
Paid in 1891.....	\$4, 039, 875 37
Paid in 1892.....	444, 461 74
Paid in 1893.....	507, 858 53
	<hr/> 4, 992, 195 64 <hr/>
Expenses of courts, 1892.....	4, 979, 002 89
Paid in 1892.....	3, 748, 239 08
Paid in 1893.....	1, 230, 763 81
	<hr/> 4, 979, 002 89 <hr/>
Expenses of courts, 1893.....	4, 528, 676 87
Paid in 1893.....	4, 528, 676 87
Estimated expenses of courts, 1895.....	5, 143, 425 00

If the fiscal year 1891 be adopted as more reliable for the method of making estimates, it will be seen that the estimates for the fiscal year 1895 exceed the actual expenses incurred for 1891 by \$151, 229.36.

Very respectfully,

RICHARD OLNEY,
Attorney-General.

APPENDIX Z.

In relation to the estimates for the District of Columbia. (See pages 245 to 260.)

OFFICE OF THE COMMISSIONERS OF THE DISTRICT OF COLUMBIA,
Washington, October 26, 1893.

SIR: The Commissioners of the District of Columbia herewith transmit their estimate of appropriations for the support of the government of said District for the fiscal year to end June 30, 1895, amounting to \$6,701,079.23, payable out of the general revenues, and \$265,083.93, payable out of the revenues of the water department.

Accompanying these estimates of expenditures are statements of estimated receipts of the District government, exclusive of the receipts of the water department, for said period, a memorandum of the reasons for submitting new or changed items compared with the appropriations for the support of the said government for the current fiscal year, and schedules of proposed work on sundry streets, avenues, and roads embraced in these estimates.

Following the custom observed in submitting the annual estimates for District expenditures since the establishment of the present form of government for the District, the Commissioners have confined the estimate of expenditures within the amount of estimated receipts. They are not aware of any law which requires them to so limit their estimate of expenditures, but they have thought it advisable to conform to the usage in the premises.

The estimated appropriations are \$228,401.79 less than the estimated receipts, exclusive of the water department, but the Commissioners have not included in their estimates the amount that will be necessary to pay the fourth installment on the District's share of the expense on account of Rock Creek Park, as required by act of September 27, 1890 (U. S. Stats. at Large, Vol. 26, page 495), and the amounts to pay the salaries of the justices of the supreme court of the District of Columbia and the justices of the court of appeals of the District of Columbia, one half of which are made payable from the revenues of the District by the act of February 9, 1893 (U. S. Stats. at Large, Vol. 27, page 436). Although the Commissioners are not required by law to estimate for these purposes, they have endeavored to comply with the manifest intent of the law by leaving a sufficient balance of their estimated receipts to cover those obligations.

The estimates herewith submitted do not, in the judgment of the Commissioners, embrace all the items necessary for the proper administration of the District government for the period they are intended to cover, hence, while adhering to precedent, they deem it their duty to add to these estimates a supplemental statement regarding certain public works whose execution can not further be delayed without serious prejudice to the public interests, and they earnestly desire these supplemental statements to be considered by Congress for the fiscal year for which these estimates have been prepared.

The delay, which the Commissioners regret, in the submission of these estimates was due to the fact that the principal basis of the estimated receipts was the footings of the general assessments as revised under the provisions of the act of August 5, 1892, which have only recently been furnished.

Very respectfully,

JOHN W. ROSS,
President Board of Commissioners District of Columbia.

Hon. JOHN G. CARLISLE,
Secretary of the Treasury.

Memorandum of estimated receipts of the government of the District of Columbia for the fiscal year to end June 30, 1895, and reasons for recommended changes in the estimates for appropriations herewith submitted.

ESTIMATED RECEIPTS.

The Commissioners of the District of Columbia estimate that the receipts of the government of said District from sources other than the proportionate contribution by the United States and the revenues of the water department, will be \$3,464,740.51. The estimate of the receipts from sources other than the United States is based upon the estimate of the assessor, herewith inclosed, amounting to \$3,459,740.51, and \$5,000 estimated as the probable surplus of fees received by the recorder of deeds and the register of wills after deducting their office expenses. The Commissioners are officially advised that this surplus for 1893 was about \$6,500.

CHANGES IN APPROPRIATIONS.

Executive office.—A librarian is asked for to enable the Commissioners to arrange and index the municipal reports of other cities and other manuscripts in the documents in their charge; also to put in order the records of former governments in the District in order that they may be convenient for ready reference. The importance of these old records has frequently been presented to Congress and increases with time.

The \$240 submitted as an increase in the salary of the stenographer and typewriter is to make the salary in some degree commensurate with the service rendered. The labor performed by the incumbent of this office is equal in quantity and quality to that of any clerk in the District employ.

The additional assistant inspectors of buildings are absolutely necessary for the proper supervision of the building business of the District. The inspector of buildings reports that it is impossible to control and supervise the construction of buildings with the present force; that the labor of numbering and renumbering houses occupies at least one-third of the time of the present assistants. In his opinion at least four more inspectors should be appointed to provide, as far as possible, against defective construction.

The increase of \$200 submitted in the salary of the architect and draftsman is a renewal of a recommendation which has been made a number of times. The officer in whose behalf it is proposed designs and supervises all plans for District buildings, issues all building permits, and is a person of the highest technical qualifications for the business.

The \$62 submitted for increase of laborer's pay is to make the pay of the three laborers alike, as they render similar service.

The \$300 increase recommended for the clerk in the property clerk's office is to suitably pay an officer for his work and responsibility, and the same reasons apply to the increase of \$180 submitted for another clerk in the same department.

The item for engineer, watchman, and deckhand to the harbor boat is submitted in compliance with the provision of law, which requires that persons now paid out of lump appropriations shall be estimated for in detail.

Assessor's office.—The increase of \$200 recommended in the office of one of the assistant assessors is a well-earned recognition of valuable service. The same reason applies to the \$300 increase recommended in the salary of the special assessment clerk.

The six clerks and two bill-servers estimated for in the special assessment division are to place on the regular roll a class of officials who are now paid by the day out of the appropriation for permit work.

The additional \$1,200 clerk in the assessor's office is necessary to keep pace with the gradual increase in the business of the office.

The increase of \$200 in the salary of the license clerk and the \$100 in the salary of the assistant license clerk are designed as recognition of competent work and attention to duty, and believed to be in the interest of good service.

Collector's office.—The provision for deputy collector is a renewal of recommendations made in former estimates, and is absolutely necessary for the proper conduct of the business of the collector's office, the collections of which now approximate \$3,000,000 per annum besides the custody of certain trust funds and temporary deposits.

The additions of a cashier and bookkeeper are recommended to meet the growing demands of the office.

The two bailiffs are estimated for in compliance with the requirement of law. One of them has heretofore been paid out of the appropriation for collecting personal taxes in arrears. The other is a new officer. The present bailiff was principally instrumental in collecting during the fiscal year ended June 30, 1893, \$7,790.41 personal tax and \$2,038.64 penalty thereon, which were in arrears. This would seem to justify the continuation of the service. The collector of taxes is of the opinion that the extension of this means of collection would result in a corresponding increase in the revenues from this source.

Auditor's office.—The two \$1,000 clerks asked for in this office are needed to perform work due to the growth of the business, which has increased in some branches nearly 100 per cent since 1885, while the official force engaged is less in numbers than it was then. The delay necessarily resulting from the present inadequate force is a source of great annoyance to the authorities and inconvenience to the public. The audit of the collector's accounts is incomplete for this reason also.

The increase of \$125 for the disbursing clerk is intended to compensate him for the expenditure he is obliged to make as a premium to secure the guarantee of a company as surety on his bond. Unless this allowance is made it will practically be a reduction in his salary, as the net amount he now receives is less than that paid him before his appointment to this office.

Sinking-fund office.—The increase in the clerical force of this office is submitted in pursuance of recommendations of the Treasurer of the United States, who is *ex officio* commissioner of the sinking fund. The Commissioners have no doubt that these advances are well deserved as a recognition of personal service and commendable in the public interest.

Engineer department.—The increase in certain estimates of works of the engineer department is submitted as necessary in view of the present and prospective growth of the District. An increase of salaries in a few cases is submitted as just to the employes concerned and for the advantage of the public. A list of specific appropriations is submitted for employes now on per-diem rolls, but whose service is and should be continuous.

Superintendent of charities.—A clerk for the superintendent of charities is estimated for as absolutely necessary to the proper conduct of that office.

Contingent fund.—The addition of \$6,000 for the general contingent fund is needed to meet the growing demands for which this fund is intended to provide. Several of the offices to which this fund is apportioned only avoided deficiency by keeping their expenses far within the amount necessary to keep up the service of their department. Nearly all of the market houses, the repairs of which must be paid for from this fund, are in a deplorable condition of dilapidation from lack of means to keep them in repair, and a large proportion of the proposed increase would be devoted to that end, although the whole of it would not suffice to put these buildings in proper order.

Rent of District offices.—The \$400 increase estimated for this purpose is to enable the Commissioners to comply with an understanding between their predecessors in office and the lessor of the building in which the municipal offices are located, that they would apply to Congress for the means to pay a rental of \$4,000 a year.

Rent and care of property yards.—The \$200 addition submitted for this purpose is to provide for the better care of these yards.

Coroner's office.—The increase of \$225 is to allow for a more liberal expenditure for ice and to provide disinfectants, towels, basins, etc., for the morgue; to allow for a greater number of autopsies and inquests, dependent upon the growth of the city and the introduction of cable and electric cars and other agencies increasing the liability to death from accident or violence, and to provide for the employment of a deputy coroner during the absence or disability of the coroner.

General advertising.—The increase of \$3,100 asked for under this head is to provide for the advertisement of unpaid special assessments. The proceeds of these special assessments are pledged for the redemption of certain certificates of indebtedness through the Treasurer of the United States, and under the law the Commissioners are obliged to advertise for sale, whenever requested by the Treasurer of the United States, the property delinquent in the premises. The Treasurer has made such demand, but the Commissioners have no funds out of which to provide the necessary payment.

Advertising notices of taxes in arrears.—The increase of \$2,000 in this item will be necessary to meet the indebtedness that will be incurred in complying with the law on the subject. The bills rendered for this service on account of the sale of taxes in arrears on July 1, 1892, were \$11,612.66. The expenses on the same account for 1894 will in all probability considerably exceed that amount. The appropriations on this account have for the past several years been one year behind, hence the appropriation for 1893 will have to be provided for in a deficiency bill. The tax sales occur three weeks after the third Tuesday in March of each year.

Additions to Georgetown market house.—These the inspector of buildings reports are necessary at once to provide against disaster. The front part of the building is in a very insecure condition. It is proposed to remove a greater portion of it and reconstruct it to conform to the back building.

Sprinkling, sweeping, and cleaning.—The street and alley cleaning department is now sweeping at the rate of 250,000,000 square yards per annum, at a cost of \$60,000. It is proposed that 230 streets now being cleaned but once a week be swept twice a week. The area of surface of these streets is 2,343,814 square yards. Fifty-two sweepings would give 121,888,326 square yards, at a cost of \$29,557.91, which, added to the \$60,000 as above, makes the item of \$90,000 asked for sweeping. The \$90,000 includes the cost of removing snow and ice, which reached the sum of \$4,333.48 last winter. It also includes the cost of horse hire for the inspectors engaged in the street-sweeping branch of the service.

The item of \$15,000 for improved alleys is based chiefly on the fact that the contract price for 1894 is 53½ cents per 1,000 square yards, as against 33 cents for the fiscal year ended June 30, 1893. The average area swept per day now is about 93,000 square yards. At the rate the improved alley surface is increasing, by reason of new alleys being paved, this amount must necessarily reach to about 120,000 square yards per day by July 1, 1894, making \$15,000 a conservative estimate for 1895. The item of \$15,000 estimated for the improved alley service includes the cost of horse hire for the alley inspectors in that branch of the service.

The increase in estimate for sweeping Pennsylvania avenue is due to proposed additional surface, which will require an increase in the force of workmen. There are added to be scraped, First street from and including Garfield Circle to Pennsylvania avenue, Executive avenue (around Treasury building), New York avenue from Fourteenth street to Fifteenth street west, and Pennsylvania avenue from Washington Circle to Rock Creek bridge.

The item of \$30,000 for labor upon unimproved streets and alleys, complaints, etc., is also conservative. The service is constantly increasing and the number of dumping grounds decreasing, making more horses and carts necessary. Twenty-seven thousand two hundred and fifty-five dollars and twelve cents was expended during the last fiscal year.

If the horse hire for the inspectors is made payable out of the amounts allowed for sprinkling and sweeping the streets and for sprinkling and sweeping the improved alleys, \$2,500 will be sufficient for contingent expenses, otherwise the amount should be increased to \$3,000. The four horses allowed the inspectors (\$1 per day each for, say, 313 days) would amount to \$1,252. The superintendent's horse, at \$22.50 per month for livery and about \$2.50 a month for shoeing, repairs to harness, buggy, etc., would run the contingent expenses up to \$1,552, to which must be added rent of office and storeroom (probably \$600 per annum more), making a total of \$2,152, to say nothing about the other absolutely necessary items given in original estimate.

Collection and removal of ashes.—The item for the collection and removal of ashes is based upon the best information the Commissioners have thus far been able to obtain on the subject. The superintendent of street cleaning estimates that it will cost approximately about \$40,000 to remove the ashes once a week, exclusive of hotels, restaurants, manufactories, public buildings, and large office buildings. The municipal reports of the large cities in the country generally do not give the cost of removing ashes separately, as this service is usually combined with the garbage service, and the Commissioners are obliged to make an experimental estimate.

Harbor and river front.—The change in the estimate for the harbor and river front is due to the fact that the force on the harbor boat has been estimated for in detail under the head of "Executive office," and the amount deducted from that previously provided under this head.

SCHOOLS—Salaries in superintendent's office.—The salaries are the same as have been given for ten years. The number of employes has not been increased during that time, except that a custodian of free text-books has been added to take charge of an entirely new department of work, whereas the schools and the clerical work connected with them have increased at least 25 per cent. The labor connected with this office requires much overtime work at night and on Sundays.

Teachers.—An increase of fifty teachers is asked. This is the increase that has been asked annually for a number of years, which has been found to be none too large for the continued growth of the schools.

Janitors.—An increase of \$100 to the salary of the janitor of the Peabody School is asked. The trustee having charge of the division in which is the Peabody School urged this because of the extra work involved in caring for that building, it being practically a 4-story rather than a 3-story building. The janitor of this building served without additional compensation during the entire time that the Eastern High School was quartered there.

Fuel.—The estimate for fuel is increased because it was necessary to run a deficiency for fuel last year.

Industrial instruction.—An increase of \$2,000 is made in this estimate at the suggestion of the president of the board of trustees for the purpose of adding to the department certain technical branches of work.

Free text-books and supplies:

To replace worn-out books.....	\$13, 150
To furnish books for the increase of pupils.....	2, 720
For care and distribution (including hauling, etc.).....	1, 500
For the purchase of perishable materials, such as writing books, drawing books, composition paper, ink, pens, chalk, printing, etc.....	12, 630
Total.....	30, 000

New buildings and furniture.—Concerning the necessity of a building in the third division, there are fourteen rooms in the Tyler and Cranch buildings into which must go twenty-three schools, necessitating half time for eighteen schools, or,

to say it another way, there are 440 children in the first six grades who need quarters where they can attend school whole days. Besides, the growth of the schools must be provided for. The population in this section of the city is increasing very rapidly.

The building asked for in the fourth division is to replace the Greenleaf, a 4-room building, which is wholly unfit for use, having been condemned by the health officers of the District. Although this building is unfit for use it has been found necessary to put double schools in each of three of the rooms. The people of this part of the city have reason to complain of the inadequate accommodations for the education of their children. The files of the office show that for the years 1889, 1890, 1891, 1892, and 1893 permits were issued for the erection of 1,225 dwellings in South Washington. Allowing two pupils for each dwelling, this would represent an increase in school population of 2,450. During the above period two 8-room buildings were constructed with accommodations for 800 pupils, still leaving unprovided with school facilities 1,650 children.

A school building is asked for Mount Pleasant, because of the very rapid growth of this section of the city, and because of the inadequacy of the present school building. The building is small, having no cloakrooms. It has no ventilation other than windows or doors, and is therefore unhealthful. Many of the people of Mount Pleasant have been forced to send their children to the city to find proper school accommodations for them. The necessity for this building is very urgent.

A 4-room building is asked to replace the small wooden structure on the Conduit Road. This suburb is growing very rapidly, and because of the poor accommodations the people are forced to send their children to Georgetown or to the city of Washington, which is a great hardship to them because of the great distance they are from the city and because there is no public conveyance to the city. Many young children are debarred the privilege of school because of the above-stated facts.

Reconstruction of the old portion of the Stevens School building.—The Stevens School was erected in 1868. It is one of the earliest of the buildings for colored schools. It has aged very rapidly, thus indicating the use of poor or indifferent material in its construction. The schoolroom floors have worn so thin as not only to make impossible permanent setting of the pupils' desks and chairs, but as to become dangerous to limb and life through liability to breaking. One accident has already resulted from a pupil breaking through the floor while walking across it.

About seven years ago two wings, each containing three schoolrooms and a play room, were connected with the original structure to increase the accommodation. In making this addition no change remedying the bad conditions of the old building was made. These additions, in shutting out much of the light and presenting obstructions to the admission of fresh air, in the absence of improved means of ventilation, so greatly aggravated the ill conditions that previously existed as to make the present use of the schoolrooms a constant menace to health. As there were no cloakrooms in the old structure, the halls of that building were at the time of the construction of the two wings converted into cloakrooms. These makeshift cloakrooms in occupying the original hall ways not only cut off ways of easy exit in case of panic, but as they are without light and ventilation add greatly to the vitiated air conditions.

The four rooms in the mansard roof were long since abandoned on account of their unfitness for school use. In their abandonment the accommodation was considerably lessened. In the reconstruction it is proposed to restore this loss, which can be done by having the reconstructed building accord in the number and level of its floors with those of the wings.

The necessity for this accommodation may be seen in the fact that during the last school year it was necessary to have the fifteen available schoolrooms (of which one is a play room converted into a temporary schoolroom) accommodate nineteen schools.

The Stevens School is situated in the midst of a large and annually increasing colored school population. There is now not only absolute want of fit but also of additional accommodation.

School building in eighth division.—The recommendation for a school building and site in the eighth division is based upon the following facts:

The territory within which it is proposed to purchase a site and erect a building thereon extends from Fourth street southeast to the Anacostia River and East Capitol street to the Potomac. It is more than a mile square. Within its area there is not a school for colored children, though there is a large colored school population, many of whom are too small to travel the distance now necessary to reach the nearest school building. Could they do so there would not be room to accommodate them, since the two nearest buildings have, jointly, but nineteen schoolrooms, and these schoolrooms, on account of want of accommodation, were made during the last school year to hold twenty-four schools. This shows not only absolute want of accommodation in the section of the city above named, but also necessarily cramped accommodation in the buildings nearest to it on account of this want.

The items for additions to the Brightwood, Brookland, and Tennallytown school buildings, and the construction of a new 4-room building at Giesboro are based upon recommendations of the board of school trustees, who state that it is their opinion that the capacity of the first three named buildings should be double what it is at present, and that the building at Giesboro is inadequate and unfit for use.

Police.—An increase of force is necessary to fill to some extent the vacancies caused by the withdrawal from regular patrol duty of at least forty men to special service in the District building, Washington Asylum, police court, Executive Mansion, police headquarters, etc.; also to afford better protection to the suburban sections.

Another patrol driver is needed to effect an all night patrol-wagon service in an additional precinct, only five of the nine precincts now having the facilities for such work, notwithstanding the fact that the greatest number of arrests are made after nightfall.

The dilapidated and unsanitary condition of the building rented for police headquarters compelled removal to the offices now occupied by the department. The amount directly paid is \$1,400, and \$400 more are required for two additional rooms needed for the proper dispatch of business.

The increase of \$1,000 for repairs of stations is in accordance with the estimates of the building inspector, and is requisite for the preservation in good condition of nine station houses and ten stables.

The police fund established by act of Congress approved February 25, 1885, is now nearly exhausted, and the sources of supply totally inadequate to the demands. The law can not be carried into effect without an appropriation of the amount named in the estimates.

Fire department.—The increase of \$200 in the compensation of the chief engineer is recommended as a due recognition of faithful service, and to make the compensation comport with the responsibility, labor, and skill involved in the discharge of the duties of this position.

The new engine house for No. 2 company is recommended for the reason that the present house is deficient in appointments and space, damp and otherwise defective in sanitary respects, and could only be rendered suitable for an engine house by reconstruction, even if the ground upon which it is situated was sufficiently large for the purpose. As the site is too small, the Commissioners last December communicated with the officer in charge of public buildings and grounds with the view of obtaining his consent to recommending to Congress the granting of authority for the use of the reservation at the intersection of Ohio avenue, Thirteenth and C streets northwest for a site for an engine house for this company. That officer in a communication dated December 13, 1892, replied that he would not oppose such use of said reservation, as it is so located that it will not be required for ornamental purposes. The present officer in charge of buildings and grounds, under date of July 18, 1893, informs the Commissioners that he concurs in the views expressed by his predecessor.

The proposed new chemical engine company for Mount Pleasant is asked for by the chief of the fire department and the citizens of that suburb. Recent fires in that locality have shown the necessity for better protection from fires than now exist there. A company established in Mount Pleasant could render service over a very large extent of territory now exposed. A chemical plant would afford the cheapest effective protection for the present, while the lot could be used for an engine-house site when greater means of protection from fire should be rendered necessary by urban development.

The estimate for a new company and plant in the northeastern section of the city is a renewal of the estimate made last year.

The estimate for the firemen's relief fund is to provide for seven disabled firemen at \$600 each per annum, and three widows of firemen at \$360 each per annum. Each fireman in the department has to pay \$1 per month toward the firemen's relief fund, designed to afford a retiring pension in case of disability incurred in the public service or of advanced age. They have no choice in the matter of making payment. It is deducted each month from the fireman's pay by authority of law, and it has been supposed that this contribution was but an advance made by each member for his own advantage in case of need; but it is manifest that \$12 per annum, even if continued for the extraordinary length of service of thirty-three and one-third years, would amount to only \$400 principal and \$400 interest—\$800 in all—and this sum would give him only sixteen months' pension at \$50 per month. Even when fines, etc., are added, they could not be relied on to increase the fund to an extent that would suffice for the pensioning of the meritorious firemen that are disabled or grow old in the service. However defective may have been the fiscal calculation on which the fund was based, Congress assumed it to be correct, and compelled the firemen to contribute, and it is now certain that few of those who have contributed to the fund will derive any advantage from it unless Congress shall give that assistance to which the fund seems entitled under the circumstances. The fund has been invested in bonds, but the demand for pensions will render it necessary to sell bonds, and further sales will soon result in the extinction of the fund unless Congress comes to its aid as recommended.

The other increases recommended are due to the extension of the service.

Telegraph and telephone service.—The \$10,000 submitted for special line repairs is to enable the authorities to keep the lines in good order pending the final disposition of the subject of providing an underground system for all electrical services on streets.

Health office.—The increases in the inspection and clerical force of the health office are incidental to the growth of the District.

Daily garbage service from May to October, inclusive.—During the months named more garbage is made than at any other time of the year, and it is of that nature (being more on the order of vegetables, fruits, melons, etc.,) which becomes offensive more quickly than other materials, especially in connection with the operation of warm weather, because of rapid chemical changes.

In January last, when the matter of daily collections, as above, was under consideration, the corps of physicians to the poor, twenty in number, were asked to give their opinions as to the need of such service from a sanitary standpoint, and they were unanimously of the opinion that it was necessary for the health of the city. These opinions were also concurred in by many other practicing physicians.

Last year many of our most influential taxpayers joined in a petition for the daily service, thus showing a willingness to do their share in paying the cost thereof.

A thorough sanitary condition of this city can be maintained during the warm season only by a daily removal of garbage and other germ-producing filth. By this means much of the danger of epidemic diseases would be averted.

The system of house-to-house inspection carried on during the past summer revealed the fact that a certain class of citizens have been brought to see the necessity of absolute cleanliness about their premises, and the salutary results have been greatly beneficial to the entire community. With a daily garbage service as indicated, these habits would be kept in force.

The present cost of a triweekly service from May to October, inclusive, is two-thirds of the total contract price, viz. \$24,200, or \$16,266, there being as many tons removed as in the other months. Upon this basis an additional allowance of \$16,266 should be made.

Police court.—The increase of one deputy is submitted upon the recommendation of the judge of the police court as being necessary to the proper conduct of said court.

Marshal's fees.—The increase of \$400 in the marshal's fees is submitted for the reason that the expenditures on that account render a larger appropriation necessary.

Emergency fund.—The Commissioners have submitted a recommendation for a continuance of the appropriation of \$21,000 made for the current year under this head, as the persistence of epidemic diseases in neighboring countries, and portions of this, seem to indicate that it would be a matter of prudence to have a sufficient fund available to meet any contingency that may arise in this connection.

Defending suits in claims.—The \$1,000 submitted for this purpose is based upon the recommendation of the Attorney-General.

Charities.—The estimates for charities and reforms are based upon recommendations of the superintendent of charities.

Militia.—The estimates for the militia are transmitted as received from the officer in charge of that department, as the law requiring such estimates to be made gives the Commissioners no discretion in the premises.

Supplemental estimates.

The Commissioners have been compelled to omit from their regular estimates several important items, which they deem proper to submit in the form of an appendix. The sole reason for the omission lies in the fact that the total estimated revenues of the District for the fiscal year ending June 30, 1895, were not sufficient to provide for the items in question. In the order of importance these items are as follows:

First. For continuing and completing the system of sewage disposal and protection against floods, project of board of sanitary engineers, 1891, \$4,125,000.

The whole of this amount should be made available as fast as it can be used, because these works are urgently needed and have already been begun, and the project is of such a nature that no considerable part of the work can be used until the whole has been completed; so that the full and general benefit of funds furnished in allotments can not be obtained until the whole project has been carried out.

Second. For extending the system of trunk sewers in the city and suburbs, \$1,000,000.

This work is urgently needed. If the trunk sewers (3 feet in diameter and more) were laid in all parts of the city and the most important suburbs, a very large amount of the sewer system draining into these trunk sewers would be constructed under the permit system, property owners voluntarily paying one-half of the cost, thereby saving hundreds of thousands of dollars to the District. Property owners are very generally willing to put in the smaller sewers under the permit system, but it is manifestly impossible in the general case for the abutting owner to stand one-half the cost of a trunk sewer 3 feet or more in diameter. Consequently, where these trunk sewers are required property owners have to wait until the District constructs the whole system, which is a loss to the owner by retarding the development of his property and to the District in that it has to do the work, paying the whole cost, instead of paying only the half cost of all the smaller sewers which in the aggregate are the most expensive part of the sewer system.

Third. The third item in the appendix relates to the improvement of streets and roads. Very important work of this character has necessarily been omitted from the regular estimates for the reason heretofore stated. The work referred to embraces expenditures on sundry streets and avenues to cost \$125,000, and the construction of county roads to cost \$43,000. The Commissioners are of the opinion that the improvement of all the streets and roads in Schedules "A" and "B," submitted by the engineer department, are necessary to the best interests of the District.

Fourth. For raising the height of the dam at Great Falls so as to keep the water in the distributing reservoir at a level of 146 feet above datum at all stages of the river, \$102,691.

Commencing the widening of the macadam pavement of the Conduit Road to a width of 30 feet, by widening that portion of the road that lies between the lower end of the distributing reservoir and the receiving (or Dalecarlia) reservoir, widening the road and the embankments over the culverts on the line of the aqueduct where necessary for this purpose, making the necessary changes in the drainage, and the planting of shade trees (submitted), \$34,500.

Lowering the height of the cross dams at the distributing reservoir (submitted), \$12,500.

Protecting the inlet to the aqueduct at Great Falls (submitted), \$5,000.

Purchase or condemnation of a site for a storage yard (submitted), \$10,000.

Cleaning out the distributing reservoir (submitted), \$13,825.

Widening and deepening the channel from the spillway at the receiving (or Dalecarlia) reservoir (submitted), \$2,000.

Storehouse at Great Falls (submitted), \$1,500.

Inserting air valves and blow-off valves in the 36-inch and 30-inch mains (submitted) \$6,250.

Removing the accumulation of deposits in the conduit (submitted), \$14,000.

Rebuilding the bridge over the channel from the spillway at the receiving (or Dalecarlia) reservoir (submitted), \$18,000.

Raising the height of the masonry casings of the conduit manholes where necessary (submitted), \$600.

ESTIMATED RECEIPTS OF THE DISTRICT OF COLUMBIA FOR THE FISCAL YEAR ENDING JUNE 30, 1895, EXCLUSIVE OF THE WATER DEPARTMENT.

Tax on real estate, \$184,958,886, at \$1.50.....	\$2, 774, 883 20

APPENDIX Aa.

In relation to the estimates of the Treasurer of the United States for sinking-fund office, District of Columbia. (See page 246.)

TREASURY DEPARTMENT, OFFICE OF THE TREASURER,
Washington, D. C., September 14, 1893.

SIR: I have the honor to transmit herewith an estimate of the appropriations required for the service of the sinking fund office for the fiscal year ending June 30, 1895, for the interest and sinking fund on the funded debt of the District of Columbia, and for such other matters relating to District affairs for which the Treasurer is required to make estimates.

While the Treasurer of the United States as *ex officio* commissioner of the sinking fund of the District of Columbia, in the exercise of the functions of his office, is entirely independent of the executive authority of the District, the estimates for appropriations necessary for conducting the business of his office are required to be incorporated in the District appropriation bill, and a copy of the estimates for that purpose is sent to the District Commissioners; but before the bill is sent to the Treasury officials for approval, the Treasurer's estimate for clerical services has been invariably reduced to the original amount appropriated for such services in 1878, when the duties of the late sinking-fund commissioners were transferred to the Treasurer, notwithstanding the fact that the duties of the office have been increased nearly twofold since that time, by Congressional enactments.

The duties pertaining to the sinking-fund office are of varied and diverse character, requiring faithful and prompt attention and a knowledge only to be acquired by experience, besides being attended with great responsibility.

As the Treasurer is responsible under his bond for the faithful performance of these duties, and for which he receives no compensation, it seems but just and proper that those on whom he is of necessity compelled to rely should receive compensation commensurate with the onerous and responsible duties they are called upon to perform.

The following is an extract from the Treasurer's annual report showing the transactions and business of the office during the fiscal year 1893, and from which it will appear that the duties relating to the sinking fund and funded debt of the District constitute but a small portion of the business now required to be performed by the Treasurer relative to District affairs:

BUSINESS OF THE OFFICE.

The transactions of the office during the fiscal year 1893 were as follows:

Issued and sold under the provisions of the act of March 3, 1891, \$400,000 District of Columbia 3.50 per cent funding bonds.

Examined, recorded, and canceled \$494,400 of the registered 3.50 per cent bonds received for transfer.

Examined, arranged, and recorded 6,989 paid coupons and 137 interest checks pertaining to the various bonds of the District, representing a disbursement of \$230,304, and rendered account therefor.

Purchased and redeemed for the several sinking funds and for the redemption fund, bonds amounting to the face value of \$969,800, representing a disbursement of \$978,988.55, and rendered account therefor.

Disbursed salaries of the office amounting to \$2,400, represented by fifteen vouchers, and accounted therefor.

Paid judgments of the Court of Claims amounting to \$10,559.91, and issued \$9,250 in 3.65 per cent bonds for reimbursement thereof.

Examined, arranged, scheduled, and forwarded to the Secretary of the Treasury to be destroyed, 326 8 per cent special-improvement certificates and 268 coupons therefrom, representing a face value of \$51,572.

Examined, recorded, and canceled \$91,000 of the coupon bonds of the 3.65 and 5 per cent loans of the District received for exchange, and \$1,394,000 in registered bonds received for transfer.

Stated an account showing the indebtedness of the District of Columbia to the United States for one-half of the amount expended to increase the water supply of the city of Washington, paid interest on the sum due, and applied the sinking fund provided therefor.

Stated an account showing the indebtedness of the District of Columbia for one-half the cost of the 48-inch and Fourteenth street water mains, paid interest on the sum due, and applied the sinking fund provided therefor.

Prepared and returned to the supreme court of the District of Columbia certified copies of 186 tax-lien certificates called for by 99 certiorari writs.

Examined 97 reports from the collector of special taxes, involving 133 payments on account of tax-lien certificates held by this office, and adjusted the account with each certificate.

Received \$22,481.64 for account of the police and firemen's relief funds, purchased \$1,000 and sold \$11,000 in bonds therefor, and deposited monthly in the Treasury the amount required for the relief of policemen and firemen, aggregating \$21,362.47.

Received retentions from 41 separate contracts with the District, amounting to \$66,116.75, and purchased for account thereof \$52,950 in bonds.

Sold the securities held for five contracts, realizing the sum of \$14,016.93, and stated the account of each contractor with the District.

Made settlement of retentions from thirteen contracts by delivering to the contractor or his legal representative the securities and cash held therefor, amounting to \$25,200 in bonds and \$524.07 in cash.

Transferred and mailed to each contractor or his assignee the checks for interest on the bonds held for account of the several contracts, numbering about 150 quarterly.

Prepared for publication four quarterly debt statements.

Briefed, recorded, and filed 146 letters and accounts.

The correspondence of the office involved the writing of 508 letters.

Disbursements during the year aggregate \$1,916,897.54.

The following-described securities are in the care and custody of the office:

3.65 per cent bonds (unsigned).....	\$3, 078, 450 00
3.50 per cent bonds (unsigned).....	2, 599, 600 00
Chesapeake and Ohio Canal bonds.....	84, 285 00
Bonds for account of contractors.....	275, 150 00
Bonds for account of police fund.....	9, 000 00
Bonds for account of firemen's fund.....	3, 400 00
Total.....	6, 049, 885 00

The Treasurer finds that all of his predecessors in office have invited attention to the inadequate appropriations for the service of the sinking-fund office thus far without effect, and in calling attention to the magnitude and responsibilities of the office desires to show the gross inequality of the appropriations for the service thereof in comparison with other offices of the United States and District of Columbia of like character, and he feels assured that the increased compensation asked for in his estimates will commend itself alike on the principles of justice and sound business policy, believing that just compensation promotes the efficiency of the officer in the discharge of the duties devolving upon him.

Under the present anomalous condition of affairs the United States pays the larger portion of the expenses of the office, which occupies a room in the Treasury building, for the use of which the District pays no rental. The furniture, with the exception of a letter press and typewriter, is the exclusive property of the United States.

The District appropriation bill contains an item for contingent expenses of the District offices, including the sinking-fund office, to be disbursed by the Commissioners of the District, and of which there is set apart for the sinking-fund office such sum as the Commissioners think sufficient, usually about \$200. The Treasurer pays from this fund for printing debt statements, freight on canceled coupons from New York, typewriter supplies, record books, and such other items for which he can furnish adequate vouchers. The United States pays all other expenses, and, when necessary, clerks are detailed from the regular force to assist in the work of the sinking-fund office. At the beginning of the fiscal years 1892 and 1893 from three to four clerks were so detailed for about one week at each period. The extra work was occasioned by the issue and sale of 3.50 per cent bonds, and the redemption of bonds then matured. It became necessary, also, for a portion of the work incidental to the redemption of bonds to be performed in the loan division of the Treasurer's office.

The Treasurer earnestly indorses the following, which has been several times submitted by his predecessors:

"It is recommended that Congress be asked to make the sinking-fund office a regular division of the Treasurer's office, and incorporate the estimates in the appropriation bill for the service of the Department, placing the employes upon the rolls on the same footing, as far as practicable, with the regular employes."

To comply with the requirements of the present law it would only be necessary, at the end of each fiscal year, to charge one-half of the expenses of the office to the District of Columbia, similar to the manner in which the expenses of the National Bank Redemption Agency are reimbursed to the United States from the funds contributed by the national banks.

The foregoing recommendation is based upon the fact that the sinking-fund office is legitimately an office of the United States and a branch of the Treasurer's bureau, for which he is as much responsible under his bond as for any other division of his office.

That it is not a municipal office, nor in any way whatever an office of the District of Columbia, has been conclusively determined, as will appear from the facts to be submitted, and in view of which it is earnestly hoped that the action asked for may receive your indorsement.

The legal aspect of this question has twice come collaterally before the courts.

The first case in which this point arose was that of *Butler v. Strong et al.*, the decision in which was rendered February 23, 1889, and in which the court said:

"It is claimed that the Secretary of the Treasury is the agent of the District of Columbia in relation to these claims against the District, and that the Treasurer of the United States, as sinking-fund commissioner, is also an officer of the District of Columbia. I must dissent entirely from that view. An agent is one who acts by authority of a principal and is bound by his orders and owes obedience to his behests. Both the Secretary of the Treasury and the Treasurer of the United States are officers of the United States, deriving their authority entirely from the laws of the United States. They derive no authority from the District of Columbia as a municipality. They do not hold their offices under the District of Columbia. They do not get any authority from it whatever. They derive all their powers and are charged with all their duties by the laws of the United States, and they are to all intents and purposes, therefore, officers of the United States.

"It is true that in one of the laws the offices of the sinking-fund commissioners were abolished and their duties were transferred to the Treasurer of the United States. These sinking-fund commissioners were officers of the District of Columbia, undoubtedly, and they were continued in being as such.

"But when their offices were abolished their duties were transferred to an officer of the United States. It is true, also, that in one of the acts he is called *ex officio* sinking-fund commissioner of the District of Columbia, but that simply means that, by virtue of his office as Treasurer of the United States, he is charged with the duties of the sinking fund of the District of Columbia, and that is all. He remains an officer of the United States."

The second instant was the recent decision of the Court of Claims in the case of *Wyman v. The United States*. In this case the claimant, in suing for salary while acting as *ex officio* commissioner of the sinking fund, though not admitting that the office was in any way related to the District, expressly endeavored, however, to make it appear that as a distinct office it still existed, but the opinion of the court was that no such office does exist, and that its powers and duties merely were transferred to the Treasurer of the United States.

Weldon, judge, delivered the opinion of the court, as follows:

"* * * On June 11, 1878, another act was passed entitled 'An act providing a permanent form of government for the District of Columbia.' In that act it is provided that the offices of the sinking-fund commissioners are hereby abolished and all duties and powers possessed by said commissioners are transferred to, and shall be exercised by, the Treasurer of the United States, who shall perform the same in accordance with the provisions of existing laws (20 Stat., 107). * * *

"The law of 1878, after the abolition of the offices of sinking-fund commissioners, transferred all duties and powers possessed by said commissioners to the Treasurer of the United States; but the office of commissioner was absolutely abolished, and the consequent office of treasurer thereof. The office was not transferred to the Treasurer of the United States, but simply the duties theretofore performed by the treasurer of the Board of Commissioners. * * * It is the judgment of the court that the petition be dismissed."

The powers and duties transferred by the act of June 11, 1878, the Treasurer of the United States exercises in the capacity of a Federal officer, by means of a separate department of his office, known as the sinking-fund office of the District of Columbia, which may appear anomalous in its character, but it is in point of law legitimately and properly an office of the United States, and upon this the Treasurer bases his recommendation.

Respectfully, yours,

D. N. MORGAN,
Treasurer United States, Ex-Officio Commissioner Sinking Fund, District of Columbia.

HON. SECRETARY OF THE TREASURY.

APPENDIX Bb.

Statement of appropriations made during the second session of the Fifty-second Congress for the fiscal year ending June 30, 1894, for which no estimates are submitted for the fiscal year ending June 30, 1895; also deficiency and miscellaneous appropriations made during the same session.

No. 414 Third street NW. (Monthly rental, \$150).....	do.....	1,800 00
		13,160 00
Total.....		34,778 00

STATEMENT OF THE PROCEEDS OF SALES OF GOVERNMENT PROPERTY, PUBLISHED IN CONFORMITY TO THE FOLLOWING PROVISIONS OF LAW.

All proceeds of sales of old material, condemned stores, supplies, or other public property of any kind, except the proceeds of the sale or leasing of marine hospitals, or of the sales of revenue cutters, or of the sales of commissary stores to the officers and enlisted men of the Army, or of materials, stores, or supplies sold to officers and soldiers of the Army, or of the sale of condemned Navy clothing, or of the sales of materials, stores, or supplies to any exploring or surveying expedition authorized by law, shall be deposited and covered into the Treasury as miscellaneous receipts on account of "Proceeds of Government property," and shall not be withdrawn or applied, except in consequence of a subsequent appropriation made by law. A detailed statement of the proceeds of all sales of old material, condemned stores, supplies, or other public property of any kind, shall be included in the appendix to the Book of Estimates.—(Revised Statutes, pages 713, 722, sections 3618, 3672; act February 27, 1877, 19 Stat., 249.)

When covered into Treasury.	No. of warrant.	By whom sold.	Kind of property sold.	Bureau in charge of property.	Amount of each kind of property.	Total amount.
